INFORMATION STATEMENT

WE ARE NOT ASKING YOU FOR A PROXY, AND YOU ARE REQUESTED NOT TO SEND A PROXY.

INTRODUCTION

This Information Statement advises the shareholders of Propanc Biophrma Inc. (the "Company," "we," "our" or "us") of the approval of the following corporate actions:

- Execute a reverse stock split of the Company's issued and outstanding shares of Common Stock at a ratio somewhere between one post-split share per two pre-split shares (1:2) and one post-split share per ten pre-split shares (1:10) (the "Reverse Stock Split").

On October 6, 2026, our Board approved the Reverse Stock Split and submitted the same to certain holders of our Series B Preferred Stock. On the same date, the holder of a majority of the voting power of the outstanding capital stock of the Company (the "Majority Stockholder") executed and delivered to us a written consent in lieu of a meeting (the "Written Consent") approving the the Reverse Stock Split.

Title 8 Section 211 of the DS provides that the written consent of the holders of outstanding shares of voting capital stock having not less than the minimum number of votes which would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted can approve an action in lieu of conducting a special stockholders' meeting convened for the specific purpose of such action. Title 8 Section 211 of the DS, however, requires that in the event an action is approved by written consent, a company must provide notice of the taking of any corporate action without a meeting to all shareholders who were entitled to vote upon the action but who have not consented to the action. Under Delaware law, shareholders are not entitled to dissenters' rights with respect to the transaction listed above.

In accordance with the foregoing, we intend to mail a notice of Written Consent and this Information Statement on or about October 19, 2026. This Information Statement contains a brief summary of the material aspects of the actions approved by the Board and the Majority Stockholder, which hold a majority of the voting capital stock of the Company.

ACTION TAKEN

This Information Statement contains a brief summary of the material aspects of the action approved by the members of the Board of Directors of the Company and the Majority Stockholders.

Dissenter's Rights of Appraisal

Stockholders do not have any dissenter's rights or appraisal rights in connection with the approval of the Reverse Stock Split.

REVERSE STOCK SPLIT

The Board has approved a reverse stock split of all the outstanding shares of the Company's Common Stock at an exchange ratio of somewhere between one post-split share per two pre-split shares (1:2) and one post-split share per ten pre-split shares (1:10). As stated above, the holder of shares representing a majority of the voting securities of the Company have given their written consent to the Reverse Stock Split.

The Board believes the Reverse Stock Split is necessary and advisable in order for the Company to maintain the Company's financing and capital raising ability. Accordingly, it is the Board's opinion that the Reverse Stock Split will better position the Company to continue and/or expand operations.

Upon effectiveness of the Reverse Stock Split, (i) the number of shares of Common Stock issued and outstanding immediately prior thereto will be reduced from approximately 10,331,116 shares (assuming this number of shares, outstanding and issuable as of October 8, 2026, are outstanding immediately prior thereto) to somewhere between approximately 5,165,558 shares and 1,033,112 shares, depending on the ratio the Board elects to enact, and (ii) proportionate adjustments will be made to the per-share exercise price and the number of shares covered by outstanding options and warrants, if any, to buy Common Stock, so that the total prices required to be paid to fully exercise each option and warrant before and after the Reverse Stock Split will be approximately equal. Except for adjustments that may result from the treatment of fractional shares, which will be rounded up to the nearest whole number, each shareholder will beneficially hold the same percentage of Common Stock immediately following the Reverse Stock Split as such shareholder held immediately prior to the Reverse Stock Split.

The Reverse Stock Split will have the result of creating newly authorized shares of common stock. This increase in the authorized number of shares of common stock and any subsequent issuance of such shares could have the effect of delaying or preventing a change in control of the Company without further action by the stockholders. Shares of authorized and unissued common stock could (within the limits imposed by applicable law and stock exchange regulations) be issued in one or more transactions which would make a change in control of the Company more difficult, and therefore less likely. Management use of additional shares to resist or frustrate a third-party transaction favored by a majority of the independent stockholders would likely result in an above-market premium being paid in that transaction. Any such issuance of the additional shares of common stock would likely have the effect of diluting the earnings per share and book value per share of outstanding shares of common stock, and such additional shares could be used to dilute the stock ownership or voting rights of a person seeking to obtain control of the Company. The Board is not aware of any attempt to take control of the Company and has not presented this proposal with the intention that the Reverse Stock Split be used as a type of antitakeover device. Any additional shares of common stock, when issued, would have the same rights and preferences as the shares of common stock presently outstanding. Any additional shares of common stock so authorized will be available for issuance by the Board for stock splits or stock dividends, acquisitions, raising additional capital, conversion of Company debt into equity, stock options, or other corporate purposes. The Company has no other plans for the use of any additional shares of common stock and has no specific plans or proposals to issue additional shares, however, convertible noteholders may elect, at their sole option, to convert their convertible promissory notes into equity. The Company does not anticipate that it would seek authorization from the stockholders for issuance of such additional shares unless required by applicable law or regulations.

The Reverse Stock Split will become effective on the date that Nasdaq processes and approves the action. We intend to file the Reverse Stock Split with Nasdaq and have it become effective as soon as practicable.

OUTSTANDING VOTING SECURITIES

As of October 8, 2026, there were issued and outstanding 10,331,116 shares of Common Stock (with the holder of each share having one vote) and 1 share of Series B Preferred Stock. Pursuant to Title 8 Section 211 of the DS, at least a majority of the voting equity of the Company is required to approve the action by written consent. The Majority Stockholder, who holds 1,400,000 shares of Common Stock, and 1 share of Series B Preferred Stock (approximately 50.01% of the total voting equity of the Company), has voted in favor of the action, thereby satisfying the requirement under Title 8 Section 211 of the DS that at least a majority of the voting equity vote in favor of a corporate action by written consent.

The following table sets forth the name of the Majority Stockholder, the total number of shares that the Majority Stockholder voted in favor of the Reverse Stock Split, and the percentage of the issued and outstanding voting equity of the Company voted in favor thereof.

Name of Majority Stockholder	Number of Common Shares Held	Number of Series B Preferred Shares Held	Number of Votes in Favor of Actions	Percentage of the Voting Equity that Voted in Favor of the Actions (1)
