NOTE 1 – NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Nature of Operations

Propanc Biopharma, Inc. (the "Company," "we," "us," "our" or "Propanc Biopharma") was originally incorporated in Melbourne, Victoria Australia on October 15, 2007 as Propanc PTY LTD, and continues to be based in Camberwell, Victoria Australia. Since its inception, substantially all of the operations of the Company have been focused on the development of new cancer treatments targeting high-risk patients, particularly cancer survivors, who need a follow-up, non-toxic, long-term therapy designed to prevent the cancer from returning and spreading. The Company anticipates establishing global markets for its technologies. Our lead product candidate, which we refer to as PRP, is an enhanced pro-enzyme formulation designed to enhance the anti-cancer effects of multiple enzymes acting synergistically. It is currently in the preclinical phase of development.

On November 23, 2010, the Company was incorporated in the state of Delaware as Propanc Health Group Corporation. In January 2011, to reorganize the Company, we acquired all of the outstanding shares of Propanc PTY LTD on a one-for-one basis making it a wholly-owned subsidiary of the Company.

Effective April 20, 2017, the Company changed its name to "Propanc Biopharma, Inc." to better reflect the Company's stage of growth and development.

The Company has filed six patent applications relating to its lead product, PRP. The first application was filed in October 2010 in each of the countries listed in the table below. This application has been granted and remains in force in the United States, Australia, China, Japan, Indonesia, Israel, New Zealand, Singapore and South Africa. In Brazil, Canada, Europe, Malaysia, Mexico and South Korea, the patent application remains under examination.

In 2016 and early 2017 we filed five other patent applications, as indicated below. Two applications were filed in Spain, where one is currently under examination, and one was filed in the United States. Two others were filed under the PCT. The PCT assists applicants in seeking patent protection by filing one international patent application under the PCT, applicants can simultaneously seek protection for an invention in over 150 countries. Once filed, the application is placed under the control of the national or regional patent offices, as applicable, in what is called the national phase.

Further patent applications are expected to be filed to capture and protect additional patentable subject matter based on the Company's field of technology relating to pharmaceutical compositions of proenzymes for treating cancer.

On April 20, 2017, the Company filed certificated of amendment to its certificate of incorporation whereby the Company (i) decreased the number of authorized shares of common stock, par value \$0.001 per share (the "Common Stock") to 100,000,000 (ii) decreased the number of authorized shares of preferred stock to 1,500,005 and (iii) effected a, one-for-two hundred and fifty (1:250) reverse stock split of its issued and outstanding shares of Common Stock. Proportional adjustments for the reverse stock split were made to the Company's outstanding stock options, warrants and equity incentive plans, including all share and per-share data, for all amounts and periods presented in the unaudited consolidated financial statements.

Basis of Presentation

The interim unaudited consolidated financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") and pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). In the opinion of the Company's management, all adjustments (consisting of normal recurring adjustments and reclassifications and non-recurring adjustments) necessary to present fairly our results of operations for the three months ended September 30, 2017 and 2016 and cash flows for the three months ended September 30, 2017 and 2016 and our financial position at September 30, 2017 have been made. The results of operations for such interim periods are not necessarily indicative of the operating results to be expected for the full year.

Reference is frequently made herein to the Financial Accounting Standards Board (the "FASB") Accounting Standards Codification ("ASC"). This is the source of authoritative US GAAP recognized by the FASB to be applied to non-governmental entities. Each ASC reference in this filing is presented with a three-digit number, which represents its Topic. As necessary for explanation and as applicable, an ASC topic may be followed with a two-digit subtopic, a two-digit section or a two-or-three digit paragraph.

Certain information and disclosures normally included in the notes to the annual audited consolidated financial statements have been condensed or omitted from these interim unaudited consolidated financial statements. Accordingly, these interim unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the fiscal year ended June 30, 2017. The June 30, 2017 balance sheet is derived from those statements.

Principles of Consolidation

The unaudited consolidated financial statements include the accounts of Propanc Biopharma, Inc. and its wholly-owned subsidiary, Propanc PTY LTD. All inter-company balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Significant estimates in the accompanying unaudited consolidated financial statements include the estimates of useful lives for depreciation, valuation of derivatives, valuation of beneficial conversion features on convertible debt, allowance for uncollectable receivables, valuation of equity based instruments issued for other than cash, the valuation allowance on deferred tax assets and foreign currency translation due to certain average exchange rates applied in lieu of spot rates on transaction dates.

Foreign Currency Translation and Other Comprehensive Income (Loss)

The Company's functional currency is the Australian dollar (AUD). For financial reporting purposes, the Australian dollar has been translated into United States dollars (\$ and/or USD) as the reporting currency. Assets and liabilities are translated at the exchange rate in effect at the balance sheet date. Revenues and expenses are translated at the average rate of exchange prevailing during the reporting period. Equity transactions are translated at each historical transaction date spot rate. Translation adjustments arising from the use of different exchange rates from period to period are included as a component of stockholders' equity (deficit) as "accumulated other comprehensive income (loss)." Gains and losses resulting from foreign currency transactions are included in the statement of operations and comprehensive income (loss) as other income (expense). There have been no significant fluctuations in the exchange rate for the conversion of Australian dollars to USD after the balance sheet date.

Other Comprehensive Income (Loss) for all periods presented includes only foreign currency translation gains (losses).

As of September 30, 2017 and June 30, 2017, the exchange rates used to translate amounts in Australian dollars into USD for the purposes of preparing the unaudited consolidated financial statements were as follows:

Fair Value of Financial Instruments and Fair Value Measurements

The Company measures its financial assets and liabilities in accordance with US GAAP. For certain of the Company's financial instruments, including cash and cash equivalents, accounts and other receivables, accounts payable and accrued expenses and other liabilities, the carrying amounts approximate fair value due to their short maturities. Amounts recorded for loans payable, also approximate fair value because current interest rates available to us for debt with similar terms and maturities are substantially the same.

The Company has adopted ASC 820, "Fair Value Measurement," accounting guidance for fair value measurements of financial assets and liabilities. The adoption did not have a material impact on the Company's results of operations, financial position or liquidity. This standard defines fair value, provides guidance for measuring fair value and requires certain disclosures. This standard does not require any new fair value measurements but rather applies to all other accounting pronouncements that require or permit fair value measurements. This guidance does not apply to measurements related to share-based payments. This guidance discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). The guidance utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices that are observable, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

The estimated fair value of certain financial instruments, including accounts receivable and accounts payable are carried at historical cost basis, which approximates their fair values because of the short-term nature of these instruments. The cost basis of notes and convertible debentures approximates fair value due to the market interest rates carried for these instruments.

Also see Note 10 - Derivative Financial Instruments.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and at banks, short-term deposits with an original maturity of six months or less with financial institutions, and bank overdrafts. Bank overdrafts are reflected as a current liability on the balance sheets. There were no cash equivalents as of September 30, 2017 or June 30, 2017.

Patents

Patents are stated at cost and reclassified to intangible assets and amortized on a straight-line basis over the estimated future periods if and once the patent has been granted by a regulatory agency. However, the Company will expense any product costs for so long as we remain in the startup stage. Accordingly, as the Company's products were and are not currently approved for market, all patent costs incurred from 2013 through 2017 were expensed immediately. This practice of expensing patent costs immediately ends when a product receives market authorization from a government regulatory agency.

Impairment of Long-Lived Assets

In accordance with ASC 360-10, "Long-lived assets," property and equipment and intangible assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the assets. Fair value is generally determined using the asset's expected future discounted cash flows or market value, if readily determinable.

Australian Goods and Services Tax (GST)

Revenues, expenses and balance sheet items are recognized net of the amount of GST, except payable and receivable balances which are shown inclusive of GST. The GST incurred is payable on revenues to, and recoverable on purchases from, the Australian Taxation Office.

Cash flows are presented in the statements of cash flow on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

As of September 30, 2017 and June 30, 2017, the Company was owed \$7,142 and \$8,111, respectively, from the Australian Taxation Office. These amounts were fully collected subsequent to the balance sheet reporting dates.

Derivative Instruments

ASC Topic 815, *Derivatives and Hedging* ("ASC Topic 815"), establishes accounting and reporting standards for derivative instruments and for hedging activities by requiring that all derivatives be recognized in the balance sheet and measured at fair value. Gains or losses resulting from changes in the fair value of derivatives are recognized in earnings or recorded in other comprehensive income (loss) depending on the purpose of the derivatives and whether they qualify and have been designated for hedge accounting treatment. The Company does not have any derivative instruments for which it has applied hedge accounting treatment.

Convertible Notes With Variable Conversion Options

The Company has entered into convertible notes, some of which contain variable conversion options, whereby the outstanding principal and accrued interest may be converted, by the holder, into common shares at a fixed discount to the price of the common stock at the time of conversion. The Company treats these convertible notes as stock settled debt under ASC 480, "Distinguishing Liabilities from Equity" and measures the fair value of the notes at the time of issuance, which is the result of the share price discount at the time of conversion, and records the put premium as accretion to interest expense to the date of first conversion.

Income Taxes

The Company is governed by Australia and United States income tax laws, which are administered by the Australian Taxation Office and the United States Internal Revenue Service, respectively. The Company follows ASC 740 "Accounting for Income Taxes," when accounting for income taxes, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for temporary differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The Company adopted provisions of ASC 740, Sections 25 through 60, "Accounting for Uncertainty in Income Taxes." These sections provide detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a "more-likely-than-not" recognition threshold at the effective date to be recognized upon the adoption of ASC 740 and in subsequent periods.

Research and Development Costs and Tax Credits

In accordance with ASC 730-10, "Research and Development-Overall," research and development costs are expensed when incurred. Total research and development costs for the three months ended September 30, 2017 and September 30, 2016 were \$563,739 and \$161,197, respectively.

The Company may apply for research and development tax concessions with the Australian Taxation Office on an annual basis. Although the amount is possible to estimate at year end, the Australian Taxation Office may reject or materially alter the claim amount. Accordingly, the Company does not recognize the benefit of the claim amount until cash receipt since collectability is not certain until such time. The tax concession is a refundable credit. If the Company has net income then the Company can receive the credit which reduces its income tax liability. If the Company has net losses, then the Company may still receive a cash payment for the credit, however, the Company's net operating loss carryforwards are reduced by the gross equivalent loss that would produce the credit amount when the income tax rate is applied to that gross amount. The concession is recognized as an income tax benefit, in operations, upon receipt.

Stock Based Compensation

The Company records stock based compensation in accordance with ASC 718, "Stock Compensation" as well as SEC Staff Accounting Bulletin No. 107 Share Based Payment, which was issued by the SEC in March 2005 and related to its interpretation of ASC 718. ASC 718 requires the fair value of all stock-based employee compensation awarded to employees to be recorded as an expense over the related requisite service period. The Company values employee and non-employee stock based compensation at fair value using the Black-Scholes Option Pricing Model.

The Company accounts for non-employee share-based awards in accordance with the measurement and recognition criteria of ASC 505-50 "Equity-Based Payments to Non-Employees."

Revenue Recognition

In accordance with SEC Staff Accounting Bulletin No. 104, *Revenue Recognition*, (codified in ASC 605), the Company intends to recognize revenue when (i) persuasive evidence of a customer or distributor arrangement exists or acceptance occurs, (ii) a retailer, distributor or wholesaler receives the goods, (iii) the price is fixed or determinable, and (iv) collectability of the sales revenues is reasonably assured. Subject to these criteria, the Company intends to recognize revenue relating to royalties on product sales in the period in which the sale occurs and the royalty term has begun.

Basic and Diluted Net Loss Per Common Share

Basic net loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share is computed by dividing the net loss by the weighted average number of common shares outstanding for the period and, if dilutive, potential common shares outstanding during the period. Potentially dilutive securities consist of the incremental common shares issuable upon exercise of common stock equivalents such as stock options, warrants and convertible debt instruments. Potentially dilutive securities are excluded from the computation if their effect is anti-dilutive. As a result, the basic and diluted per share amounts for all periods presented are identical. For the three months ended September 30, 2017 there were 149,517 warrants outstanding, 572,000 stock options and sixteen convertible notes payable that are convertible into 21,962,241 common shares, respectively which are considered dilutive securities which were excluded from the computation since the effect is anti-dilutive.

Recently Adopted Accounting Pronouncements

Certain FASB Accounting Standard Updates ("ASU") that are not effective until after September 30, 2017 are not expected to have a significant effect on the Company's consolidated financial position or results of operations. The Company is evaluating or has implemented the following at September 30, 2017:

In August 2016, the FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. ASU 2016-15 addresses eight specific cash flow issues with the objective of reducing diversity in practice regarding how certain cash receipts and cash payments are presented in the statement of cash flows. The standard provides guidance on the classification of the following items: (1) debt prepayment or debt extinguishment costs, (2) settlement of zero-coupon debt instruments, (3) contingent consideration payments made after a business combination, (4) proceeds from the settlement of insurance claims, (5) proceeds from the settlement of corporate-owned life insurance policies, (6) distributions received from equity method investments, (7) beneficial interests in securitization transactions, and (8) separately identifiable cash flows. The Company is required to adopt ASU 2016-15 for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2017 on a retrospective basis. Early adoption is permitted, including adoption in an interim period. The Company is currently evaluating the impact of adoption of ASU 2016-15.

In March 2016, the FASB issued ASU 2016-09, "Improvements to Employee Share-Based Payment Accounting," which amends several aspects of the accounting for share-based payment transaction, including income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. These changes become effective for the Company's fiscal year beginning July 1, 2017. The Company has determined that ASU 2016-09 will have no material impact on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, "Leases," which will require lessees to recognize assets and liabilities for the rights and obligations created by most leases on the balance sheet. The changes become effective for the Company's fiscal year beginning July 1, 2019. Modified retrospective adoption for all leases existing at, or entered into after, the date of initial application, is required with an option to use certain transition relief. The Company expects this ASU will increase its current assets and current liabilities, but have no net material impact on its consolidated financial statements.

NOTE 2 – GOING CONCERN

The accompanying unaudited consolidated financial statements have been prepared in conformity with US GAAP, which contemplate continuation of the Company as a going concern. For the three months ended September 30, 2017, the Company had no revenues, had a net loss of \$1,923,743 and had net cash used in operations of \$785,668. Additionally, as of September 30, 2017, the Company had a working capital deficit, stockholders' deficit and accumulated deficit of \$6,750,327, \$6,737,522 and \$40,167,266, respectively. It is management's opinion that these conditions raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the date of this filing.

The unaudited consolidated financial statements do not include any adjustments to reflect the possible future effect on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the outcome of this uncertainty.

Successful completion of the Company's development program and, ultimately, the attainment of profitable operations are dependent upon future events, including obtaining adequate financing to fulfill its development activities, acceptance of the Company's patent applications and ultimately achieving a level of sales adequate to support the Company's cost structure. However, there can be no assurances that the Company will be able to secure additional debt or equity investments or achieve an adequate sales level.

NOTE 3 – DUE TO DIRECTORS - RELATED PARTIES

Due to directors - related parties represents unsecured advances made primarily by a former director for operating expenses on behalf of the Company such as intellectual property and formation expenses. The expenses were paid for on behalf of the Company and are due upon demand. The Company is currently not being charged interest under these advances. The total amount owed the former director at September 30, 2017 and June 30, 2017 is \$35,957 and \$35,204, respectively.

(unaudited)

NOTE 4 – LOANS AND NOTES PAYABLE

<u>Loans from Directors and Officer - Related Parties</u>

Loans from Directors and Officer at September 30, 2017 and June 30, 2017 were \$58,016 and \$56,802, respectively. The loans bear no interest and are all past their due date and in default. The Company did not repay any amount on these loans during the three months ended September 30, 2017.

Other Loans from Unrelated Parties

As of September 30, 2017 and June 30, 2017, other loans from unrelated parties had a balance of \$2,352 and \$2,303, respectively. The Company did not repay any money toward these loans and a foreign currency transaction loss of \$49 was recorded in connection with these loans for the three months ended September 30, 2017.

NOTE 5 – CONVERTIBLE NOTES

Convertible notes at September 30, 2017 were as follows:

Convertible notes and debenture	\$ 3,646,271
Unamortized discounts	(587,621)
Accrued interest	137,491
Premium	1,457,296
Convertible notes, net	\$ 4,653,437

Delafield Financing Agreements

On October 28, 2015 (the "Closing Date"), the Company entered into a securities purchase agreement dated as of the Closing Date (the "Purchase Agreement") with Delafield Investments Limited (the "Purchaser" or "Delafield"). The Purchase Agreement provided that, upon the terms and subject to the conditions set forth therein, the Purchaser would invest \$4,000,000 ("Investment Amount") in exchange for a convertible debenture (the "Debenture") in the principal amount of \$4,400,000 (the "Principal Amount") and a warrant to purchase an aggregate of 104,762 shares of the Company's common stock, par value \$0.001 per share, for an exercise price of \$150 per share for a period of four (4) years from the Closing Date (the "Warrant"). Pursuant to the Purchase Agreement, on the Closing Date, the Company issued the Debenture and Warrant to the Purchaser.

Under the terms of the Purchase Agreement, the Purchaser agreed to deliver a promissory note entered into by the Company and Purchaser on September 24, 2015 with a principal amount of \$1,200,000 (the "Prior Note"). The parties further agreed that the Prior Note was deemed cancelled upon the delivery by the Purchaser to the Company of the Debenture and the amount of the Prior Note is included in the Investment Amount under the Purchase Agreement.

Under the terms of the Purchase Agreement and Debenture, \$2,800,000 of the Investment Amount was deposited into a deposit control account and such amount was to remain in the deposit control account pending the achievement of certain milestones by the Company and the satisfaction of certain equity conditions set forth in the Debenture. Additionally, under the Debenture, the Principal Amount would be reduced by \$25,000 if the Company filed a registration statement with the SEC within 30 days following the Closing Date. The Principal Amount would be reduced by an additional \$25,000 if the registration statement was deemed effective within 100 days after the Closing Date. On November 23, 2015, the Company filed a registration statement with the SEC and on December 10, 2015, the registration statement was declared effective. As both of these conditions were met, the Principal Amount was reduced by \$50,000, which was credited to interest expense such that the aggregate remaining principal amount was \$4,350,000 and the \$2,800,000 was released from the deposit control account.

The Purchase Agreement contains customary representations, warranties and covenants by, among and for the benefit of the parties. The Company also agreed to pay up to \$50,000 of reasonable attorneys' fees and expenses incurred by the Purchaser in connection with the transaction. The Purchase Agreement also provides for indemnification of the Purchaser and its affiliates in the event that the Purchaser incurs losses, liabilities, obligations, claims, contingencies, damages, costs and expenses related to a breach by the Company of any of its representations, warranties or covenants under the Purchase Agreement.

The Debenture has a 10% original issue discount and was originally scheduled to mature on October 28, 2016. The Principal Amount accrues interest at the rate of 5% per annum with a one year value guarantee of \$217,500, payable quarterly in cash (or if certain conditions are met, in stock at the Company's option) on January 1, April 1, July 1 and October 1. The Debenture was, prior to the Addendum (as defined below), convertible at any time, in whole or in part, at the Purchaser's option into shares of the Company's Common Stock at a conversion price equal to \$10.50, which is the volume weighted average price ("VWAP") of the Company's Common Stock five days prior to the execution of the Debenture (subject to adjustment) (the "Conversion Price"). At any time after the effective date of the registration statement, the Purchaser had the opportunity to convert up to an aggregate of \$2,090,000 of the Debenture, at one or more conversion dates, into shares of Common Stock at a conversion price equal to the VWAP of the Common Stock over the five (5) trading days prior to such effective date. The Purchaser's option to convert at such a conversion price expired when the Purchaser converted an aggregate of \$2,090,000 of the Debenture using such conversion price. If the VWAP of the Company's Common Stock on any trading day was less than the Conversion Price, the Purchaser could convert at a price per share equal to a twenty percent (20%) discount to the average of the two lowest closing prices during the five trading days prior to the date of conversion. During the year ended June 30, 2016, the Company withdrew a principal amount of \$2,800,000 from the deposit control account of which \$269,976 was paid directly as partial payment of a note dated June 4, 2015 and \$33,437 was paid directly to legal fees resulting in net cash proceeds of \$2,496,587 received by the Company. An aggregate total of \$1,955,300 was bifurcated with the embedded conversion option recorded as a derivative liability at fair value. During the year ended June 30, 2016, the Purchaser converted \$2,790,806 of principal and \$108,750 of accrued interest into shares of the Company's Common Stock. During the year ended June 30, 2017, the Purchaser converted \$885,400 of principal and \$108,750 of accrued interest into shares of the Company's Common Stock.

During the three months ended September 30, 2017, the Purchaser converted \$142,500 of principal into shares of the Company's Common Stock (See Note 6). Total principal outstanding as of September 30, 2017 is \$577,771. Accrued interest as of September 30, 2017 was \$27,787 and was accrued in connection with a letter agreement revising the original terms of the agreement as documented below, which after multiple amendments has a due date of December 15, 2017. The above conversions relate to additional proceeds received under the Debenture as documented below.

The Debenture includes customary event of default provisions and provides for a default interest rate of 18%. Upon the occurrence of an event of default, the Purchaser may convert the Debenture into shares of Common Stock at a price per share equal to a thirty percent (30%) discount to the average VWAP of the shares for the six trading days prior to conversion. As of September 30, 2017, the Company was not in default under the Debenture.

Subject to the conditions set forth in the Debenture, the Company has the right at any time to redeem some or all of the total outstanding amount then remaining under the Debenture in cash at a price equal to 125% of the total amount of the Debenture outstanding on the twentieth (20th) trading date following the date the Company delivers notice of such redemption to the Purchaser.

At no time is the Purchaser entitled to convert any portion of the Debenture to the extent that after such conversion, the Purchaser (together with its affiliates) would beneficially own more than 4.99% of the outstanding shares of Common Stock as of such date.

The Warrant was exercisable in whole or in part, at an initial exercise price per share of \$150. The exercise price and number of shares of the Company's Common Stock issuable under the Warrant (the "Warrant Shares") were subject to adjustments for stock dividends, splits, combinations, subsequent rights offerings and pro rata distributions. Any adjustment to the exercise price would similarly cause the number of Warrant Shares to be adjusted so that the total value of the Warrants would have increased. In the event that the Warrant Shares were not included in an effective registration statement, the Warrants could be exercised on a cashless basis.

The Company calculated the Warrant at relative fair value, which was \$712,110 and amortized to interest expense during the year ended June 30, 2016. This Warrant was fully exercised during fiscal 2017 (see the "July Letter Agreement" below).

In connection with the execution of the Purchase Agreement, on the Closing Date, the Company and the Purchaser also entered into a registration rights agreement dated as of the Closing Date (the "Registration Rights Agreement"). Pursuant to the Registration Rights Agreement, the Company agreed to file an initial registration statement with the SEC to register the resale of the Common Stock into which the Debenture may be converted or the Warrant may be exercised, within 30 days following the Closing Date. The registration statement had to be declared effective by the 100th calendar day after the Closing Date, subject to a 20-day extension as requested by the Company and consented to by the Purchaser. On November 23, 2015, the Company filed the registration statement with the SEC and on December 10, 2015, the registration statement was declared effective.

If at any time all of the shares of Common Stock underlying the Debenture or the Warrant are not covered by the initial Registration Statement, the Company agreed to file with the SEC one or more additional registration statements so as to cover all of the shares of Common Stock underlying the Debenture or the Warrant not covered by such initial Registration Statement, in each case, as soon as practicable, but in no event later than the applicable filing deadline for such additional registration statements as provided in the Registration Rights Agreement.

In connection with the Purchase Agreement, the Company entered into a security agreement dated as of even date therewith with the Purchaser whereby the Company agreed to grant to Purchaser an unconditional and continuing first priority security interest in all of the assets and property of the Company to secure the prompt payment, performance and discharge in full of all of the Company's obligations under the Debentures, Warrants and the other transaction documents until ten days following such time as the registration statement was declared effective by the SEC and the equity conditions set forth in the Debenture are met.

On March 11, 2016, the Company entered into an Addendum (the "Addendum") as discussed below with the Purchaser pursuant to which the Company and the Purchaser agreed to new terms with respect to the Purchase Agreement.

Addendum

Under the Addendum, the Company and the Purchaser agreed that the balance of the deposit control account, after giving effect to the amounts released from such account as of the date of the Addendum, would be released to the Company in two installments as follows: (1) up to \$1,200,000 would be released to the Company upon full execution of the Addendum, which occurred on March 16, 2016, and (2) up to \$375,000 within 60 days of the full execution of the Addendum as long as certain conditions were met, which occurred on May 19, 2016.

The Company and the Purchaser agreed that the new conversion price would be \$7.50; provided that in the event that the VWAP per share on any trading day is less than such conversion price, the conversion price would be adjusted to a price per share that was equal to a 22.5% discount to the lowest trading price of the common stock in the ten trading days prior to the date of conversion. The Company evaluated this note modification under ASC 470-50-40-10 and concluded that it does not apply since the conversion option is bifurcated and the 10% cash flow test was not met under ASC 470-50.

Under the Addendum, the Purchaser agreed to limit the number of shares of Common Stock it sells on any trading day to an amount of shares that is less than 25% of the trading volume of the Common Stock on that same trading day. The Purchaser and the Company may agree otherwise with respect to this trading limitation.

The Company also agreed to reserve an additional 1,200,000 shares for issuance and to file a registration statement on Form S-1 to register shares covering the resale of all of the additional shares of common stock that are issuable upon conversion of the Debenture, as modified by this Addendum. On March 25, 2016, the Company filed a registration statement with the SEC and on April 19, 2016, the registration statement was deemed effective.

The Company and the Purchaser agreed that the initial stock purchase agreement and the Debenture, as applicable, would continue in effect and remain in place, except to the extent modified by the Addendum.

July and August Letter Agreements

On July 1, 2016, the Company entered into a Letter Agreement (the "July Letter Agreement") with the Purchaser, and the parties then entered in a second letter agreement dated August 3, 2016 (the "August Letter Agreement"), pursuant to the Purchase Agreement.

Under the July Letter Agreement, the Purchaser agreed to exercise the Warrant with respect to all 104,762 shares of common stock underlying the Warrant. In consideration for the Purchaser's exercise of the Warrant, the Company agreed to adjust the exercise price from \$150 per share to \$3.00 per share. In addition, the Company and the Purchaser agreed to modify the July 1, 2016 "Interest Payment Date" and the October 1, 2016 "Interest Payment Date" as such terms are defined in the Debenture. The Company delayed the interest payment due on the July 1, 2016 Interest Payment Date by a minimum of 30 calendar days (the "Minimum Extension Date") and up to 60 calendar days, provided that the Purchaser could demand payment any time after the Minimum Extension Date. The Company also may delay the interest payment due on the October 1, 2016 Interest Payment Date to the October 28, 2016 maturity date (the "Maturity Date") unless the Purchaser demands earlier payment; provided however, that if the Purchaser has not demanded payment by October 27, 2016, the Maturity Date would have been extended until December 31, 2016 (or such earlier date as the parties mutually agreed) and the interest payment that would have been due on the October 1, 2016 would become due on December 31, 2016, unless the Purchaser demanded earlier payment. The note was further extended to September 30, 2017 and then to December 15, 2017 as discussed below.

On July 8, 2016, the Warrant for 104,762 shares was fully exercised at a price of \$3 per share for a total of \$314,286, see above. The Company revalued the warrants on the modification date at the new exercise price and recorded an additional expense in fiscal 2017 of approximately \$21,000 related to the incremental increase in value.

Pursuant to the August Letter Agreement, the Maturity Date of the Debenture was extended until February 28, 2017 and did not accrue interest from October 28, 2016 through the Maturity Date (provided that all accrued but unpaid interest prior to October 28, 2016 (the original maturity date) will be due and payable pursuant to the terms of the Debenture). The note was further extended to September 30, 2017 and then to December 15, 2017 as discussed below.

The Debenture is convertible at any time, in whole or in part, at the Purchaser's option into shares of Common Stock at a conversion price equal to \$7.50 per share; provided that in the event that the VWAP on any trading day is less than such conversion price, the conversion price will be adjusted to a price per share that is equal to a 22.5% discount to the lowest trading price of the Common Stock in the ten trading days prior to the date of conversion.

Warrants

Pursuant to the August Letter Agreement and in consideration for extending the Maturity Date of the Debenture as noted above, the Company issued the Purchaser warrants to purchase up to 960,000 shares of Common Stock (the "2016 Warrants"). The 2016 Warrants entitled the holder to purchase (i) up to 800,000 shares of Common Stock at exercise prices ranging from \$3.00 to \$5.00 per share (the "Five Month Warrant"), and (ii) up to 160,000 shares of Common Stock at an exercise price of \$25.00 per share (the "Two Year Warrant"). The Company also agreed to file a registration statement with the SEC, to register for resale the 960,000 shares of Common Stock underlying the 2016 Warrants. The Company calculated the 960,000 warrants at relative fair value, which was \$910,178 and is being amortized to interest expense over the remaining term of the debenture in accordance with ASC 470-50-40-17. The 2016 Warrants were subsequently cancelled as part of the "December Letter Agreement" (see below).

The 2016 Warrants were immediately exercisable. On August 18, 2016, the Purchaser notified the Company of its exercise of 50,000 shares of Common Stock under the first tranche of the Five Month Warrant at a purchase price of \$3.00 per share or \$150,000 in the aggregate. These shares were later redeemed by the Company as part of the "December Letter Agreement."

Pursuant to the Five Month Warrant, if the VWAP of the Common Stock for five consecutive days equaled or exceeded the exercise price of any tranche of the Five Month Warrant (each, as applicable, a "Callable Tranche"), and provided that the Company was in compliance with the Call Conditions as defined in the August Letter Agreement, the Company had the right to call on the Purchaser to exercise any warrants under a Callable Tranche up to an aggregate exercise price of \$350,000. The Five Month Warrant generally limited the Company to one such call within a twenty trading day period. However, if the VWAP of the Common Stock for five consecutive trading days was at least 200% of the exercise price of any warrants under a Callable Tranche, the Company could make an additional call for the exercise of additional warrants under such Callable Tranche up to an aggregate exercise price of \$600,000 prior to the passage of the twenty trading day period. If Delafield did not exercise the 2016 Warrants under a Callable Tranche when called by the Company under the terms of the August Letter Agreement, the Company could, at its option, cancel any or all outstanding warrants under the Five Month Warrant.

The exercise price and number of shares of the Common Stock issuable under the 2016 Warrants were subject to adjustments for stock dividends, splits, combinations and pro rata distributions. Any adjustment to the exercise price could similarly cause the number of shares underlying the 2016 Warrants to be adjusted so that the total value of the 2016 Warrants could have increased.

The Purchaser was subject to a beneficial ownership limitation under the 2016 Warrants such that the Company and the Purchaser would not affect any exercise of the 2016 Warrants that would cause the Purchaser (together with its affiliates) to beneficially own in excess of 4.99% of the number of shares of Common Stock outstanding immediately after giving effect to the exercise of the warrant. The Purchaser, upon notice to the Company, could increase or decrease the beneficial ownership limitation, provided that the beneficial ownership limitation may not exceed 9.99% of the number of shares of Common Stock outstanding immediately after giving effect to the exercise of the warrant.

The Five Month Warrant required us to file a registration statement covering the resale of the shares underlying the warrant within 15 days after August 3, 2016, and to use our commercially reasonable efforts to have the registration statement declared effective by the SEC promptly thereafter and to remain effective for a period of at least twelve months from the date of effectiveness. This registration statement was filed on August 19, 2016, but was subsequently withdrawn as described below. In the event that a registration statement registering the resale of the shares underlying the Five Month Warrant was not effective on or before October 15, 2016, or was not maintained effective thereafter, the termination date of the Five Month Warrant would have been extended until such date that the shares were registered for at least a period of 90 days, but in no event later than April 30, 2017.

The Two Year Warrant required us to file a registration statement covering the resale of the shares underlying the warrant within 15 days after August 3, 2016, and to use our commercially reasonable efforts to have the registration statement declared effective by the SEC promptly thereafter and to remain effective for a period of at least six years from the date of effectiveness. The registration statement was filed on August 19, 2016, but was subsequently withdrawn as described below.

Additional Issuance Debenture

As of September 13, 2016, the Company entered into an Additional Issuance Agreement (the "Additional Issuance Agreement") with the Purchaser pursuant to the Purchase Agreement. Pursuant to the Additional Issuance Agreement, Delafield agreed to loan an additional \$150,000 in exchange for a 5% Original Issue Discount Senior Secured Convertible Debenture of the Company in the principal amount of \$165,000 (the "Additional Issuance Debenture"). An aggregate total of \$199,585 of this note was bifurcated with the embedded conversion option recorded as a derivative liability at fair value. As of September 30, 2017, the Company recorded accrued interest of \$10,313. During the three months ended September 30, 2017, \$30,000 was converted into shares of the Company's common stock and \$135,000 remained outstanding.

The rights and obligations of the Purchaser and the Company with respect to the Additional Issuance Debenture and the shares of Common Stock issuable under the Additional Issuance Debenture (the "New Underlying Shares") are identical in all respects to the rights and obligations of the Purchaser and the Company with respect to the Debenture and the shares of Common Stock issued and issuable thereunder, except that the Purchaser will not receive any registration rights with respect to the New Underlying Shares and except as otherwise noted in the governing documents.

The Additional Issuance Agreement contains customary representations, warranties and covenants by, among and for the benefit of the parties. We also agreed to pay all reasonable out-of-pocket costs or expenses (including, without limitation, reasonable legal fees and disbursements) incurred or sustained by the Purchaser, in connection with the transaction.

The Additional Issuance Debenture has a 10% original issue discount. The principal amount of the Additional Issuance Debenture accrues interest at the rate of 5% per annum, payable quarterly in cash (or if certain conditions are met, in stock at the Company's option) on January 1, April 1, July 1 and October 1. The Additional Issuance Debenture is convertible at any time, in whole or in part, at Delafield's option into shares of Common Stock at a conversion price equal to \$7.50 (subject to adjustment) (the "Conversion Price"). If the VWAP of the Common Stock on any trading day is less than the then-current Conversion Price, the Purchaser may convert at a price per share equal to a twenty two and one half percent (22.5%) discount to the lowest trading price of the Common Stock in the ten trading days prior to the date of conversion.

The Purchaser is subject to the same ownership limitation in connection with the Additional Issuance Debenture as for the 2016 Warrants as described above. The Additional Issuance Debenture includes customary event of default provisions and provides for a default interest rate of 18%. Upon the occurrence of an event of default, the Purchaser may convert the Additional Issuance Debenture into shares of Common Stock at a price per share equal to a thirty percent (30%) discount to the average VWAP of the shares for the six trading days prior to conversion.

Subject to the conditions set forth in the Additional Issuance Debenture, we have the right at any time after the earlier of (i) the six month anniversary of the original issuance of the Additional Issuance Debenture or (ii) the date on which the New Underlying Shares are registered pursuant to an effective registration statement, to redeem some or all of the total outstanding amount then remaining under the Additional Issuance Debenture in cash at a price equal to 125% of the total amount of the Additional Issuance Debenture outstanding on the twentieth (20th) trading date following the date the Company delivers notice of such redemption to Delafield.

At the sole election of the Purchaser, in lieu of receiving a cash payment for any principal amounts due on the Additional Issuance Debenture, the Purchaser may use all or any portion of any principal amounts owed to it to exercise outstanding warrants of the Company held by the Purchaser.

The issuance of the Additional Issuance Debenture to the Purchaser under the Additional Issuance Agreement was exempt from the registration requirements of the Securities Act pursuant to the exemption for transactions by an issuer not involving any public offering under Section 4(a)(2) of the Securities Act. The Company made this determination based on the representations of the Purchaser that it was acquiring the Additional Issuance Debenture for its own account with no intent to distribute the Additional Issuance Debenture. No general solicitation or general advertising was used in connection with the sale of the Additional Issuance Debenture and the Company had a pre-existing relationship with the Purchaser.

Our obligations under the Additional Issuance Debenture are secured by an unconditional and continuing, first priority security interest in all of the assets and property (as originally stated in the October 2015 agreement) of the Company until ten days following such time as the equity conditions set forth in the Additional Issuance Debenture are met, pursuant to the terms of the existing Security Agreement.

The Additional Issuance Debenture was originally scheduled to mature on September 13, 2017 but, as described below, the maturity date was extended to December 15, 2017. As of November 6, 2017, all of the principal of the Additional Issuance Debenture had been converted into shares of Common Stock.

December Letter Agreement

On December 2, 2016, the Company entered into a Letter Agreement (the "December Letter Agreement") with the Purchaser pursuant to which the parties agreed to cancel both the Two Year Warrant to purchase up to 160,000 shares of common stock, par value \$0.001 per share of the Company at an exercise price of \$25.00 per share, and the Five Month Warrant to purchase in five tranches, at exercise prices between \$3.00 and \$5.00 per share, up to 800,000 shares of common stock, originally issued to the Purchaser on August 3, 2016.

Pursuant to the December Letter Agreement, the 50,000 restricted shares held by the Purchaser pursuant to its August 2016 exercise of such shares under the first tranche of the Five Month Warrant at a purchase price of \$3.00 per share or \$150,000 in the aggregate, were redeemed by the Company at a fair value of \$112,500 upon the issuance and in exchange for an 8% convertible redeemable promissory note in the principal amount of \$150,000 (the "Delafield Note") due December 2, 2018. The Company recorded a \$37,500 loss on settlement related to the cancellation of shares and issuance of the note. The note matures two years from the issuance date at which time any outstanding principal and interest is then due and payable. The Delafield Note is convertible into shares of Common Stock at a conversion price equal to 65% of the average of the three lowest closing bid prices of the Common Stock for the ten trading days prior to the conversion, subject to adjustment in certain events. The Delafield Note may be prepaid at any time at 135% of the principal amount plus any accrued interest. Upon an event of default, principal and accrued interest will become immediately due and payable and interest will accrue at a default interest rate of 18% per annum or the highest rate of interest permitted by law. This convertible notes is treated as stock settled debt under ASC 480 and accordingly the Company recorded an \$80,769 put premium. As of September 30, 2017, the Company recorded accrued interest of \$9,962 and the \$150,000 remained outstanding.

In addition, the Company issued the Purchaser a two-year common stock purchase warrant to purchase 104,000 shares of Common Stock at an exercise price of \$12.50 per share (the "New Warrant"). The exercise price and number of shares of Common Stock issuable under the New Warrant are subject to adjustments for certain reclassifications, subdivision or combination of shares. The New Warrant is being treated as a modification of an existing warrant under ASC 718-20-35-3 and has determined that since the valuation of the New Warrant does not exceed the value of the 2016 Warrants, the Company continued to amortize the remainder of the \$910,178 value of the 2016 Warrant.

March Letter Agreement

On March 17, 2017, the Company entered into a Letter Agreement (the "March Letter Agreement") with the Purchaser pursuant to which the parties have agreed to revise certain terms of the Debenture. The Company and the Purchaser have agreed to extend the maturity date of the Debenture to September 30, 2017. In consideration for the extension of the maturity date, the Company began incurring interest on the aggregate unconverted and outstanding principal amount of the debenture as of February 28, 2017 (\$911,294) based on the terms of the original debenture. Interest began accruing on February 28, 2017 and will accrue through and including September 30, 2017.

April Letter Agreement

On April 7, 2017, the Company entered into a letter agreement with the Purchaser pursuant to which the parties agreed that on April 5, 2017, the Purchaser rescinded its conversion notice and returned 24,478 shares of the Company's Common Stock to the Company to be held in treasury. These shares were issued to the Purchaser on February 21, 2017 as a result of its conversion of a portion of the Debenture.

The Purchaser further agreed that it will take no action to convert any further principal balance of the Debenture or sell any shares of the Company's Common Stock until the earliest of April 10, 2017, or one trading day after the Company had anticipated effecting its planned reverse stock split at a ratio of 1-for-250.

The remaining principal balance of the Debenture was increased by an amount equal to the number of shares of Common Stock being returned to the Company multiplied by the conversion price provided for in the Debenture on the date of conversion or \$46,477, resulting in a new principal balance of \$957,771 as of close of business on April 5, 2017. The Company will continue to pay interest on the aggregate unconverted and outstanding principal amount of the Debenture pursuant to its terms, with interest on the returned amount of principal beginning to accrue on April 5, 2017.

September Letter Agreement

On September 30, 2017, the Company entered into a letter agreement (the "September Letter Agreement") with the Purchaser pursuant to which the Company and the Purchaser have agreed to revise certain terms of the Debenture.

Pursuant to the September Letter Agreement, the Company and the Purchaser agreed to extend the maturity dates of the Debenture and the Additional Issuance Debenture to December 15, 2017. In addition, from the period beginning on September 30, 2017 through and including December 15, 2017, the Company will pay interest to the Purchaser on the aggregate unconverted and then outstanding principal amounts of both the Debenture and the Additional Issuance Debenture, each pursuant to its terms.

Further, the Purchaser expressly agreed to waive compliance by the Company with Section 8 of the Debenture and Section 8 of the Additional Issuance Debenture, respectively, which required payment by the Company of the outstanding amounts of principal and interest due under both instruments on September 30, 2017. This waiver is not deemed to constitute an agreement by the Purchaser to waive any other event of default under the Debenture or the Additional Issuance Debenture that may exist as of the date the Letter Agreement was entered into.

The total principal amount outstanding under the above Delafield Financing Agreements, specifically the Debenture, as amended, the Additional Issuance Debenture and the Delafield Note was \$862,771 as of September 30, 2017 and accrued interest totaled \$48,061.

As a result, the December 12 Eagle Back-End Note is now convertible. On November 6, 2017, pursuant to a conversion notice, \$12,750 of principal and \$533 of interest was converted at \$0.05 into 245,158 shares of common stock.

On November 6, 2017, pursuant to a conversion notice, \$17,500 of principal was converted at \$0.07 into 250,897 shares of common stock.

On November 8, 2017, pursuant to a conversion notice, \$20,000 in principal and \$2,356 in interest was converted at \$0.06 into 382,153 shares of common stock.

Payment of Accrued Bonus Award

On October 25, 2017, the Company made a \$40,000 payment to James Nathanielsz related to the cash bonus that was approved on August 15, 2016 (see Note 8).

October 25, 2017 Securities Purchase Agreement

On November 3, 2017, the Company entered into a Securities Purchase Agreement (the "Eagle SPA") dated as of October 25, 2017, with Eagle Equities, LLC ("Eagle Equities"), pursuant to which Eagle Equities purchased two 8% convertible redeemable junior subordinated promissory notes, each in the principal amount of \$200,000. The first note (the "First Note") was funded with cash and the second note (the "Eagle Back-End Note") was initially paid for by an offsetting promissory note issued by Eagle Equities to the Company (the "Note Receivable"). The terms of the Eagle Back-End Note require cash funding prior to any conversion thereunder. The Note Receivable is due June 25, 2018, unless certain conditions are not met, in which case both the Eagle Back-End Note and the Note Receivable may both be cancelled. Both the First Note and the Eagle Back-End Note have a maturity date one year from the date of issuance upon which any outstanding principal and interest is due and payable. The amounts cash funded plus accrued interest under both the First Note and the Eagle

Back-End Note are convertible into common stock, par value \$0.001 (the "Common Stock"), of the Company at a conversion price equal to 60% of the lowest closing bid price of the Common Stock for the ten trading days prior to the conversion, subject to adjustment in certain events.

The First Note may be prepaid with certain penalties within 180 days of issuance. The Eagle Back-End Note may not be prepaid. However, in the event the First Note is redeemed within the first six months of issuance, the Eagle Back-End Note will be deemed cancelled and of no further effect.

The Eagle Back-End Note will not be cash funded and such note, along with the Note Receivable, will be immediately cancelled if the shares do not maintain a minimum trading price during the five days prior to such funding and a certain aggregate dollar trading volume during such period. Upon an event of default, principal and accrued interest will become immediately due and payable under the notes. Additionally, upon an event of default, both notes will accrue interest at a default interest rate of 24% per annum or the highest rate of interest permitted by law. Further, certain events of default may trigger penalty and liquidated damage provisions.

Overview

Propanc Biopharma, Inc. (the "Company," "we," "us," "our") was originally incorporated in Melbourne, Victoria Australia on October 15, 2007 as Propanc PTY LTD, and continues to be based in Camberwell, Victoria Australia. Since its inception, substantially all of the operations of the Company have been focused on the development of new cancer treatments targeting high-risk patients, particularly cancer survivors, who need a follow-up, non-toxic, long-term therapy designed to prevent the cancer from returning and spreading. The Company anticipates establishing global markets for its technologies. Our lead product candidate, which we refer to as PRP, is an enhanced proenzyme formulation designed to enhance the anti-cancer effects of multiple enzymes acting synergistically. It is currently in the preclinical phase of development.

On November 23, 2010, the Company was incorporated in the state of Delaware as Propanc Health Group Corporation. In January 2011, to reorganize the Company, we acquired all of the outstanding shares of Propanc PTY LTD on a one-for-one basis making it a wholly-owned subsidiary.

Effective April 20, 2017, the Company changed its name to "Propanc Biopharma, Inc." to better reflect the Company's stage of growth and development.

To date, we have generated no revenue, have no cancer treatment products available to market and have no products which have reached the clinical trial stage. We require substantial additional financing to develop our products.

Recent Developments

Delafield Financing

On October 28, 2015, we entered into a securities purchase agreement (the "Purchase Agreement"), with Delafield Investments Limited ("Delafield"), that provided for the investment of \$4,000,000 (the "Investment Amount") in exchange for a Convertible Debenture (the "Debenture") in the principal amount of \$4,400,000 and warrant (the "2015 Warrant") to purchase an aggregate of 104,762 shares of common stock, \$0.001 par value per share (the "Common Stock"), for an exercise price of \$150 per share for a period of four years from such date. We and Delafield have since modified the terms of the transactions contemplated by the Purchase Agreement pursuant to an addendum dated March 11, 2016 (the "Addendum"), and letter agreements dated July 1, 2016 (the "July Letter Agreement"), August 3, 2016 (the "August Letter Agreement, December 2, 2016 (the "December Letter Agreement"), March 17, 2017 (the "March Letter Agreement") and September 30, 2017 (the "September Letter Agreement"). The descriptions of the Debenture and the 2015 Warrant, the 2016 Warrants and the Delafield Note below reflect the terms of such agreements under the Purchase Agreement as modified by the Addendum, the July Letter Agreement the August Letter Agreement, the December Letter Agreement, the March Letter Agreement and the September Letter Agreement.

In connection with the Purchase Agreement, we filed a registration statement on Form S-1 on November 23, 2015, deemed effective on December 10, 2015, pursuant to which we registered for resale an aggregate of 393,620 shares of Common Stock consisting of: (i) 288,858 shares underlying the Debenture; and (ii) 104,762 shares of Common Stock issuable upon exercise of the 2015 Warrant.

Under the terms of the Debenture, we received a reduction in the principal amount of the financing of (i) \$25,000 upon the Company's filing of the registration statement within the time period specified and (ii) \$25,000 upon the effectiveness of the registration statement within the time period specified. The current aggregate principal amount was adjusted to \$4,350,000 upon the date of the registration statement and as of September 30, 2017, \$577,771 (the "Principal Amount") was outstanding.

Pursuant to the Addendum, on March 24, 2016, we filed a second registration statement on Form S-1, deemed effective on April 18, 2016, to register for resale up to 684,000 additional shares of Common Stock underlying the Debenture.

Debenture

The Debenture has a 10% original issue discount. The Principal Amount accrues interest at the rate of 5% per annum, payable quarterly in cash (or if certain conditions are met, in stock at the Company's option) on January 1, April 1, July 1 and October 1. Pursuant to the July Letter Agreement, the Company delayed a portion of the interest due and payable by 60 days and another portion until the Maturity Date, as defined below.

Pursuant to the March Letter Agreement, the maturity date of the Debenture was extended until September 30, 2017. Further, from the period of February 28, 2017 through the Maturity Date, the Company will pay interest to Delafield on the aggregate unconverted and then outstanding Principal Amount pursuant to the terms of the Debenture. Pursuant to the September Letter Agreement, the maturity date of the Debenture was again extended until December 15, 2017 (the "Maturity Date").

Subject to the conditions set forth in the Debenture, the Company has the right at any time to redeem some or all of the total outstanding amount then remaining under the Debenture in cash at a price equal to 125% of the total amount of the Debenture outstanding on the twentieth (20th) trading date following the date the Company delivers notice of such redemption to Delafield.

The Debenture is convertible at any time, in whole or in part, at Delafield's option into shares of Common Stock at a conversion price equal to \$7.50 per share; provided that in the event that the volume weighted average price per share (the "VWAP") on any trading day is less than such conversion price, the conversion price will be adjusted to a price per share that is equal to a 22.5% discount to the lowest trading price of the Common Stock in the ten trading days prior to the date of conversion. At no time will Delafield be entitled to convert any portion of the Debenture to the extent that after such conversion, Delafield (together with its affiliates) would beneficially own more than 4.99% of the outstanding shares of Common Stock as of such date.

2016 Warrants

Pursuant to the August Letter Agreement and in consideration for extending the Maturity Date of the Debenture, we issued to Delafield warrants to purchase up to 960,000 shares of Common Stock (the "2016 Warrants"). The 2016 Warrants entitled the holder thereof to purchase (i) up to 800,000 shares of Common Stock at exercise prices ranging from \$3.00 to \$5.00 per share (the "Five Month Warrant"), and (ii) up to 160,000 shares of Common Stock at an exercise price of \$25.00 per share (the "Two Year Warrant"). We also agreed to file a registration statement with the Securities and Exchange Commission (the "SEC"), to register for resale the 960,000 shares of Common Stock underlying the 2016 Warrants.

The 2016 Warrants were immediately exercisable. On August 18, 2016, Delafield notified us of its exercise of 50,000 shares of Common Stock under the first tranche of the Five Month Warrant at a purchase price of \$3.00 per share or \$150,000 in the aggregate.

Pursuant to the Five Month Warrant, if the VWAP of the Common Stock for five consecutive days equals or exceeds the exercise price of any tranche of the Five Month Warrant (each, as applicable, a "Callable Tranche"), and provided that the Company is in compliance with the Call Conditions as defined in the August Letter Agreement, the Company has the right to call on Delafield to exercise any warrants under a Callable Tranche up to an aggregate exercise price of \$350,000. The Five Month Warrant generally limited the Company to one such call within a twenty trading day period. However, if the VWAP of the Common Stock for five consecutive trading days is at least 200% of the exercise price of any warrants under a Callable Tranche, the Company may make an additional call for the exercise of additional warrants under such Callable Tranche up to an aggregate exercise price of \$600,000 prior to the passage of the twenty trading day period. If Delafield did not exercise the 2016 Warrants under a Callable Tranche when called by the Company under the terms of the August Letter Agreement, we could, at our option, cancel any or all outstanding warrants under the Five Month Warrant.

The exercise price and number of shares of the Common Stock issuable under the 2016 Warrants were subject to adjustments for stock dividends, splits, combinations and pro rata distributions. Any adjustment to the exercise price shall similarly cause the number of shares underlying the 2016 Warrants to be adjusted so that the total value of the 2016 Warrants may increase.

Delafield was subject to a beneficial ownership limitation under the Debenture and the 2016 Warrants such that the Company and Delafield could not, and cannot, affect any exercise of the 2016 Warrants that would cause Delafield (together with its affiliates) to beneficially own in excess of 4.99% of the number of shares of Common Stock outstanding immediately after giving effect to the exercise of the warrant. Delafield, upon notice to the Company, may increase or decrease the beneficial ownership limitation, provided that the beneficial ownership limitation may not exceed 9.99% of the number of shares of Common Stock outstanding immediately after giving effect to the exercise of the warrant.

The Five Month Warrant and the Two Year Warrant required us to file a registration statement covering the resale of the shares underlying the warrant within 15 days after August 3, 2016, and to use our commercially reasonable efforts to have the registration statement declared effective by the SEC promptly thereafter and to remain effective for a period of at least six years from the date of effectiveness.

We filed a registration statement on Form S-1 with the Securities and Exchange Commission on August 19, 2016 but this registration statement was never declared effective and was withdrawn on December 12, 2016. On December 2, 2016, the Company entered into the December Letter Agreement with Delafield pursuant to which the parties agreed to cancel the Two Year Warrant and the Five Month Warrant.

Delafield Note

The 50,000 restricted shares held by Delafield pursuant to its exercise of the first tranche of the Five Month Warrant were redeemed by us upon the issuance and in exchange for an 8% convertible redeemable promissory note in the principal amount of \$150,000 (the "Delafield Note"). The Delafield Note matures two years from the issuance date at which time any outstanding principal and interest is then due and payable. The Delafield Note is convertible into shares of Common Stock at a conversion price equal to 65% of the average of the three lowest closing bid prices of the Common Stock for the ten trading days prior to the conversion, subject to adjustment in certain events. The Delafield Note may be prepaid at any time at 135% of the principal amount plus any accrued interest. Upon an event of default, principal and accrued interest will become immediately due and payable and interest will accrue at a default interest rate of 18% per annum or the highest rate of interest permitted by law. As of September 30, 2017, the entire principal amount of the Delafield Note was outstanding.

Additional Warrant

In addition, the Company issued Delafield a two-year common stock purchase warrant to purchase 104,000 shares of Common Stock at an exercise price of \$12.50 per share (the "New Warrant"). The exercise price and number of shares of Common Stock issuable under the New Warrant are subject to adjustments for certain reclassifications, subdivision or combination of shares.

Additional Issuance Debenture

As of September 13, 2016, we entered into an Additional Issuance Agreement (the "Additional Issuance Agreement") with Delafield pursuant to the Purchase Agreement. Pursuant to the Additional Issuance Agreement, Delafield agreed to loan an additional \$150,000 in exchange for a 5% Original Issue Discount Senior Secured Convertible Debenture of the Company in the principal amount of \$165,000 (the "Additional Issuance Debenture"). The rights and obligations of Delafield and us with respect to the Additional Issuance Debenture and the shares of Common Stock issuable under the Additional Issuance Debenture (the "New Underlying Shares") are identical in all respects to the rights and obligations of Delafield and of the Company with respect to the Debenture and the shares of Common Stock issued and issuable thereunder, except that Delafield will not receive any registration rights with respect to the New Underlying Shares and except as otherwise noted in the governing documents.

The Additional Issuance Agreement contains customary representations, warranties and covenants by, among and for the benefit of the parties. We also agreed to pay all reasonable out-of-pocket costs or expenses (including, without limitation, reasonable legal fees and disbursements) incurred or sustained by Delafield, in connection with the transaction.

The Additional Issuance Debenture has an original issue discount. The principal amount of the Additional Issuance Debenture accrues interest at the rate of 5% per annum, payable quarterly in cash (or if certain conditions are met, in stock at the Company's option) on January 1, April 1, July 1 and October 1. The Additional Issuance Debenture is convertible at any time, in whole or in part, at Delafield's option into shares of Common Stock at a conversion price equal to \$7.50 (subject to adjustment) (the "Conversion Price"). If the volume weighted average price of the Common Stock on any trading day is less than the then-current Conversion Price, Delafield may convert at a price per share equal to a twenty two and one half percent (22.5%) discount to the lowest trading price of the Common Stock in the ten trading days prior to the date of conversion.

Delafield is subject to the same ownership limitation in connection with the Additional Issuance Debenture as for the Debenture and the 2016 Warrants as described above. The Additional Issuance Debenture includes customary event of default provisions and provides for a default interest rate of 18%. Upon the occurrence of an event of default, Delafield may convert the Additional Issuance Debenture into shares of Common Stock at a price per share equal to a thirty percent (30%) discount to the average volume weighted average price of the shares for the six trading days prior to conversion. Subject to the conditions set forth in the Additional Issuance Debenture, we have the right at any time after the earlier of (i) the six month anniversary of the original issuance of the Additional Issuance Debenture or (ii) the date on which the New Underlying Shares are registered pursuant to an effective registration statement, to redeem some or all of the total outstanding amount then remaining under the Additional Issuance Debenture in cash at a price equal to 125% of the total amount of the Additional Issuance Debenture outstanding on the twentieth (20th) trading date following the date the Company delivers notice of such redemption to Delafield.

At the sole election of Delafield, in lieu of receiving a cash payment for any principal amounts due on the Additional Issuance Debenture, Delafield may use all or any portion of any principal amounts owed to it to exercise outstanding warrants of the Company held by Delafield.

The issuance of the Additional Issuance Debenture to the Purchaser under the Additional Issuance Agreement was exempt from the registration requirements of the Securities Act pursuant to the exemption for transactions by an issuer not involving any public offering under Section 4(a)(2) of the Securities Act. The Company made this determination based on the representations of Delafield that it was acquiring the Additional Issuance Debenture for its own account with no intent to distribute the Additional Issuance Debenture. No general solicitation or general advertising was used in connection with the sale of the Additional Issuance Debenture and the Company had a pre-existing relationship with Delafield.

Our obligations under the Additional Issuance Debenture are secured by an unconditional and continuing, first priority security interest in all of the assets and property of the Company until ten days following such time as the equity conditions set forth in the Additional Issuance Debenture are met, pursuant to the terms of the existing Security Agreement.

Pursuant to the September Letter Agreement, the maturity date of the Additional Issuance Debenture was extended to December 15, 2017. The amount of principal outstanding under the Additional Issuance Debenture was \$135,000 on September 30, 2017. As of November 6, 2017, all of the principal of the Additional Issuance Debenture had been converted into shares of Common Stock.

Manufacturing Services Agreement

We entered into a Manufacturing Services Agreement (the "MSA") and Quality Assurance Agreement (the "QAA"), each with an effective date of August 12, 2016, with Amatsigroup NV ("Amatsigroup"), formally known as Q-Biologicals NV, a contract manufacturing organization located in Belgium. Pursuant to the MSA, Amatsigroup will produce certain drug substances and product containing certain enzymes at its facility in Belgium. We will use these substances and products for development purposes, including but not limited to clinical trials. The MSA contemplates payment to Amatsigroup pursuant to a pre-determined fee schedule based on the completion of certain milestones that depend on our manufacturing requirements and final batch yield. We anticipate that our payments to Amatsigroup under the MSA will range between \$2.5 million and \$5.0 million over five years, with the majority of the expenditures occurring during the first two years of the MSA when the finished drug product is manufactured and released for clinical trials.

The MSA shall continue for a term of six years unless extended by mutual agreement in writing. We can terminate the MSA early for any reason upon the required notice period, however, in such event, the pre-payment paid upon signing the MSA is considered non-refundable. The QAA sets forth the parties respective obligations and responsibilities relating to the manufacturing and testing of the products under the MSA.

The agreements with Amatsigroup contain certain customary representations, warranties and limitations of liabilities, and confidentiality and indemnity obligations.

The agreements with Q-Biologicals contain certain customary representations, warranties and limitations of liabilities, and confidentiality and indemnity obligations.

Pre-Clinical Efficacy and Toxicology Studies

In November 2015, we completed animal efficacy studies in mice through our contract research partner, vivoPharm, demonstrating proof of concept *in vivo*. During the course of these studies, we discovered a new target therapeutic dose range using proenzymes for treating cancer. That month, we filed a patent application in support of this discovery, as described further herein.

On October 25, 2016 we completed a toxicokinetic study for PRP. The purpose of the study was to evaluate the toxicokinetic parameters of PRP after repeated, daily intravenous tail vein administration in rats and to evaluate distribution and bioavailability of the test articles, both before and after repeat exposure, over a 28-day period.

On December 22, 2016, we commenced a second GLP-compliant toxicity study for PRP. An animal group was administered low dosages intravenously, also over a 28-day period, after which the focus of the study expanded to medium and high dosages. On April 27, 2017, we announced the successful completion of this study. On August 2, 2017, we completed a GLP-compliant 28-day repeat-dose toxicity study and again observed no treatment related findings. This concluded the preclinical development phase of PRP and provides a safety margin for a dosage of PRP to be administered in future clinical trials. We currently intend to submit a clinical trial application in the United Kingdom in 2018.

Intellectual Property Updates

In June 2017, we received a written opinion from the Australian Patent Office relating to our Patent Cooperation Treaty ("PCT") application. Specifically, we were notified that a majority of the claims we made concerning our combination of trypsinogen and chymotripinogen that comprises PRP were considered novel and several of them were considered inventive. The Australian Patent Office also found that the experimental data included in the application and the way it is presented adequately supported the pending claims.

In July 2017, we received notification of the acceptance of our lead patent application from the Chinese Patent Office.

Orphan Drug Designation

In June 2017, we were notified by the U.S. Food and Drug Administration (the "FDA") that PRP had been granted orphan drug designation for the treatment of pancreatic cancer. Orphan drug designation may be granted by the FDA when a rare disease or condition is implicated and a potential treatment qualifies under the Orphan Drug Act and applicable FDA regulations. This qualifies us for various developmental incentives, including protocol assistance, the potential for research grants, the waiver of future application fees, and tax credits for clinical testing if we choose to host future clinical trials in the United States.

In October 2017, we submitted a request for a second orphan drug designation for PRP, this time for ovarian cancer. This request is pending before the FDA.

Eagle Equities Financings

On each of October 31, December 12 and December 21, 2016, as well as January 30, March 1, and August 9, 2017 we entered into Securities Purchase Agreements with Eagle Equities, LLC ("Eagle Equities"), pursuant to which Eagle Equities purchased a total of twelve 8% convertible redeemable junior subordinated promissory notes in varying principal amounts totaling \$2,016,000.

The structure of these financings have been virtually identical in each instance: in each financing, we issue two promissory notes, each in the same principal amount. The first note is funded by Eagle Equities in cash and the second note is initially paid for by an offsetting promissory note issued by Eagle Equities to us. However, the second note must also be cash funded prior to any conversion. The second note, which we refer to as the back-end note and its offsetting promissory note are subject to cancellation if certain conditions are not met.

All outstanding principal and interest under the various promissory notes we have issued is due and payable upon their respective maturity dates, which is typically one year from the date of issuance. The amounts cash funded under these notes are convertible into shares of our common stock at a 60% discount to its closing bid price over the prior 10 trading days, pursuant to the terms of the notes. While the first notes may be prepaid within 180 days of their issuance dates, with certain penalties, the back-end notes may not be prepaid.

Upon an event of default, principal and accrued interest will become immediately due and payable under the notes and the notes will begin to accrue interest at a highly inflated rate. Further, certain events for default may trigger penalty and liquidated damages provisions.

On April 11, 2017, the Company received full payment of the October 31, 2016 and the December 12, 2016 back-end notes it issued to Eagle Equities, in the principal amounts of \$100,000 each. On May 4, 2017, the Company received full payment of the December 21, 2016 back-end note, in the amount of \$157,500, and partial payment of the January 30, 2017 back-end note in the amount of \$40,000. On June 3, 2017, the Company received the balance of the payment of the January 30, 2017 note, or \$190,000. On July 5 2017, the Company received the balance of the payment of the March 1, 2017 back-end note, or \$220,500. On September 14, 2017 the Company received full payment of the August 8 back-end note or \$200,000. As a result, all of the back-end notes the Company issued to Eagle Equities are no longer subject to cancellation.

The total principal amount due and outstanding to Eagle Equities as of September 30, 2017 is \$1,623,500.

GS Capital Financings

On May 26, 2017, we entered into a Securities Purchase Agreement with GS Capital Partners, LLC ("GS Capital"), pursuant to which GS Capital purchased for cash an 8% convertible redeemable junior subordinated promissory note in the principal amount of \$160,000. The note matures on May 17, 2018, upon which any outstanding principal and interest becomes due and payable. The note may be prepaid with certain penalties within 180 days of issuance. Commencing on November 17, 2017, the amount of principal and accrued interest under the note are convertible into our common stock at a conversion price equal to 62% of the lowest closing bid price of the common stock for the ten trading days prior to the conversion, subject to adjustment in certain events.

On July 24, 2017 and September 21, 2017, we entered into additional Securities Purchase Agreements with GS Capital pursuant to which GS Capital purchased four 8% convertible redeemable junior subordinated promissory notes. The structure of these two rounds of financing and the terms of the promissory notes issued are substantially similar to that of the Eagle Equities financings described above, except that the conversion discount is 62% of the closing bid price of our common stock over the prior 10 trading days. The first notes issued by us to GS Capital in each round of financing may be prepaid without penalty. The second note may not be prepaid, although if either of the first notes is redeemed within six months of its issuance date, the second note will be cancelled.

The total principal amount due and outstanding to GS Capital as of September 30, 2017 is \$480,000.

Consulting Agreements

On August 10, 2017, the Company entered into an agreement, retroactive to May 16, 2017, with Regal Consulting LLC, a Delaware limited liability company (the "Consultant"), pursuant to which the Consultant agreed to provide certain consulting and business advisory services in exchange for a \$310,000 10% junior subordinated convertible note (the "Consulting Note"). The sum cash funded under this note is convertible into shares of our common stock at the lesser of \$1.50 or a 65% discount to the three lowest trades in the 10 trading days prior to the conversion. This note may not be prepaid without the written consent of the Consultant. The agreement had a three-month term and expired on August 16, 2017. The total principal amount due as of September 30, 2017 was \$310,000.

Previously, on November 18, 2016, the Company had entered into a substantially similar agreement with the Consultant whereby the Company issued two 10% convertible junior subordinated promissory notes in the principal amounts of \$250,000 each, both of which will mature in two years. The amounts cash funded under these notes are convertible into shares of our common stock at the lesser of \$2.50, adjusted for the reverse stock split we effected in April 2017, or a 65% discount to the three lowest trades in the 10 trading days prior to the conversion. These notes may not be prepaid without the written consent of the Consultant. This agreement had a six-month term. The total principal amount due as of September 30, 2017 for these notes was \$370,000.

The total principal amount due and outstanding to the Consultant as of September 30, 2017 is \$680,000.

Critical Accounting Estimates

Below is a discussion of our more subjective accounting estimation processes for purposes of explaining (i) the methodology used in calculating the estimates, (ii) the inherent uncertainties pertaining to such estimates and (iii) the possible effects of a significant variance in actual experience, from that of the estimate, on the Company's financial condition. Estimates involve numerous assumptions that, if incorrect, could create a material adverse impact on the Company's results of operations and financial condition.

This is the source of authoritative US GAAP recognized by the FASB to be applied to non-governmental entities. Each ASC reference in this filing is presented with a three-digit number, which represents its Topic. As necessary for explanation and as applicable, an ASC topic may be followed with a two-digit subtopic, a two-digit section or a two-or-three digit paragraph.

Foreign Currency Translation and Comprehensive Income (Loss): The Company's functional currency is the AUD. For financial reporting purposes, the AUD has been translated into USD as the reporting currency. Assets and liabilities are translated at the exchange rate in effect at the balance sheet date. Revenues and expenses are translated at the average rate of exchange prevailing during the reporting period. Equity transactions are translated at each historical transaction date spot rate. Translation adjustments arising from the use of different exchange rates from period to period are included as a component of stockholders' equity (deficit) as "accumulated other comprehensive income (loss)." Gains and losses resulting from foreign currency transactions are included in the statement of operations and comprehensive loss as other income (expense).

Accounting for Income Taxes: The Company is governed by Australia and United States income tax laws, which are administered by the Australian Taxation Office and the United States Internal Revenue Service, respectively. The Company follows ASC 740, "Accounting for Income Taxes," which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for temporary differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The Company adopted provisions of ASC 740, Sections 25 through 60, "Accounting for Uncertainty in Income Taxes." These sections provide detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a "more-likely-than-not" recognition threshold at the effective date to be recognized upon the adoption of ASC 740 and in subsequent periods.

Accounting for Stock Based Compensation: The Company records stock based compensation in accordance with ASC 718, "Stock Compensation" and Staff Accounting Bulletin No. 107 issued by the SEC in March 2005 regarding its interpretation of ASC 718. ASC 718 requires the fair value of all stock-based employee compensation awarded to employees to be recorded as an expense over the related requisite service period. The statement also requires the recognition of compensation expense for the fair value of any unvested stock option awards outstanding at the date of adoption. The Company values any employee or non-employee stock based compensation at fair value using the Black-Scholes Option Pricing Model.

The Company accounts for non-employee share-based awards in accordance with the measurement and recognition criteria of ASC 505-50 "Equity-Based Payments to Non-Employees."

Derivative Instruments: ASC 815, "Derivatives and Hedging," establishes accounting and reporting standards for derivative instruments and for hedging activities by requiring that all derivatives be recognized in the balance sheet and measured at fair value. Gains or losses resulting from changes in the fair value of derivatives are recognized in earnings or recorded in other comprehensive income (loss) depending on the purpose of the derivatives and whether they qualify and have been designated for hedge accounting treatment. The Company does not have any derivative instruments for which it has applied hedge accounting treatment.

Convertible Notes With Variable Conversion Options: The Company has entered into convertible notes, some of which contain variable conversion options, whereby the outstanding principal and accrued interest may be converted, by the holder, into common shares at a fixed discount to the price of the common stock at the time of conversion. The Company treats these convertible notes as stock settled debt under ASC 480 and measures the fair value of the notes at the time of issuance, which is the result of the share price discount at the time of conversion, and records the put premium as accretion to interest expense to the date of first conversion.

Research and Development Tax Credits: The Company may apply for Research and Development tax concessions with the Australian Taxation Office on an annual basis. Although the amount is possible to estimate at year end, the Australian Taxation Office may reject or materially alter the claim amount. Accordingly, the Company does not recognize the benefit of the claim amount until cash receipt since collectability is not certain until such time. The tax concession is a refundable credit. If the Company has net income then the Company can receive the credit which reduces its income tax liability. If the Company has net losses, then the Company may still receive a cash payment for the credit, however, the Company's net operating loss carry forwards are reduced by the gross equivalent loss that would produce the credit amount when the income tax rate is applied to that gross amount. The concession is recognized as an income tax benefit, in operations, upon receipt.

Recent Accounting Pronouncements

Reference is made to "Recently Adopted Accounting Pronouncements" under Note 1 of the Unaudited Condensed Notes to the Unaudited Consolidated Financial Statements included in this report for a discussion of recently issued and adopted accounting pronouncements.

Results of Operations

The following discussion should be read in conjunction with the unaudited consolidated financial statements and notes thereto included elsewhere in this Form 10-Q. The results discussed below are of the Company and its wholly-owned Australian subsidiary, Propanc Pty Ltd.

For the Three Months Ended September 30, 2017 compared to the Three Months Ended September 30, 2016

Revenue

For the three months ended September 30, 2017 and 2016, we generated no revenue because we are currently undertaking research and development activities for market approval and there were no sales generated in this period.

Administration Expenses

Administration expenses decreased to \$631,406 for the three months ended September 30, 2017 as compared with \$1,004,503 for the three months ended September 30, 2016. This decrease is attributable to a decrease in stock based expense of approximately \$400,000, which is related to a grant of stock options to our directors in April 2016.

Occupancy Expense

Occupancy expense increased by \$233 to \$8,830 for the three months ended September 30, 2017. The increase relates to the fluctuation in foreign currency exchange rates.

Research and Development Expenses

Research and development expenses were \$563,739 for the three months ended September 30, 2017 as compared with \$161,197 for the three months ended September 30, 2016. The increase in research and development expenses is primarily related to an increase in clinical development expenses for PRP, as the raw material purification, process development and commencement of GMP manufacturing of the finished drug product intended for use in future First-In-Human studies began in earnest in October 2017.

Interest Expense/Income

Interest expense increased to \$892,432 for the three months ended September 30, 2017 as compared with \$471,387 for the three months ended September 30, 2016, related to the increase in outstanding indebtedness of \$4,106,866 between September 30, 2016 and September 30, 2017. Interest expense is primarily comprised of \$214,000 debt discount amortization and \$610,000 in accretion of put premium. This increase is primarily attributable to lower amortization of debt discount offset by higher accretion amounts of convertible notes with discounted debt features during the three months ended September 30, 2017.

Change in Fair Value of Derivative Liabilities

Change in fair value of derivative liabilities decreased by \$339,099 from \$30,274 for the three months ended September 30, 2017 to \$369,373 for the three months ended September 30, 2016. This decrease is primarily attributable to an increase in the issuance of convertible notes with repricing options and variable conversion pricing.

Foreign Currency Transaction Gain (Loss)

Foreign currency transaction gain decreased to \$133,792 for the three months ended September 30, 2017 as compared to \$173,989 for the three months ended September 30, 2016. The decrease in foreign currency transaction gain is primarily attributable to a weaker Australian Dollar compared to the US Dollar during the three months ended September 30, 2017 as compared to the three months ended September 30, 2016.

Net loss

Net loss increased to \$1,923,743 for the three months ended September 30, 2017 as compared with \$1,101,969 for the three months ended September 30, 2016. The increase is primarily attributable to an approximately \$421,000 increase in interest expense and an approximately \$403,000 increase in research and development costs as well as the net effect of fluctuations within changes in fair value of derivative liabilities and foreign currency transactions gains.

Liquidity and Capital Resources

	 For the Three I Septem	
	 2017	2016
Net cash used in operating activities	\$ (785,668)	\$ (683,598)
Net cash used in investing activities	\$ -	\$ -
Net cash provided by financing activities	\$ 894,000	\$ 614,286
Effect of exchange rate changes on cash	\$ (34,810)	\$ (26,845)

Net cash used in operations was \$785,668 for the three months ended September 30, 2017 compared to \$683,598 for the three months ended September 30, 2016. This fluctuation relates to an increase in the issuance of convertible debt for services rendered of \$310,000, offset by a decrease in the amortization of stock option expense paid to an officer and director and fluctuations in changes in foreign currency transaction gains and losses, changes related to the valuation of new derivative liabilities and the revaluation of existing derivative liabilities in the three months ending September 30, 2017.

Cash flows provided by financing activities for the three months ended September 30, 2017 were \$894,000 compared to \$614,286 for the three months ended September 30, 2017, we had proceeds from convertible promissory notes of \$894,000. During the three months ended September 30, 2016, we had proceeds from convertible promissory notes of approximately \$150,000 and proceeds from the exercise of warrants of approximately \$464,000.

The effect of the exchange rate on cash resulted in a \$34,810 negative adjustment to cash flows in the three months ending September 30, 2017 compared to a negative adjustment of \$26,845 to cash flows in the three months ending September 30, 2016. The reason for the fluctuation is due to the application of translation rates throughout the cash flow statement, the volume of transactions within each period and the daily fluctuation in exchange rates.

We have substantial capital resource requirements and have incurred significant losses since inception. As of September 30, 2017, we had \$142,565 in cash. Based upon our current business plans, we will need considerable cash investments to be successful. Such capital requirements are in excess of what we have in available cash and for which we currently have commitments. Therefore, we presently do not have enough available cash to meet our obligations over the next twelve (12) months. If we are unable to raise sufficient capital, this may affect our operations and ability to complete ongoing activities in connection with our research and development programs.

Related Party Transactions

Since inception, Propanc Health Group Corporation has conducted transactions with directors and director related entities. During the three months ended September 30, 2017 these transactions included the following:

As of September 30, 2017 and June 30, 2017, the Company owes former directors and a current director a total of \$58,016 and \$56,802, respectively, for money loaned to the Company throughout the years.

As of September 30, 2017 and June 30, 2017, the Company owes two directors a total of \$35,957 and \$35,204, respectively, related to expenses paid on behalf of the Company related to corporate startup costs and intellectual property.

On May 4, 2016 the Company entered into a five-year operating lease agreement with a related party with monthly rent of \$3,300 AUD, inclusive of GST.

Mr. Nathanielsz's wife, Sylvia Nathanielsz, is and has been an employee of ours since October 2015. Mrs. Nathanielsz receives an annual salary of \$58,800 and is entitled to customary benefits.

Going Concern Qualification

We have incurred significant losses and cash used in operations, and such losses and use of cash are expected to continue. Our Independent Registered Public Accounting Firm has included a "Going Concern Qualification" in their report for the years ended June 30, 2017 and 2016. In addition, we have negative working capital. The foregoing raises substantial doubt about the Company's ability to continue as a going concern. Management's plans include seeking additional capital or debt financing. There is no guarantee that additional capital or debt financing will be available when and to the extent required, or that if available, it will be on terms acceptable to us. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. The "Going Concern Qualification" might make it substantially more difficult to raise capital.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable to smaller reporting companies.

Item 4. Controls and Procedures.

Disclosure Controls and Procedures

With the participation of James Nathanielsz, our Chief Executive Officer and Chief Accounting Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of the end of the period covered by this report. Based upon such evaluation, our Chief Executive Officer and Chief Financial Officer has concluded that, as of the end of such period, our disclosure controls and procedures were not effective to ensure that (i) information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms and (ii) information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our principal executive officer and principal financial officer to allow timely decisions regarding required disclosure.

The Company is undertaking to improve its internal control over financial reporting and improve its disclosure controls and procedures. As of September 30, 2017, we identified the following material weaknesses that still exist through the date of this report:

As of September 30, 2017 and as of the date of filing this report, we did not maintain effective controls over the disclosure control environment. Specifically, the Company lacks accounting personnel with technical knowledge in certain debt and equity transactions. Additionally, because of the size of the Company's administrative staff, controls related to the segregation of certain duties have not been developed and the Company has not been able to adhere to them. Since these entity level programs have a pervasive effect across the organization, management has determined that these circumstances constitute a material weakness.

Changes in Internal Control Over Financial Reporting

There were no changes in internal control over financial reporting that occurred during the quarter ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

To the best of our knowledge, there are no material pending legal proceedings to which we are a party or of which any of our property is the subject.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed under Part I, Item 1A, "Risk Factors" in the Company's Annual Report of Form 10-K for the year ended June 30, 2017, as filed with the SEC. These factors could materially adversely affect our business, financial condition, liquidity, results of operations and capital position, and could cause our actual results to differ materially from our historical results or the results contemplated by the forward-looking statements contained in this report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not Applicable.

Item 5. Other Information.

On November 3, 2017, the Company entered into a Securities Purchase Agreement (the "Eagle SPA") dated as of October 25, 2017, with Eagle Equities, LLC ("Eagle Equities"), pursuant to which Eagle Equities purchased two 8% convertible redeemable junior subordinated promissory notes, each in the principal amount of \$200,000. The first note (the "First Note") was funded with cash and the second note (the

"Eagle Back-End Note") was initially paid for by an offsetting promissory note issued by Eagle Equities to the Company (the "Note Receivable"). The terms of the Eagle Back-End Note require cash funding prior to any conversion thereunder. The Note Receivable is due June 25, 2018, unless certain conditions are not met, in which case both the Eagle Back-End Note and the Note Receivable may both be cancelled. Both the First Note and the Eagle Back-End Note have a maturity date one year from the date of issuance upon which any outstanding principal and interest is due and payable. The amounts cash funded plus accrued interest under both the First Note and the Eagle Back-End Note are convertible into common stock, par value \$0.001 (the "Common Stock"), of the Company at a conversion price equal to 60% of the lowest closing bid price of the Common Stock for the ten trading days prior to the conversion, subject to adjustment in certain events.

The First Note may be prepaid with certain penalties within 180 days of issuance. The Eagle Back-End Note may not be prepaid. However, in the event the First Note is redeemed within the first six months of issuance, the Eagle Back-End Note will be deemed cancelled and of no further effect.

The Eagle Back-End Note will not be cash funded and such note, along with the Note Receivable, will be immediately cancelled if the shares do not maintain a minimum trading price during the five days prior to such funding and a certain aggregate dollar trading volume during such period. Upon an event of default, principal and accrued interest will become immediately due and payable under the notes. Additionally, upon an event of default, both notes will accrue interest at a default interest rate of 24% per annum or the highest rate of interest permitted by law. Further, certain events of default may trigger penalty and liquidated damage provisions.

Interest shall be payable in Common Stock (as defined below) pursuant to paragraph 4(b) herein. Permitted Assigns means any Holder assignment, transfer or sale of all or a portion of this Note accompanied by an Opinion of Counsel as provided for in Section 2(f) of the Securities Purchase Agreement by and between the Holder and the Company dated as of October 25, 2017 (the "Securities Purchase Agreement").

The Holder, for itself and its successors and assigns, agrees that this Note, and the payment of amounts due hereunder, are junior to and subordinate in all respects to the existing debt of the Company pursuant to that certain 5% Original Issue Discount Senior Secured Convertible Debenture with an original issue date of October 28, 2015 (the "2015 Debenture"), and the 5% Original Issue Discount Senior Secured Convertible Debenture with an original issue date of September 13, 2016 (the "2016 Debenture"), in each case issued by the Company to Delafield Investments Limited ("Delafield"), as amended, modified, supplemented, restated, refinanced or replaced from time to time. Notwithstanding anything to contrary in the Securities Purchase Agreement or this Note, no payment pursuant to this Note will occur until such time as the 2015 and Debenture and 2016 Debenture have been fully repaid. Any delay in the payment hereunder as a result of this subordination will not trigger any right to rescind, penalty or event of default hereunder.

This Note is subject to the following additional provisions:

- 1. This Note is exchangeable for an equal aggregate principal amount of Notes of different authorized denominations, as requested by the Holder surrendering the same. No service charge will be made for such registration or transfer or exchange, except that Holder shall pay any tax or other governmental charges payable in connection therewith. To the extent that Holder subsequently transfers, assigns, sells or exchanges any of the multiple lesser denomination notes, Holder acknowledges that it will provide the Company with Opinions of Counsel as provided for in Section 2(f) of the Securities Purchase Agreement ("Opinions of Counsel").
- 2. The Company shall be entitled to withhold from all payments any amounts required to be withheld under applicable laws.
- 3. This Note may be transferred or exchanged only in compliance with the Securities Act of 1933, as amended ("Act"), applicable state securities laws and Sections 2(f) and 5(f) of the Securities Purchase Agreement. Any attempted transfer to a non-qualifying party shall be treated by the Company as void. Prior to due presentment for transfer of this Note, the Company and any agent of the Company may treat the person in whose name this Note is duly registered on the Company's records as the owner hereof for all other purposes, whether or not this Note be overdue, and neither the Company nor any such agent shall be affected or bound by notice to the contrary. Any Holder of this Note electing to exercise the right of conversion set forth in Section 4(a) hereof, in addition to the requirements set forth in Section 4(a), and any prequalified prospective transferee of this Note, also is required to give the Company written confirmation that this Note is being converted ("Notice of Conversion") in the form annexed hereto as Exhibit A. The date of receipt (including receipt by telecopy) of such Notice of Conversion shall be the Conversion Date. All notices of conversion will be accompanied by an Opinion of Counsel.

- 4. (a) The Holder of this Note is entitled, at its option, at any time, to convert all or any amount of the principal face amount of this Note then outstanding into shares of the Company's common stock (the "Common Stock") at a price ("Conversion Price") for each share of Common Stock equal to 60% of the lowest closing bid price of the Common Stock as reported on the National Quotations Bureau OTC Markets exchange which the Company's shares are traded or any exchange upon which the Common Stock may be traded in the future ("Exchange"), for the ten prior trading days including the day upon which a Notice of Conversion is received by the Company (provided such Notice of Conversion is delivered together with an Opinion of Counsel, by fax or other electronic method of communication to the Company after 4 P.M. Eastern Standard or Daylight Savings Time if the Holder wishes to include the same day closing price). For purposes of the above calculations, a day shall not be considered a trading day if there was no trading volume for the Company's Common Stock for that particular day. If the shares have not been delivered within 3 business days, the Notice of Conversion may be rescinded. Such conversion shall be effectuated by the Company delivering the shares of Common Stock to the Holder within 3 business days of receipt by the Company of the Notice of Conversion. Accrued, but unpaid interest shall be subject to conversion. No fractional shares or scrip representing fractions of shares will be issued on conversion, but the number of shares issuable shall be rounded to the nearest whole share. To the extent the Conversion Price of the Company's Common Stock closes below the par value per share, the Company will take all steps necessary to solicit the consent of the stockholders to reduce the par value to the lowest value possible under law. The Company agrees to honor all conversions submitted pending this increase. In the event the Company experiences a DTC "Chill" on its shares, the conversion price shall be decreased to 50% instead of 60% while that "Chill" is in effect. If the Company fails to maintain the share reserve at the 4x discount of the note 60 days after the issuance of the note, the conversion discount shall be increased by 10%. In no event shall the Holder be allowed to effect a conversion if such conversion, along with all other shares of Company Common Stock beneficially owned by the Holder and its affiliates would exceed 4.99% of the outstanding shares of the Common Stock of the Company (which may be increased up to 9.9% upon 60 days' prior written notice by the Investor).
- (b) Interest on any unpaid principal balance of this Note shall be paid at the rate of 8% per annum. Interest shall be paid by the Company in Common Stock ("Interest Shares"). Holder may, at any time, send in a Notice of Conversion to the Company for Interest Shares based on the formula provided in Section 4(a) above. The dollar amount converted into Interest Shares shall be all or a portion of the accrued interest calculated on the unpaid principal balance of this Note to the date of such notice.
- (c) The Note may be prepaid with the following penalties: (i) if the note is prepaid within 60 days of the issuance date, then at 130% of the face amount plus any accrued interest; (ii) if the note is prepaid after 60 days after the issuance date but less than 121 days after the issuance date, then at 140% of the face amount plus any accrued interest and (iii) if the note is prepaid after 120 days after the issuance date but less than 180 days after the issuance date, then at 150% of the face amount plus any accrued interest. This Note may not be prepaid after the 180th day. Such redemption must be closed and funded within 3 days of giving notice of redemption of the right to redeem shall be null and void.
- (d) Upon (i) a transfer of all or substantially all of the assets of the Company to any person in a single transaction or series of related transactions, (ii) a reclassification, capital reorganization (excluding an increase in authorized capital) or other change or exchange of outstanding shares of the Common Stock, other than a forward or reverse stock split or stock dividend, or (iii) any consolidation or merger of the Company with or into another person or entity in which the Company is not the surviving entity (other than a merger which is effected solely to change the jurisdiction of incorporation of the Company and results in a reclassification, conversion or exchange of outstanding shares of Common Stock solely into shares of Common Stock) (each of items (i), (ii) and (iii) being referred to as a "Sale Event"), then, in each case, the Company shall, upon request of the Holder, redeem this Note in cash for 150% of the principal amount, plus accrued but unpaid interest through the date of redemption, or at the election of the Holder, such Holder may convert the unpaid principal amount of this Note (together with the amount of accrued but unpaid interest) into shares of Common Stock immediately prior to such Sale Event at the Conversion Price.

- (e) In case of any Sale Event (not to include a sale of all or substantially all of the Company's assets) in connection with which this Note is not redeemed or converted, the Company shall cause effective provision to be made so that the Holder of this Note shall have the right thereafter, by converting this Note, to purchase or convert this Note into the kind and number of shares of stock or other securities or property (including cash) receivable upon such reclassification, capital reorganization or other change, consolidation or merger by a holder of the number of shares of Common Stock that could have been purchased upon exercise of the Note and at the same Conversion Price, as defined in this Note, immediately prior to such Sale Event. The foregoing provisions shall similarly apply to successive Sale Events. If the consideration received by the holders of Common Stock is other than cash, the value shall be as determined by the Board of Directors of the Company or successor person or entity acting in good faith.
- 5. No provision of this Note shall alter or impair the obligation of the Company, which is absolute and unconditional, to pay the principal of, and interest on, this Note at the time, place, and rate, and in the form, herein prescribed.
- 6. The Company hereby expressly waives demand and presentment for payment, notice of non-payment, protest, notice of protest, notice of dishonor, notice of acceleration or intent to accelerate, and diligence in taking any action to collect amounts called for hereunder and shall be directly and primarily liable for the payment of all sums owing and to be owing hereto.
- 7. The Company agrees to pay all costs and expenses, including reasonable attorneys' fees and expenses, which may be incurred by the Holder in collecting any amount due under this Note.
 - 8. If one or more of the following described "Events of Default" shall occur:
- (a) The Company shall default in the payment of principal or interest on this Note or any other note issued to the Holder by the Company; or
- (b) Any of the representations or warranties made by the Company herein or in any certificate or financial or other written statements heretofore or hereafter furnished by or on behalf of the Company in connection with the execution and delivery of this Note, or the Securities Purchase Agreement under which this note was issued shall be false or misleading in any respect; or
- (c) The Company shall fail to perform or observe, in any respect, any covenant, term, provision, condition, agreement or obligation of the Company under this Note or any other note issued to the Holder; or

(d) The Company shall (1) become insolvent (which does not include a "going concern opinion); (2) admit in writing its inability to pay its debts generally as they mature; (3) make an assignment for the benefit of creditors or commence proceedings for its dissolution; (4) apply for or consent to the appointment of a trustee, liquidator or receiver for its or for a substantial part of its property or business; (5) file a petition for bankruptcy relief, consent to the filing of such petition or have filed against it an involuntary petition for bankruptcy relief, all under federal or state laws as applicable; or
(e) A trustee, liquidator or receiver shall be appointed for the Company or for a substantial part of its property or business without its consent and shall not be discharged within sixty (60) days after such appointment; or
(f) Any governmental agency or any court of competent jurisdiction at the instance of any governmental agency shall assume custody or control of the whole or any substantial portion of the properties or assets of the Company; or
(g) One or more money judgments, writs or warrants of attachment, or similar process, in excess of two hundred fifty thousand dollars (\$250,000) in the aggregate, shall be entered or filed against the Company or any of its properties or other assets and shall remain unpaid, unvacated, unbonded or unstayed for a period of fifteen (15) days or in any event later than five (5) days prior to the date of any proposed sale thereunder; or

- (h) The Company has defaulted on or breached any term of any other note of similar debt instrument into which the Company has entered and failed to cure such default within the appropriate grace period; or
- (i) The Company shall have its Common Stock delisted from an exchange (including the OTC Markets exchange) or, if the Common Stock trades on an exchange, then trading in the Common Stock shall be suspended for more than 10 consecutive days or ceases to file its 1934 act reports with the SEC;
- (j) The Company shall not deliver to the Holder the Common Stock pursuant to paragraph 4 herein without restrictive legend within 3 business days of its receipt of a Notice of Conversion which includes an Opinion of Counsel expressing an opinion which supports the removal of a restrictive legend; or
- (k) The Company shall not replenish the reserve set forth in Section 12, within 3 business days of the request of the Holder.
 - (1) The Company shall be delinquent in its periodic report filings with the Securities and Exchange Commission; or
- (m) The Company shall cause to lose the "bid" price for its stock in a market (including the OTC marketplace or other exchange).

Then, or at any time thereafter, unless cured within 5 days, and in each and every such case, unless such Event of Default shall have been waived in writing by the Holder (which waiver shall not be deemed to be a waiver of any subsequent default) at the option of the Holder and in the Holder's sole discretion, the Holder may consider this Note immediately due and payable, without presentment, demand, protest or (further) notice of any kind (other than notice of acceleration), all of which are hereby expressly waived, anything herein or in any note or other instruments contained to the contrary notwithstanding, and the Holder may immediately, and without expiration of any period of grace, enforce any and all of the Holder's rights and remedies provided herein or any other rights or remedies afforded by law. Upon an Event of Default, interest shall accrue at a default interest rate of 24% per annum or, if such rate is usurious or not permitted by current law, then at the highest rate of interest permitted by law. In the event of a breach of Section 8(j) the parties agree that damages shall be difficult to determine and agree on liquidated damages in the amount of \$250 per day the shares are not issued beginning on the 4th day after the conversion notice was delivered to the Company. The agreed liquidated damages shall increase to \$500 per day beginning on the 10 th day. In the event of a breach of Section 8(m), the parties agree that damages shall be difficult to determine and hereby agree to an increase of the outstanding principal amounts by 20% as a liquidated damages payment. In case of a breach of Section 8(i), the parties agree that damages will be difficult to determine and agree that the outstanding principal due under this Note shall increase by 50% as a liquidated damages payment. If this Note is not paid at maturity, the outstanding principal due under this Note shall increase by 10%. Further, if a breach of Section 8(1) occurs or is continuing after the 6-month anniversary of the Note, then the Holder shall be entitled to use the lowest closing bid price during the delinquency period as a base price for the conversion. For example, if the lowest closing bid price during the delinquency period is \$0.01 per share and the conversion discount is 50% the Holder may elect to convert future conversions at \$0.005 per share.

If the Holder shall commence an action or proceeding to enforce any provisions of this Note, including, without limitation, engaging an attorney, then if the Holder prevails in such action, the Holder shall be reimbursed by the Company for its attorneys' fees and other costs and expenses incurred in the investigation, preparation and prosecution of such action or proceeding.

- 9. In case any provision of this Note is held by a court of competent jurisdiction to be excessive in scope or otherwise invalid or unenforceable, such provision shall be adjusted rather than voided, if possible, so that it is enforceable to the maximum extent possible, and the validity and enforceability of the remaining provisions of this Note will not in any way be affected or impaired thereby.
- 10. Neither this Note nor any term hereof may be amended, waived, discharged or terminated other than by a written instrument signed by the Company and the Holder.
- 11. The Company represents that it is not a "shell" issuer and that if it previously has been a "shell" issuer that at least 12 months have passed since the Company has reported Form 10 type information indicating it is no longer a "shell issuer.

- 12. The Company shall issue irrevocable transfer agent instructions reserving 7,407,000 shares of its Common Stock for conversions under this Note (the "Share Reserve"). Upon full conversion of this Note, any shares remaining in the Share Reserve shall be cancelled. The company should at all times reserve a minimum of four times the number of shares required if the note would be fully converted. The Holder may reasonably request increases from time to time to reserve such amounts. The Company will instruct its transfer agent to provide the outstanding share information to the Holder in connection with its conversions.
- 13. The Company will give the Holder direct notice of any corporate actions, including but not limited to name changes, stock splits, recapitalizations etc. This notice shall be given to the Holder as soon as possible under law.
- 14. This Note shall be governed by and construed in accordance with the laws of Nevada applicable to contracts made and wholly to be performed within the State of Nevada and shall be binding upon the successors and assigns of each party hereto. The Holder and the Company hereby mutually waive trial by jury and consent to exclusive jurisdiction and venue in the courts of the State of New York or in the Federal courts sitting in the county or city of New York. This Agreement may be executed in counterparts, and the facsimile transmission of an executed counterpart to this Agreement shall be effective as an original.

The interest will be paid to the Holder in whose name this Note is registered on the records of the Company regarding registration and transfers of this Note. The principal of, and interest on, this Note are payable at 91 Shelton Ave, Suite 107, New Haven, CT 06511, initially, and if changed, last appearing on the records of the Company as designated in writing by the Holder hereof from time to time. The Company will pay each interest payment and the outstanding principal due upon this Note before or on the Maturity Date, less any amounts required by law to be deducted or withheld, to the Holder of this Note by check or wire transfer addressed to such Holder at the last address appearing on the records of the Company. The forwarding of such check or wire transfer shall constitute a payment of outstanding principal hereunder and shall satisfy and discharge the liability for principal on this Note to the extent of the sum represented by such check or wire transfer. Interest shall be payable in Common Stock (as defined below) pursuant to paragraph 4(b) herein. Permitted Assigns means any Holder assignment, transfer or sale of all or a portion of this Note accompanied by an Opinion of Counsel as provided for in Section 2(f) of the Securities Purchase Agreement by and between the Company and the Holder dated as of October 25, 2017 (the "Securities Purchase Agreement").

The Holder, for itself and its successors and assigns, agrees that this Note, and the payment of amounts due hereunder, are junior to and subordinate in all respects to the existing debt of the Company pursuant to that certain 5% Original Issue Discount Senior Secured Convertible Debenture with an original issue date of October 28, 2015 (the "2015 Debenture"), and the 5% Original Issue Discount Senior Secured Convertible Debenture with an original issue date of September 13, 2016 (the "2016 Debenture"), in each case issued by the Company to Delafield Investments Limited ("Delafield"), as amended, modified, supplemented, restated, refinanced or replaced from time to time. Notwithstanding anything to contrary in the Securities Purchase Agreement or this Note, no payment pursuant to this Note will occur until such time as the 2015 Debenture and 2016 Debenture have been fully repaid. Any delay in the payment hereunder as a result of this subordination will not trigger any right to rescind, penalty or event of default hereunder.

This Note is subject to the following additional provisions:

- 1. This Note is exchangeable for an equal aggregate principal amount of Notes of different authorized denominations, as requested by the Holder surrendering the same. No service charge will be made for such registration or transfer or exchange, except that Holder shall pay any tax or other governmental charges payable in connection therewith. To the extent that Holder subsequently transfers, assigns, sells or exchanges any of the multiple lesser denomination notes, Holder acknowledges that it will provide the Company with Opinions of Counsel as provided for in Section 2(f) of the Securities Purchase Agreement.
- 2. The Company shall be entitled to withhold from all payments any amounts required to be withheld under applicable laws.
- 3. This Note may be transferred or exchanged only in compliance with the Securities Act of 1933, as amended ("Act"), applicable state securities laws and Sections 2(f) and 5(f) of the Securities Purchase Agreement. Any attempted transfer to a non-qualifying party shall be treated by the Company as void. Prior to due presentment for transfer of this Note, the Company and any agent of the Company may treat the person in whose name this Note is duly registered on the Company's records as the owner hereof for all other purposes, whether or not this Note be overdue, and neither the Company nor any such agent shall be affected or bound by notice to the contrary. Any Holder of this Note electing to exercise the right of conversion set forth in Section 4(a) hereof, in addition to the requirements set forth in Section 4(a), and any prequalified prospective transferee of this Note, also is required to give the Company written confirmation that this Note is being converted ("Notice of Conversion") in the form annexed hereto as Exhibit A. The date of receipt (including receipt by telecopy) of such Notice of Conversion shall be the Conversion Date. All notices of conversion will be accompanied by an Opinion of Counsel.
- 4. (a) The Holder of this Note is entitled, at its option, at any time after cash payment, to convert all or any amount of the principal face amount of this Note then outstanding into shares of the Company's common stock (the "Common Stock") at a price ("Conversion Price") for each share of Common Stock equal to 60% of the lowest closing bid price of the Common Stock as reported on the National Quotations Bureau OTC Markets exchange which the Company's shares are traded or any exchange upon which the Common Stock may be traded in the future ("Exchange"), for the ten prior trading days including the day upon which a Notice of Conversion is received by the Company (provided such Notice of Conversion is delivered together with an Opinion of Counsel, by fax or other electronic method of communication to the Company after 4 P.M. Eastern Standard or Daylight Savings Time if the Holder wishes to include the same day closing price). For purposes of the above calculations, a day shall not be considered a trading day if there was no trading volume for the Company's Common Stock for that particular day. If the shares have not been delivered within 3 business days, the Notice of Conversion may be rescinded. Such conversion shall be effectuated by the Company delivering the shares of Common Stock to the Holder within 3 business days of receipt by the Company of the Notice of Conversion. Accrued, but unpaid interest shall be subject to conversion. No fractional shares or scrip representing fractions of shares will be issued on conversion, but the number of shares issuable shall be rounded to the nearest whole share. To the extent the Conversion Price of the Company's Common Stock closes below the par value per share, the Company will take all steps necessary to solicit the consent of the stockholders to reduce the par value to the lowest value possible under law. The Company agrees to honor all conversions submitted pending this increase. In the event the Company experiences a DTC "Chill" on its shares, the conversion price shall be decreased to 50% instead of 60% while that "Chill" is in effect. If the Company fails to maintain the share reserve at the 4x discount of the note 60 days after the issuance of the note, the conversion discount shall be increased by 10%. In no event shall the Holder be allowed to effect a conversion if such conversion, along with all other shares of Company Common Stock beneficially owned by the Holder and its affiliates would exceed 4.99% of the outstanding shares of the Common Stock of the Company (which may be increased up to 9.9% upon 60 days' prior written notice by the Investor).

- (b) Interest on any unpaid principal balance of this Note shall be paid at the rate of 8% per annum. Interest shall be paid by the Company in Common Stock ("Interest Shares"). Holder may, at any time, send in a Notice of Conversion to the Company for Interest Shares based on the formula provided in Section 4(a) above. The dollar amount converted into Interest Shares shall be all or a portion of the accrued interest calculated on the unpaid principal balance of this Note to the date of such notice.
- (c) This Note may not be prepaid, except that if the \$200,000 Rule 144 convertible redeemable note issued by the Company of even date herewith is redeemed by the Company within 6 months of the issuance date of such Note, all obligations of the Company under this Note and all obligations of the Holder under the Holder issued Back End Note will be automatically be deemed satisfied and this Note and the Holder issued Back End Note will be automatically be deemed cancelled and of no further force or effect.
- (d) Upon (i) a transfer of all or substantially all of the assets of the Company to any person in a single transaction or series of related transactions, (ii) a reclassification, capital reorganization (excluding an increase in authorized capital) or other change or exchange of outstanding shares of the Common Stock, other than a forward or reverse stock split or stock dividend, or (iii) any consolidation or merger of the Company with or into another person or entity in which the Company is not the surviving entity (other than a merger which is effected solely to change the jurisdiction of incorporation of the Company and results in a reclassification, conversion or exchange of outstanding shares of Common Stock solely into shares of Common Stock) (each of items (i), (ii) and (iii) being referred to as a "Sale Event"), then, in each case, the Company shall, upon request of the Holder, redeem this Note in cash for 150% of the principal amount, plus accrued but unpaid interest through the date of redemption, or at the election of the Holder, such Holder may convert the unpaid principal amount of this Note (together with the amount of accrued but unpaid interest) into shares of Common Stock immediately prior to such Sale Event at the Conversion Price.

- (e) In case of any Sale Event (not to include a sale of all or substantially all of the Company's assets) in connection with which this Note is not redeemed or converted, the Company shall cause effective provision to be made so that the Holder of this Note shall have the right thereafter, by converting this Note, to purchase or convert this Note into the kind and number of shares of stock or other securities or property (including cash) receivable upon such reclassification, capital reorganization or other change, consolidation or merger by a holder of the number of shares of Common Stock that could have been purchased upon exercise of the Note and at the same Conversion Price, as defined in this Note, immediately prior to such Sale Event. The foregoing provisions shall similarly apply to successive Sale Events. If the consideration received by the holders of Common Stock is other than cash, the value shall be as determined by the Board of Directors of the Company or successor person or entity acting in good faith.
- 5. No provision of this Note shall alter or impair the obligation of the Company, which is absolute and unconditional, to pay the principal of, and interest on, this Note at the time, place, and rate, and in the form, herein prescribed.
- 6. The Company hereby expressly waives demand and presentment for payment, notice of non-payment, protest, notice of protest, notice of dishonor, notice of acceleration or intent to accelerate, and diligence in taking any action to collect amounts called for hereunder and shall be directly and primarily liable for the payment of all sums owing and to be owing hereto.
- 7. The Company agrees to pay all costs and expenses, including reasonable attorneys' fees and expenses, which may be incurred by the Holder in collecting any amount due under this Note.
 - 8. If one or more of the following described "Events of Default" shall occur:
- (a) The Company shall default in the payment of principal or interest on this Note or any other note issued to the Holder by the Company; or
- (b) Any of the representations or warranties made by the Company herein or in any certificate or financial or other written statements heretofore or hereafter furnished by or on behalf of the Company in connection with the execution and delivery of this Note, or the Securities Purchase Agreement under which this note was issued shall be false or misleading in any respect; or
- (c) The Company shall fail to perform or observe, in any respect, any covenant, term, provision, condition, agreement or obligation of the Company under this Note or any other note issued to the Holder; or
- (d) The Company shall (1) become insolvent (which does not include a "going concern opinion); (2) admit in writing its inability to pay its debts generally as they mature; (3) make an assignment for the benefit of creditors or commence proceedings for its dissolution; (4) apply for or consent to the appointment of a trustee, liquidator or receiver for its or for a substantial part of its property or business; (5) file a petition for bankruptcy relief, consent to the filing of such petition or have filed against it an involuntary petition for bankruptcy relief, all under federal or state laws as applicable; or

- (e) A trustee, liquidator or receiver shall be appointed for the Company or for a substantial part of its property or business without its consent and shall not be discharged within sixty (60) days after such appointment; or
- (f) Any governmental agency or any court of competent jurisdiction at the instance of any governmental agency shall assume custody or control of the whole or any substantial portion of the properties or assets of the Company; or
- (g) One or more money judgments, writs or warrants of attachment, or similar process, in excess of two hundred fifty thousand dollars (\$250,000) in the aggregate, shall be entered or filed against the Company or any of its properties or other assets and shall remain unpaid, unvacated, unbonded or unstayed for a period of fifteen (15) days or in any event later than five (5) days prior to the date of any proposed sale thereunder; or
- (h) The Company has defaulted on or breached any term of any other note of similar debt instrument into which the Company has entered and failed to cure such default within the appropriate grace period; or
- (i) The Company shall have its Common Stock delisted from an exchange (including the OTC Markets exchange) or, if the Common Stock trades on an exchange, then trading in the Common Stock shall be suspended for more than 10 consecutive days or ceases to file its 1934 act reports with the SEC;
- (j) The Company shall not deliver to the Holder the Common Stock pursuant to paragraph 4 herein without restrictive legend within 3 business days of its receipt of a Notice of Conversion which includes an Opinion of Counsel expressing an opinion which supports the removal of a restrictive legend; or
- (k) The Company shall not replenish the reserve set forth in Section 12, within 5 business days of the request of the Holder; or
 - (1) The Company shall cease to be "current" in its filings with the Securities and Exchange Commission; or
 - (m) The Company shall lose the "bid" price for its stock in a market (including the OTC marketplace or other exchange)

Then, or at any time thereafter, unless cured, in each and every such case, unless such Event of Default shall have been waived in writing by the Holder (which waiver shall not be deemed to be a waiver of any subsequent default) at the option of the Holder and in the Holder's sole discretion, the Holder may consider this Note immediately due and payable, without presentment, demand, protest or (further) notice of any kind (other than notice of acceleration), all of which are hereby expressly waived, anything herein or in any note or other instruments contained to the contrary notwithstanding, and the Holder may immediately, and without expiration of any period of grace, enforce any and all of the Holder's rights and remedies provided herein or any other rights or remedies afforded by law. Upon an Event of Default, interest shall accrue at a default interest rate of 24% per annum or, if such rate is usurious or not permitted by current law, then at the highest rate of interest permitted by law. In the event of a breach of Section 8(j), the parties agree that damages shall be difficult to determine and in lieu of a penalty, the parties agree to a liquidated damages payment of \$250 per day the shares are not issued beginning on the 4th day after the conversion notice was delivered to the Company. This liquidated damages payment shall increase to \$500 per day beginning on the 10th day. In the event of a breach of Section 8(m), the parties agree that damages shall be difficult to determine and in lieu of a penalty, the parties agree to an increase of the outstanding principal amounts by 20% as a liquidated damages payment. In case of a breach of Section 8(i), the parties agree that damages shall be difficult to determine and in lieu of a penalty, the parties agree to an increase of the outstanding principal amounts by 50% as a liquidated damages payment. Further, if a breach of Section 8(1) occurs or is continuing after the 6 month anniversary of the Note, then the Holder shall be entitled to use the lowest closing bid price during the delinquency period as a base price for the conversion. For example, if the lowest closing bid price during the delinquency period is \$0.01 per share and the conversion discount is 50% the Holder may elect to convert future conversions at \$0.005 per share. If this Note is not paid at maturity, the outstanding principal due under this Note shall increase by 10%.

If the Holder shall commence an action or proceeding to enforce any provisions of this Note, including, without limitation, engaging an attorney, then if the Holder prevails in such action, the Holder shall be reimbursed by the Company for its attorneys' fees and other costs and expenses incurred in the investigation, preparation and prosecution of such action or proceeding.

- 9. In case any provision of this Note is held by a court of competent jurisdiction to be excessive in scope or otherwise invalid or unenforceable, such provision shall be adjusted rather than voided, if possible, so that it is enforceable to the maximum extent possible, and the validity and enforceability of the remaining provisions of this Note will not in any way be affected or impaired thereby.
- 10. Neither this Note nor any term hereof may be amended, waived, discharged or terminated other than by a written instrument signed by the Company and the Holder.
- 11. The Company represents that it is not a "shell" issuer and has never been a "shell" issuer or that if it previously has been a "shell" issuer that at least 12 months have passed since the Company has reported form 10 type information indicating it is no longer a "shell issuer.
- 12. Prior to cash funding of this Note, The Company will issue irrevocable transfer agent instructions reserving 3x the number of shares of Common Stock necessary to allow the holder to convert this note based on the discounted conversion price set forth in Section 4(a) herewith. Upon full conversion of this Note, the reserve representing this Note shall be cancelled. The Company will pay all transfer agent costs associated with issuing and delivering the shares. If such amounts are to be paid by the Holder, it may deduct such amounts from the Conversion Price. Conversion Notices may be sent to the Company or its transfer agent via electric mail. The Company will instruct its transfer agent to provide the outstanding share information to the Holder in connection with its conversions.
- 13. The Company will give the Holder direct notice of any corporate actions including but not limited to name changes, stock splits, recapitalizations etc. This notice shall be given to the Holder as soon as possible under law.
- 14. This Note shall be governed by and construed in accordance with the laws of Nevada applicable to contracts made and wholly to be performed within the State of Nevada and shall be binding upon the successors and assigns of each party hereto. The Holder and the Company hereby mutually waive trial by jury and consent to exclusive jurisdiction and venue in the courts of the State of New York or in the Federal courts sitting in the county or city of New York. This Agreement may be executed in counterparts, and the facsimile transmission of an executed counterpart to this Agreement shall be effective as an original.

b. The Company may pay this Note at any time. This note may not be assigned by the Lender, except by operation of law.

The Company may exchange this collateral for other collateral with an appraised value of at least \$200,000.00, by providing 3 days prior written notice to the Lender. If the Lender does not object to the substitution of collateral in that 3 day period, such substitution of collateral shall be deemed to have been accepted by the Lender. Notwithstanding the foregoing, an exchange of collateral for \$200,000.00 in cash shall not require the approval of the Lender. All collateral shall be retained by New Venture Attorneys, P.C., which shall act as the escrow agent for the collateral for the benefit of the Lender. Upon the occurrence of any Event of Default, the entire unpaid principal balance of this Note and all of the unpaid interest accrued thereon shall be immediately due and payable. The Company may offset amounts due to the Lender under this Note by similar amounts that may be due to the Company by the Lender resulting from breaches under the Lender Note.

No remedy herein conferred upon the Lender is intended to be exclusive of any other remedy and each and every remedy shall be cumulative and in addition to every other remedy hereunder, now or hereafter existing at law or in equity or otherwise. Neither such inquiries nor any other due diligence investigation conducted by Buyer or any of its advisors or representatives shall modify, amend or affect Buyer's right to rely on the Company's representations and warranties contained in Section 3 below. The Buyer understands that its investment in the Securities involves a significant degree of risk. "NEITHER THE ISSUANCE AND SALE OF THE SECURITIES REPRESENTED HEREBY NOR THE SECURITIES INTO WHICH THESE SECURITIES ARE CONVERTIBLE HAVE BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, OR APPLICABLE STATE SECURITIES LAWS. THE SECURITIES MAY NOT BE OFFERED FOR SALE, SOLD, TRANSFERRED OR ASSIGNED (I) IN THE ABSENCE OF (A) AN EFFECTIVE REGISTRATION STATEMENT FOR THE SECURITIES UNDER THE SECURITIES ACT OF 1933, AS AMENDED, OR (B) AN OPINION OF COUNSEL (WHICH COUNSEL SHALL BE SELECTED BY THE HOLDER), IN A FORM ACCEPTABLE TO THE COMPANY, THAT REGISTRATION IS NOT REQUIRED UNDER SAID ACT OR (II) UNLESS SOLD PURSUANT TO RULE 144 OR RULE 144A UNDER SAID ACT."

The legend set forth above shall be removed and the Company shall issue a certificate without such legend to the holder of any Security upon which it is stamped, if, unless otherwise required by applicable state securities laws, (a) such Security is registered for sale under an effective registration statement filed under the 1933 Act or otherwise may be sold pursuant to Rule 144 or Regulation S without any restriction as to the number of securities as of a particular date that can then be immediately sold, or (b) such holder provides the Company with an opinion of counsel, in form, substance and scope customary for opinions of counsel in comparable transactions, to the effect that a public sale or transfer of such Security may be made without registration under the 1933 Act, which opinion shall be accepted by the Company in its reasonable discretion so that the sale or transfer is effected. The Buyer agrees to sell all Securities, including those represented by a certificate(s) from which the legend has been removed, in compliance with applicable prospectus delivery requirements, if any.

h. <u>Authorization; Enforcement</u>. This Agreement has been duly and validly authorized. This Agreement has been duly executed and delivered on behalf of the Buyer, and this Agreement constitutes a valid and binding agreement of the Buyer enforceable in accordance with its terms.

i. Residency. The Buyer is a resident of the jurisdiction set forth immediately below the Buyer's name on the signature pages hereto.

3. Representations and Warranties of the Company. The Company represents and warrants to the Buyer that:

a. <u>Organization and Qualification</u>. The Company and each of its subsidiaries, if any, is a corporation duly organized, validly existing and in good standing under the laws of the jurisdiction in which it is incorporated, with full power and authority (corporate and other) to own, lease, use and operate its properties and to carry on its business as and where now owned, leased, used, operated and conducted.

b. <u>Authorization</u>; <u>Enforcement</u>. (i) The Company has all requisite corporate power and authority to enter into and perform this Agreement, the Notes and to consummate the transactions contemplated hereby and thereby and to issue the Securities, in accordance with the terms hereof and thereof, (ii) the execution and delivery of this Agreement and the Notes by the Company and the consummation by it of the transactions contemplated hereby and thereby (including without limitation, the issuance of the Notes and the issuance and reservation for issuance of the Conversion Shares issuable upon conversion or exercise thereof) have been duly authorized by the Company's Board of Directors and no further consent or authorization of the Company, its Board of Directors, or its shareholders is required, (iii) this Agreement has been duly executed and delivered by the Company by its authorized representative, and such authorized representative is the true and official representative with authority to sign this Agreement and the other documents executed in connection herewith and bind the Company accordingly, and (iv) this Agreement constitutes, and upon execution and delivery by the Company of the Notes, each of such instruments will constitute, a legal, valid and binding obligation of the Company enforceable against the Company in accordance with its terms.

c. <u>Issuance of Shares</u>. The shares reserved for conversion of the Note shall be duly authorized and reserved for issuance as soon as practicable after the Company has increased its shares of authorized Common Stock in an amount equal to or greater than that permitting it to reserve such shares. Upon conversion of the Note in accordance with its respective terms, Conversion Shares will be validly issued, fully paid and non-assessable, and free from all taxes, liens, claims and encumbrances with respect to the issue thereof and shall not be subject to preemptive rights or other similar rights of shareholders of the Company and will not impose personal liability upon the holder thereof.

d. <u>Acknowledgment of Dilution</u>. The Company understands and acknowledges the potentially dilutive effect to the Common Stock upon the issuance of the Conversion Shares upon conversion of the Notes. The Company further acknowledges that its obligation to issue Conversion Shares upon conversion of the Notes in accordance with this Agreement and the Notes is absolute and unconditional regardless of the dilutive effect that such issuance may have on the ownership interests of other shareholders of the Company.

e. No Conflicts. The execution, delivery and performance of this Agreement and the Notes by the Company and the consummation by the Company of the transactions contemplated hereby and thereby (including, without limitation, the issuance and reservation for issuance of the Conversion Shares) will not (i) conflict with or result in a violation of any provision of the Articles of Incorporation or By-laws, (ii) violate or conflict with, or result in a breach of any provision of, or constitute a default (or an event which with notice or lapse of time or both could become a default) under, or give to others any rights of termination, amendment, acceleration or cancellation of, any agreement, indenture, patent, patent license or instrument to which the Company or any of its subsidiaries is a party, or (iii) result in a violation of any law, rule, regulation, order, judgment or decree (including federal and state securities laws and regulations and regulations of any self-regulatory organizations to which the Company or its securities are subject) applicable to the Company or any of its subsidiaries or by which any property or asset of the Company or any of its subsidiaries is bound or affected (except for such conflicts, defaults, terminations, amendments, accelerations, cancellations and violations as would not, individually or in the aggregate, have a Material Adverse Effect). All consents, authorizations, orders, filings and registrations which the Company is required to obtain pursuant to the preceding sentence have been obtained or effected on or prior to the date hereof. The Company is not in violation of the eligibility requirements of the OTC Markets Exchange (the "OTC Markets") and does not reasonably anticipate that the Common Stock will be ineligible for quotation on the OTC MARKETS in the foreseeable future, nor are the Company's securities "chilled" by DTC. The Company and its subsidiaries are unaware of any facts or circumstances which might give rise to any of the foregoing. For purposes of this Agreement, "Material Adverse Effect" means an event or combination of events, which individually or in the aggregate, would reasonably be expected to (a) adversely affect the legality, validity or enforceability of the Agreement or the Notes, or (b) have or result in a material adverse effect on the results of operations, assets, or financial condition of the Company, taken as a whole.

f. Absence of Litigation. Except as disclosed to the Buyer or in the Company's public filings, there is no action, suit, claim, proceeding, inquiry or investigation before or by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the Company or any of its subsidiaries, threatened against or affecting the Company or any of its subsidiaries, or their officers or directors in their capacity as such, that could have a Material Adverse Effect. Schedule 3(f) contains a complete list and summary description of any pending or, to the knowledge of the Company, threatened proceeding against or affecting the Company or any of its subsidiaries, without regard to whether it would have a Material Adverse Effect.

g. Acknowledgment Regarding Buyer's Purchase of Securities. The Company acknowledges and agrees that the Buyer is acting solely in the capacity of arm's length purchasers with respect to this Agreement and the transactions contemplated hereby. The Company further acknowledges that the Buyer is not acting as a financial advisor or fiduciary of the Company (or in any similar capacity) with respect to this Agreement and the transactions contemplated hereby and any statement made by the Buyer or any of its respective representatives or agents in connection with this Agreement and the transactions contemplated hereby is not advice or a recommendation and is merely incidental to the Buyer' purchase of the Securities.

h. No Integrated Offering. Neither the Company, nor any of its affiliates, nor any person acting on its or their behalf, has directly or indirectly made any offers or sales in any security or solicited any offers to buy any security under circumstances that would require registration under the 1933 Act of the issuance of the Securities to the Buyer.

i. <u>Title to Property</u>. The Company and its subsidiaries have good and marketable title in fee simple to all real property and good and marketable title to all personal property owned by them which is material to the business of the Company and its subsidiaries, in each case free and clear of all liens, encumbrances and defects except such as are described in Schedule 3(i) or such as would not have a Material Adverse Effect. Any real property and facilities held under lease by the Company and its subsidiaries are held by them under valid, subsisting and enforceable leases with such exceptions as would not have a Material Adverse Effect.

j. <u>Bad Actor</u>. No officer or director of the Company would be disqualified under Rule 506(d) of the Securities Act as amended on the basis of being a "bad actor" as that term is established in the September 19, 2013 Small Entity Compliance Guide published by the Securities and Exchange Commission.

k . <u>Breach of Representations and Warranties by the Company</u>. If the Company breaches any of the representations or warranties set forth in this Section 3 in any material respect, and in addition to any other remedies available to the Buyer pursuant to this Agreement, it will be considered an Event of Default under the Notes.

4. COVENANTS.

- a. <u>Expenses</u>. The Company agrees that Buyer can deduct \$10,000.00 (Ten Thousand Dollars) from each of the principal payments due under the First Note and the Second Note, at the time of cash funding, to be applied to the legal expenses of Buyer.
- b. <u>Listing</u>. The Company shall promptly secure the listing of the Conversion Shares upon each national securities exchange or automated quotation system, if any, upon which shares of Common Stock are then listed (subject to official notice of issuance) and, so long as the Buyer owns any of the Securities, shall maintain, so long as any other shares of Common Stock shall be so listed, such listing of all Conversion Shares from time to time issuable upon conversion of the Notes. The Company will obtain and, so long as the Buyer owns any of the Securities, maintain the listing and trading of its Common Stock on the OTC MARKETS or any equivalent replacement market, the Nasdaq stock market ("Nasdaq"), or the New York Stock Exchange ("NYSE"), and will comply in all respects with the Company's reporting, filing and other obligations under the bylaws or rules of the Financial Industry Regulatory Authority ("FINRA") and such exchanges, as applicable. The Company shall promptly provide to the Buyer copies of any notices it receives from the OTC MARKETS and any other markets on which the Common Stock is then listed regarding the continued eligibility of the Common Stock for listing on such markets.
- c. <u>Corporate Existence</u>. So long as the Buyer beneficially owns any Note, the Company shall maintain its corporate existence and shall not sell all or substantially all of the Company's assets, except in the event of a merger or consolidation or sale of all or substantially all of the Company's assets, where the surviving or successor entity in such transaction (i) assumes the Company's obligations hereunder and under the agreements and instruments entered into in connection herewith and (ii) is a publicly traded corporation whose Common Stock is listed for trading on the OTC MARKETS, Nasdaq or NYSE.

d. <u>No Integration</u>. The Company shall not make any offers or sales of any security (other than the Securities) under circumstances that would require registration of the Securities being offered or sold hereunder under the 1933 Act or cause the offering of the Securities to be integrated with any other offering of securities by the Company for the purpose of any stockholder approval provision applicable to the Company or its securities.

e. <u>Breach of Covenants</u>. If the Company breaches any of the covenants set forth in this Section 4, and in addition to any other remedies available to the Buyer pursuant to this Agreement, it will be considered an event of default under the Notes.

5. Governing Law; Miscellaneous.

a. Governing Law. This Agreement shall be governed by and construed in accordance with the laws of the State of New York without regard to principles of conflicts of laws. Any action brought by either party against the other concerning the transactions contemplated by this Agreement shall be brought only in the state courts of New York or in the federal courts located in the state and county of New York. The parties to this Agreement hereby irrevocably waive any objection to jurisdiction and venue of any action instituted hereunder and shall not assert any defense based on lack of jurisdiction or venue or based upon *forum non conveniens*. The Company and Buyer waive trial by jury. The prevailing party shall be entitled to recover from the other party its reasonable attorney's fees and costs. In the event that any provision of this Agreement or any other agreement delivered in connection herewith is invalid or unenforceable under any applicable statute or rule of law, then such provision shall be deemed inoperative to the extent that it may conflict therewith and shall be deemed modified to conform with such statute or rule of law. Any such provision which may prove invalid or unenforceable under any law shall not affect the validity or enforceability of any other provision of any agreement. Each party hereby irrevocably waives personal service of process and consents to process being served in any suit, action or proceeding in connection with this Agreement or any other Transaction Document by mailing a copy thereof via registered or certified mail or overnight delivery (with evidence of delivery) to such party at the address in effect for notices to it under this Agreement and agrees that such service shall constitute good and sufficient service of process and notice thereof. Nothing contained herein shall be deemed to limit in any way any right to serve process in any other manner permitted by law.

b. <u>Counterparts</u>; <u>Signatures by Facsimile</u>. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original but all of which shall constitute one and the same agreement and shall become effective when counterparts have been signed by each party and delivered to the other party. This Agreement, once executed by a party, may be delivered to the other party hereto by facsimile transmission of a copy of this Agreement bearing the signature of the party so delivering this Agreement.

c. <u>Headings</u>. The headings of this Agreement are for convenience of reference only and shall not form part of, or affect the interpretation of, this Agreement.

- d. Severability. In the event that any provision of this Agreement is invalid or unenforceable under any applicable statute or rule of law, then such provision shall be deemed inoperative to the extent that it may conflict therewith and shall be deemed modified to conform with such statute or rule of law. Any provision hereof which may prove invalid or unenforceable under any law shall not affect the validity or enforceability of any other provision hereof.
- e. Entire Agreement; Amendments. This Agreement and the instruments referenced herein contain the entire understanding of the parties with respect to the matters covered herein and therein and, except as specifically set forth herein or therein, neither the Company nor the Buyer makes any representation, warranty, covenant or undertaking with respect to such matters. No provision of this Agreement may be waived or amended other than by an instrument in writing signed by the majority in interest of the Buyer.

f. Notices. All notices, demands, requests, consents, approvals, and other communications required or permitted hereunder shall be in writing and, unless otherwise specified herein, shall be (i) personally served, (ii) deposited in the mail, registered or certified, return receipt requested, postage prepaid, (iii) delivered by reputable air courier service with charges prepaid, (iv) via electronic mail or (v) transmitted by hand delivery, telegram, or facsimile, addressed as set forth below or to such other address as such party shall have specified most recently by written notice. Any notice or other communication required or permitted to be given hereunder shall be deemed effective (a) upon hand delivery or delivery by facsimile, with accurate confirmation generated by the transmitting facsimile machine, at the address or number designated below (if delivered on a business day during normal business hours where such notice is to be received) or delivery via electronic mail, or the first business day following such delivery (if delivered other than on a business day during normal business hours where such notice is to be received) or (b) on the second business day following the date of mailing by express courier service, fully prepaid, addressed to such address, or upon actual receipt of such mailing, whichever shall first occur. The addresses for such communications shall be:

If to the Company, to: Propanc BioPharma, Inc 302, 6 Butler Street Camberwell, VIC 3124 Australia

Each party shall provide notice to the other party of any change in address.

g. <u>Successors and Assigns</u>. This Agreement shall be binding upon and inure to the benefit of the parties and their successors and assigns. Neither the Company nor the Buyer shall assign this Agreement or any rights or obligations hereunder without the prior written consent of the other. Notwithstanding the foregoing, the Buyer may assign its rights hereunder to any of its "affiliates," as that term is defined under the 1934 Act, without the consent of the Company.

- h. <u>Third Party Beneficiaries</u>. This Agreement is intended for the benefit of the parties hereto and their respective permitted successors and assigns, and is not for the benefit of, nor may any provision hereof be enforced by, any other person.
- i. <u>Survival</u>. The representations and warranties of the Company and the agreements and covenants set forth in this Agreement shall survive the closing hereunder notwithstanding any due diligence investigation conducted by or on behalf of the Buyer. The Company agrees to indemnify and hold harmless the Buyer and all their officers, directors, employees and agents for loss or damage arising as a result of or related to any breach or alleged breach by the Company of any of its representations, warranties and covenants set forth in this Agreement or any of its covenants and obligations under this Agreement.
- j. <u>Further Assurances</u>. Each party shall do and perform, or cause to be done and performed, all such further acts and things, and shall execute and deliver all such other agreements, certificates, instruments and documents, as the other party may reasonably request in order to carry out the intent and accomplish the purposes of this Agreement and the consummation of the transactions contemplated hereby.
- k. <u>No Strict Construction</u>. The language used in this Agreement will be deemed to be the language chosen by the parties to express their mutual intent, and no rules of strict construction will be applied against any party.
- l. <u>Remedies</u>. The Company acknowledges that a breach by it of its obligations hereunder will cause irreparable harm to the Buyer by vitiating the intent and purpose of the transaction contemplated hereby. Accordingly, the Company acknowledges that the remedy at law for a breach of its obligations under this Agreement will be inadequate and agrees, in the event of a breach or threatened breach by the Company of the provisions of this Agreement, that the Buyer shall be entitled, in addition to all other available remedies at law or in equity, and in addition to the penalties assessable herein, to an injunction or injunctions restraining, preventing or curing any breach of this Agreement and to enforce specifically the terms and provisions hereof, without the necessity of showing economic loss and without any bond or other security being required.
