This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements contained in this Quarterly Report on Form 10-Q other than statements of historical fact, including statements regarding our future results of operations and financial position, our business strategy and plans, and our objectives for future operations, are forward-looking statements. The words “believe,” “may,” “will,” “estimate,” “continue,” “anticipate,” “intend,” “expect,” and similar expressions are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and trends that we believe may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives, and financial needs. These forward-looking statements are subject to a number of risks, uncertainties and assumptions. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, the future events and trends discussed in this Quarterly Report on Form 10-Q may not occur and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. We undertake no obligation to revise or publicly release the results of any revision to these forward-looking statements, except as required by law. Given these risks and uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements.

Unless expressly indicated or the context requires otherwise, the terms “Propanc,” “company,” “we,” “us,” and “our” in this document refer to Propanc Biopharma, Inc., a Delaware corporation, and, where appropriate, its wholly owned subsidiary.

(Unaudited)

NOTE 1 – NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Nature of Operations

Propanc Biopharma, Inc. (the “Company,” “we,” “us” or “our”) was originally incorporated in Melbourne, Victoria Australia on October 15, 2007 as Propanc PTY LTD, and continues to be based in Camberwell, Victoria Australia. Since its inception, substantially all of the operations of the Company have been focused on the development of new cancer treatments targeting high-risk patients, particularly cancer survivors, who need a follow-up, non-toxic, long-term therapy designed to prevent the cancer from returning and spreading. The Company anticipates establishing global markets for its technologies. Our lead product candidate, which we refer to as PRP, is an enhanced pro-enzyme formulation designed to enhance the anti-cancer effects of multiple enzymes acting synergistically. It is currently in the preclinical phase of development.

On November 23, 2010, the Company was incorporated in the state of Delaware as Propanc Health Group Corporation. In January 2011, to reorganize the Company, we acquired all of the outstanding shares of Propanc PTY LTD on a one-for-one basis making it a wholly-owned subsidiary of the Company.

On July 22, 2016, the Company formed a wholly owned subsidiary, Propanc (UK) Limited under the laws of England and Wales for the purpose of submitting an orphan drug application to the European Medicines Agency as a small and medium-sized enterprise. As of December 31, 2021, there has been no activity within this entity.

Effective April 20, 2017, the Company changed its name to “Propanc Biopharma, Inc.” to better reflect the Company’s stage of operations and development.

In July 2020, a world first patent was granted in Australia for the cancer treatment method patent family. Presently, there are 35 granted patents and 30 patents under examination in key global jurisdictions relating to the use of proenzymes against solid tumors, covering the lead product candidate PRP.

The Company hopes to capture and protect additional patentable subject matter based on the Company’s field of technology relating to pharmaceutical compositions of proenzymes for treating cancer by filing additional patent applications as it advances its lead product candidate, PRP, through various stages of development.

On November 17, 2020, the Company effected a one-for-one thousand (1:1,000) reverse stock split of the Company’s issued and outstanding shares of common stock (the “Reverse Stock Split”). Proportional adjustments for the Reverse Stock Split were made to the Company’s outstanding stock options, warrants and equity incentive plans. All share and per-share data and amounts have been retroactively adjusted as of the earliest period presented in the consolidated financial statements to reflect the Reverse Stock Split.

Basis of Presentation

The Company’s interim unaudited condensed consolidated financial statements included in this Quarterly Report on Form 10-Q (this “Quarterly Report”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”) and pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). In the opinion of the Company’s management, all adjustments (consisting of normal recurring adjustments and reclassifications and non-recurring adjustments) necessary to present fairly our results of operations for the three and six months ended December 31, 2021 and 2020 and cash flows for the six months ended December 31, 2021 and 2020 and our financial position at December 31, 2021 have been made. The Company’s results of operations for the three and six months ended December 31, 2021 are not necessarily indicative of the operating results to be expected for the full fiscal year ending June 30, 2022.

Certain information and disclosures normally included in the notes to the Company’s annual audited consolidated financial statements have been condensed or omitted from the Company’s interim unaudited condensed consolidated financial statements included in this Quarterly Report. Accordingly, these interim unaudited condensed consolidated financial statements should be read in conjunction with the Company’s audited consolidated financial statements and notes thereto for the fiscal year ended June 30, 2021. The June 30, 2021 balance sheet is derived from those statements.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of Propanc Biopharma, Inc., the parent entity, and its wholly-owned subsidiary, Propanc PTY LTD. All inter-company balances and transactions have been eliminated in consolidation. Propanc (UK) Limited was an inactive subsidiary at December 31, 2021.

Use of Estimates

The preparation of financial statements in conformity with the accounting principles generally accepted in the United States of America (“US GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. Significant estimates in the accompanying consolidated financial statements include the estimates of useful lives for depreciation, valuation of the operating lease liability and related right-of-use asset, valuation of derivatives, valuation of beneficial conversion features on convertible debt, allowance for uncollectable receivables, valuation of equity based instruments issued for other than cash, the valuation allowance on deferred tax assets and foreign currency translation due to certain average exchange rates applied in lieu of spot rates on transaction dates.

Foreign Currency Translation and Other Comprehensive Income (Loss)

The Company’s wholly owned subsidiary’s functional currency is the Australian dollar (AUD). For financial reporting purposes, the Australian dollar has been translated into the Company’s reporting currency which is the United States dollar (\$) and/or (USD). Assets and liabilities are translated at the exchange rate in effect at the balance sheet date. Revenues and expenses are translated at the average rate of exchange prevailing during the reporting period. Equity transactions are translated at each historical transaction date spot rate. Translation adjustments arising from the use of different exchange rates from period to period are included as a component of stockholders’ equity (deficit) as “Accumulated other comprehensive income (loss).” Gains and losses resulting from foreign currency transactions are included in the statements of operations and comprehensive income (loss) as a component of other comprehensive income (loss). There have been no significant fluctuations in the exchange rate for the conversion of Australian dollars to USD after the balance sheet date.

Other Comprehensive Income (Loss) for all periods presented includes only foreign currency translation gains (losses).

Assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates prevailing at the consolidated balance sheet date with any transaction gains and losses that arise from exchange rate fluctuations on transactions denominated in a currency other than the functional currency included in the consolidated results of operations as incurred. Effective fiscal year 2021, the parent company determined that these intercompany loans will not be repaid in the foreseeable future and thus, per ASC 830-20-35-3, gains and losses from measuring the intercompany balances are recorded within cumulative translation adjustment, a component of accumulated other comprehensive income (loss). Prior to July 1, 2020, the Company recorded the foreign currency transaction gains and losses from measuring the intercompany balances as a component of other income (expenses) titled foreign currency transaction gain (loss). For the three months ended December 31, 2021 and 2020, the Company recognized an exchange loss of approximately \$134,000 and \$328,000 respectively and for the six months ended December 31, 2021, and 2020, the Company recognized an exchanged gain (loss) of approximately \$485,000 and (\$912,000) on intercompany loans made by the parent to the subsidiary which have not been repaid as of December 31, 2021.

As of December 31, 2021 and June 30, 2021, the exchange rates used to translate amounts in Australian dollars into USD for the purposes of preparing the consolidated financial statements were as follows:

	December 31, 2021	June 30, 2021
Exchange rate on balance sheet dates		
USD : AUD exchange rate	0.7271	0.7500
Average exchange rate for the period		
USD : AUD exchange rate	0.7317	0.7473

The change in Accumulated Other Comprehensive Income by component during the six months ended December 31, 2021 was as follows:

	Foreign Currency Items:
Balance, June 30, 2021	\$ 1,085,204
Unrealized foreign currency translation gain	56,496
Ending balance, December 31, 2021	<u>\$ 1,141,700</u>

Fair Value of Financial Instruments and Fair Value Measurements

The Company measures its financial assets and liabilities in accordance with US GAAP. For certain financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities, the carrying amounts approximate fair value due to their short maturities. Amounts recorded for notes payable, net of discount, and loans payable also approximate fair value because current interest rates available for debt with similar terms and maturities are substantially the same.

The Company follows accounting guidance for financial assets and liabilities. This standard defines fair value, provides guidance for measuring fair value and requires certain disclosures. This standard does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements. This guidance does not apply to measurements related to share-based payments. This guidance discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost).

The guidance utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs, other than quoted prices that are observable, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

Also see Note 11 - Derivative Financial Instruments and Fair Value Measurements.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and at banks, short-term deposits with an original maturity of three months or less with financial institutions, and bank overdrafts. Bank overdrafts are reflected as a current liability on the balance sheets. There were no cash equivalents as of December 31, 2021 or June 30, 2021.

Property and Equipment

Property and equipment are stated at cost, net of accumulated depreciation. Expenditures for maintenance and repairs are expensed as incurred; additions, renewals, and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Depreciation of property and equipment is provided using the declining balance method. The depreciable amount is the cost less its residual value.

The estimated useful lives are as follows:

Machinery and equipment	- 5 years
Furniture	- 7 years

Patents

Patents are stated at cost and amortized on a straight-line basis over the estimated future periods if and once the patent has been granted by a regulatory agency. However, the Company will expense any patent costs as long as we are in the startup stage. Accordingly, as the Company's products are not currently approved for market, all patent costs incurred from 2013 through December 31, 2021 were expensed immediately. This practice of expensing patent costs immediately ends when a product receives market authorization from a government regulatory agency.

Impairment of Long-Lived Assets

In accordance with ASC 360-10, “*Long-lived assets*,” which include property and equipment and intangible assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the assets. Fair value is generally determined using the asset’s expected future discounted cash flows or market value, if readily determinable.

Employee Benefit Liability

Liabilities arising in respect of wages and salaries, accumulated annual leave, accumulated long service leave and any other employee benefits expected to be settled within twelve months of the reporting date are measured based on the employee’s remuneration rates applicable at the reporting date. All other employee benefit liabilities are measured at the present value of the estimated future cash outflow to be made in respect of services provided by employees up to the reporting date. All employee benefit liabilities are owed within the next twelve months.

Australian Goods and Services Tax (“GST”)

Revenues, expenses and balance sheet items are recognized net of the amount of GST, except payable and receivable balances which are shown inclusive of GST. The GST incurred is payable on revenues to, and recoverable on purchases from, the Australian Taxation Office.

Cash flows are presented in the statements of cash flow on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

As of December 31, 2021, and June 30, 2021, the Company was owed \$5,625 and \$4,341, respectively, from the Australian Taxation Office. These amounts were fully collected subsequent to the balance sheet reporting dates.

Derivative Instruments

ASC Topic 815, *Derivatives and Hedging* (“ASC Topic 815”), establishes accounting and reporting standards for derivative instruments and for hedging activities by requiring that all derivatives be recognized in the balance sheet and measured at fair value. Gains or losses resulting from changes in the fair value of derivatives are recognized in earnings. On the date of conversion or payoff of debt, the Company records the fair value of the conversion shares, removes the fair value of the related derivative liability, removes any discounts and records a net gain or loss on debt extinguishment. On July 1, 2019 the Company adopted ASU 2017-11 under which down-round Features in Financial Instruments will no longer cause derivative treatment. The Company applies the modified prospective method of adoption. There were no cumulative effects on adoption.

Convertible Notes With Variable Conversion Options

The Company has entered into convertible notes, some of which contain variable conversion options, whereby the outstanding principal and accrued interest may be converted, by the holder, into common shares at a fixed discount to the price of the common stock at or around the time of conversion. The Company treats these convertible notes as stock settled debt under ASC 480, “*Distinguishing Liabilities from Equity*” and measures the fair value of the notes at the time of issuance, which is the result of the share price discount at the time of conversion and records the put premium as interest expense.

Income Taxes

The Company is governed by Australia and United States income tax laws, which are administered by the Australian Taxation Office and the United States Internal Revenue Service, respectively. The Company follows ASC 740 “*Accounting for Income Taxes*,” when accounting for income taxes, which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for temporary differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The Company follows ASC 740, Sections 25 through 60, “*Accounting for Uncertainty in Income Taxes*.” These sections provide detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a “more-likely-than-not” recognition threshold at the effective date to be recognized upon the adoption of ASC 740 and in subsequent periods.

Research and Development Costs and Tax Credits

In accordance with ASC 730-10, “*Research and Development-Overall*,” research and development costs are expensed when incurred. Total research and development costs for the three months ended December 31, 2021 and 2020 were \$50,753 and \$50,165, respectively. Total research and development costs for the six months ended December 31, 2021 and 2020 were \$97,307 and \$101,011, respectively.

The Company may apply for research and development tax concessions with the Australian Taxation Office on an annual basis. Although the amount is possible to estimate at year end, the Australian Taxation Office may reject or materially alter the claim amount. Accordingly, the Company does not recognize the benefit of the claim amount until cash receipt since collectability is not certain until such time. The tax concession is a refundable credit. If the Company has net income, then the Company can receive the credit which reduces its income tax liability. If the Company has net losses, then the Company may still receive a cash payment for the credit, however, the Company’s net operating loss carryforwards are reduced by the gross equivalent loss that would produce the credit amount when the income tax rate is applied to that gross amount. The concession is recognized as tax benefit, in operations, upon receipt.

During each of the six months ended December 31, 2021 and 2020, the Company applied for, and received from the Australian Taxation Office, a research and development tax credit in the amount of \$55,463 and \$0, respectively, which is reflected as a tax benefit in the accompanying unaudited condensed consolidated statements of operations and comprehensive income (loss).

Stock Based Compensation

The Company records stock-based compensation in accordance with ASC 718, “*Stock Compensation*”. ASC 718 requires the fair value of all stock-based employee compensation awarded to employees to be recorded as an expense over the shorter of the service period or the vesting period. The Company values employee and non-employee stock-based compensation at fair value using the Black-Scholes Option Pricing Model.

The Company adopted ASU 2018-07 and accounts for non-employee share-based awards in accordance with the measurement and recognition criteria of ASC 718 and recognizes the fair value of such awards over the service period. The Company used the modified prospective method of adoption.

Revenue Recognition

The Company applies ASC Topic 606, Revenue from Contracts with Customers (“ASC 606”). ASC 606 establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most of the existing revenue recognition guidance. This standard requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services and also requires certain additional disclosures.

Subject to these criteria, the Company intends to recognize revenue relating to royalties on product sales in the period in which the sale occurs and the royalty term has begun.

Legal Expenses

All legal costs for litigation are charged to expense as incurred.

Leases

The Company follows ASC Topic 842, Leases (Topic 842) and applying the package of practical expedients, which permit it not to reassess under the new standard its prior conclusions about lease identification, lease classification and initial direct costs. In addition, the Company elected not to apply ASC Topic 842 to arrangements with lease terms of 12 month or less. Operating lease right of use assets ("ROU") represents the right to use the leased asset for the lease term and operating lease liabilities are recognized based on the present value of future minimum lease payments over the lease term at commencement date. As most leases do not provide an implicit rate, the Company use an incremental borrowing rate based on the information available at the adoption date in determining the present value of future payments. Lease expense for minimum lease payments is amortized on a straight-line basis over the lease term and will be included in general and administrative expenses.

Basic and Diluted Net Loss Per Common Share

Basic net loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share is computed by dividing the net loss by the weighted average number of common shares outstanding for the period and, if dilutive, potential common shares outstanding during the period. Potentially dilutive securities consist of the incremental common shares issuable upon exercise of common stock equivalents such as stock options, warrants and convertible debt instruments. Potentially dilutive securities are excluded from the computation if their effect is anti-dilutive. As a result, the basic and diluted per share amounts for all periods presented are identical. Each holder of the notes has agreed to a 4.99% beneficial ownership conversion limitation (subject to certain noteholders' ability to increase such limitation to 9.99% upon 60 days' notice to the Company), and each note may not be converted during the first six-month period from the date of issuance. The securities for the period ended December 31, 2021 and 2020 were considered dilutive securities which were excluded from the computation since the effect is anti-dilutive.

Recent Accounting Pronouncements

We have reviewed the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") accounting pronouncements and interpretations thereof that have effectiveness dates during the periods reported and in future periods. We have carefully considered the new pronouncements that alter previous generally accepted accounting principles and do not believe that any new or modified principles will have a material impact on the Company's reported financial position or operations in the near term. The applicability of any standard is subject to the formal review of the Company's financial management.

In August 2020, the FASB issued ASU 2020-06, "Debt – Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging – Contracts in Entity's Own Equity (Subtopic 815-40)". This ASU reduces the number of accounting models for convertible debt instruments and convertible preferred stock. As well as amend the guidance for the derivatives scope exception for contracts in an entity's own equity to reduce form-over-substance-based accounting conclusions. In addition, this ASU improves and amends the related EPS guidance. This standard is effective for us on July 1, 2022, including interim periods within those fiscal years. Adoption is either a modified retrospective method or a fully retrospective method of transition. The Company is currently assessing the impact the new guidance will have on our consolidated financial statements.

NOTE 2 – GOING CONCERN

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with US GAAP, which contemplate continuation of the Company as a going concern. For the six months ended December 31, 2021, the Company had no revenues, had a net loss of \$1,290,635, and had net cash used in operations of \$711,093. Additionally, as of December 31, 2021, the Company had a working capital deficit, stockholders' deficit and accumulated deficit of \$2,955,492, \$2,930,193, and \$59,698,343, respectively. It is management's opinion that these conditions raise substantial doubt about the Company's ability to continue as a going concern for a period of at least twelve months from the issue date of this Quarterly Report.

The unaudited condensed consolidated financial statements do not include any adjustments to reflect the possible future effect on the recoverability and classification of assets or the amounts and classifications of liabilities that may result from the outcome of this uncertainty.

Successful completion of the Company's development program and, ultimately, the attainment of profitable operations are dependent upon future events, including obtaining adequate financing to fulfill its development activities, acceptance of the Company's patent applications, obtaining additional sources of suitable and adequate financing and ultimately achieving a level of sales adequate to support the Company's cost structure and business plan. The Company's ability to continue as a going concern is also dependent on its ability to further develop and execute on its business plan. However, there can be no assurances that any or all of these endeavors will be successful.

In March 2020, the outbreak of COVID-19 (coronavirus) caused by a novel strain of the coronavirus was recognized as a pandemic by the World Health Organization, and the outbreak has become increasingly widespread in the United States, Europe and Australia, including in each of the areas in which the Company operates. The COVID-19 (coronavirus) outbreak has had a notable impact on general economic conditions, including but not limited to the temporary closures of many businesses, "shelter in place" and other governmental regulations, reduced business and consumer spending due to both job losses, reduced investing activity and M&A transactions, among many other effects attributable to the COVID-19 (coronavirus), and there continue to be many unknowns. While to date the Company has not been required to stop operating, management is evaluating its use of its office space, virtual meetings and the like. The Company continues to monitor the impact of the COVID-19 (coronavirus) outbreak closely. The extent to which the COVID-19 (coronavirus) outbreak will impact our operations, ability to obtain financing or future financial results is uncertain.

NOTE 3 – PROPERTY AND EQUIPMENT

Property and equipment consist of the following as of December 31, 2021 and June 30, 2021.

	<u>December 31, 2021</u>	<u>June 30, 2021</u>

Depreciation expense for the three months ended December 31, 2021 and 2020 were \$504 and \$506, respectively. Depreciation expense for the six months ended December 31, 2021 and 2020 were \$1,013, and \$944, respectively.

NOTE 4 – DUE TO FORMER DIRECTOR - RELATED PARTY

Due to former director - related party represents unsecured advances made primarily by a former director for operating expenses on behalf of the Company such as intellectual property and formation expenses. The expenses were paid for on behalf of the Company and are due upon demand. The Company is currently not being charged interest under these advances. The total amount owed the former director at December 31, 2021 and June 30, 2021 were \$32,329 and \$33,347, respectively. The Company plans to repay the advances as its cash resources allow (see Note 9).

NOTE 5 – LOANS AND NOTES PAYABLE

Loan from Former Director - Related Party

Loan from the Company's former director at December 31, 2021 and June 30, 2021 were \$53,805 and \$55,500, respectively. The loan bears no interest and is payable on demand. The Company did not repay any amount on this loan during the six months ended December 31, 2021 and 2020, respectively (see Note 9).

Convertible Note Issued with Consulting Agreement

August 10, 2017 Consulting Agreement

On August 10, 2017, the Company entered into a consulting agreement, retroactive to May 16, 2017, with a certain consultant, pursuant to which the consultant agreed to provide certain consulting and business advisory services in exchange for a \$310,000 junior subordinated convertible note. The maturity date of the August 10, 2017 Convertible Note was August 2019 and is currently past due (see Note 8). The note accrues interest at a rate of 10% per annum and is convertible into common stock at the lesser of \$750 or 65% of the three lowest trades in the ten trading days prior to the conversion. The note was fully earned upon signing the agreement and matures on August 10, 2019. The Company accrued \$155,000 related to this expense at June 30, 2017 and recorded the remaining \$155,000 related to this expense in fiscal year 2018. Upon an event of default, principal and accrued interest will become immediately due and payable under the note. Additionally, upon an event of default, at the election of the holder, the note would accrue interest at a default interest rate of 18% per annum or the highest rate of interest permitted by law. The consulting agreement had a three-month term and expired on August 16, 2017. An aggregate total of \$578,212 of this note was bifurcated with the embedded conversion option recorded as a derivative liability at fair value. During the year ended June 30, 2018, the consultant converted \$140,000 of principal and \$10,764 of interest. During the year ended June 30, 2019, the consultant converted an additional \$161,000 of principal and \$19,418 of interest leaving a principal balance owed of \$9,000 at June 30, 2019. During the year ended June 30, 2020, the consultant converted an additional \$500 of principal and \$5,248 of interest such that the remaining principal outstanding and accrued interest under this note as of June 30, 2020 was \$8,500 and \$22,168, respectively.

On March 15, 2021, the Company entered into a Settlement and Mutual Release Agreement (the “Settlement Agreement”) with the consultant whereby both parties agreed to settle all claims and liabilities under the August 10, 2017 Convertible note for a total of \$100,000 in the form of a convertible note. All other terms of the August 10, 2017 Convertible Note shall remain in full force and effect. Both parties agree that all future penalties under this note are waived unless the Company fails to authorize to distribute the requested shares upon conversion. The Company has the right to pay off the balance of any remaining amounts due under this note in cash at any time more than 60 days after March 15, 2021. Prior to the Settlement Agreement, the Company recorded total liabilities \$56,762 consisting of remaining principal amount of \$8,500, accrued interest of \$23,262 and accrued expenses of \$25,000. Accordingly, the Company recognized loss from settlement of debt of \$43,238 during the year ended June 30, 2021.

The total principal outstanding after adjustment due to the above-mentioned March 15, 2021 settlement agreement and accrued interest under the August 10, 2017 Convertible Note was \$80,000 and \$3,738, respectively, as of June 30, 2021 following conversion of \$20,000 of principal during the year ended June 30, 2021. The total principal amount outstanding under the August 10, 2017 Convertible Note was \$80,000 and accrued interest of \$11,022 as of December 31, 2021.

Auctus Fund Financing Agreements

August 30, 2019 Securities Purchase Agreement

Effective August 30, 2019, the Company entered into a securities purchase agreement with Auctus Fund, LLC (“Auctus”), pursuant to which Auctus purchased a convertible promissory note (the “August 30, 2019 Auctus Note”) from the Company in the aggregate principal amount of \$550,000, such principal and the interest thereon convertible into shares of the Company’s common stock at the option of Auctus. The transaction closed on August 30, 2019 and the Company received payment on September 4, 2019 in the amount of \$550,000, of which \$5,000 was paid directly toward legal fees and \$40,000 to Auctus for due diligence fees resulting in net cash proceeds of \$505,000. The maturity date of the August 30, 2019 Auctus Note was August 30, 2020 and was currently past due. The August 30, 2019 Auctus Note bore interest at a rate of 10% per annum, but not payable until the August 30, 2019 Auctus Note became payable, whether at the maturity date or upon acceleration or by prepayment. The note was treated as stock settled debt under ASC 480 and accordingly the Company recorded a \$366,667 put premium. The August 30, 2019 Auctus Note may not be prepaid without the written consent of Auctus. Any amount of principal or interest which was not paid when due shall bear interest at the rate of 24% per annum.

Additionally, Auctus had the option to convert all or any amount of the principal face amount and accrued interest of the August 30, 2019 Auctus Note, at any time following the issue date and ending on the later of the maturity date or the date of payment of the Default Amount if an event of default occurs, which was an amount equal to 125% of an amount equal to the then outstanding principal amount of the August 30, 2019 Auctus Note (but not less than \$15,000) plus any interest accrued from August 30, 2019 at the default interest rate of 24% per annum, for shares of the Company's common stock at the then-applicable conversion price. Upon the holder's election to convert accrued interest, default interest or any penalty amounts as stipulated, the Company may elect to pay those amounts in cash. The note may also be prepaid by the Company at any time between the date of issuance and August 13, 2020 at 135% multiplied by the sum of (a) the then outstanding principal amount plus (b) accrued and unpaid interest plus (c) default interests, if any.

The conversion price for the August 30, 2019 Auctus Note was equal to the Variable Conversion Price of 60% of the Market Price on the date of conversion. Notwithstanding the foregoing, Auctus shall be restricted from effecting a conversion if such conversion, along with other shares of the Company's common stock beneficially owned by Auctus and its affiliates, exceeds 4.99% of the outstanding shares of the Company's common stock.

In connection with the issuance of the August 2019 Auctus Note, the Company issued common stock purchase warrants to Auctus to purchase 450 shares of the Company's common stock (the "First Warrant") as a commitment fee upon the terms and subject to the limitations and conditions set forth in such First Warrant at an "Exercise Price" of \$2,250. In connection with the issuance of the Note, the Company issued a common stock purchase warrant to Buyer to purchase 300 shares of the Company's common stock (the "Second Warrant") as a commitment fee upon the terms and subject to the limitations and conditions set forth in such Second Warrant at an "Exercise Price" of \$3,330. In connection with the issuance of the Note, the Company shall issue a common stock purchase warrant to Buyer to purchase 225 shares of the Company's common stock (the "Third Warrant") as a commitment fee upon the terms and subject to the limitations and conditions set forth in such Third Warrant at an "Exercise Price" of \$4,500. The First Warrant, Second Warrant, and Third Warrant were collectively be referred as the "Warrants". The Warrants have an "Exercise Period" of five years from the date of issuance being August 30, 2019. Under the terms of the Purchase Agreement and the Warrants, the Selling Security Holder may not either convert the Notes nor exercise the Warrants to the extent (but only to the extent) that the Selling Security Holder or any of its affiliates would beneficially own a number of shares of our Common Stock which would exceed 4.99% of our outstanding shares. The Company accounted for the warrants by using the relative fair value method and recorded debt discount from the relative fair value of the warrants of \$375,905 using a simple binomial lattice model.

In connection with the Purchase Agreement, the Company and the Purchaser entered into a Registration Rights Agreement (the "Registration Rights Agreement"). Pursuant to the Registration Rights Agreement, the Company agreed to register the shares of Common Stock underlying the Securities in a Registration Statement with the SEC as well as the Commitment Shares (as defined herein). The Registration Rights Agreement contains customary representations, warranties, agreements and indemnification rights and obligations of the parties.

The Note was subject to customary default provisions and also includes a cross-default provision which provides that a breach or default by the Borrower of any covenant or other term or condition contained in any of the Other Agreements (as defined therein), after the passage of all applicable notice and cure or grace periods, shall, at the option of the Holder, be considered a default under this Note and the Other Agreements. Upon occurrence of any such event, the Holder was entitled (but in no event required) to apply all rights and remedies of the Holder under the terms of this Note and the Other Agreements by reason of a default under said Other Agreements or the Note.

The August 30, 2019 Auctus Note contained certain events of default, upon which principal and accrued interest will become immediately due and payable. In addition, upon an event of default, interest on the outstanding principal accrued at a default interest rate of 24% per annum.

The total principal amount outstanding under the above Auctus financing agreement, specifically the August 30, 2019 Auctus Note, was \$358,965 and accrued interest of \$486 as of June 30, 2020 following conversion of \$191,035 of the principal balance and \$43,176 of accrued interest during the year ended June 30, 2020. Accordingly, \$127,356 of the put premium was released in respect of the August 30, 2019 Auctus Note during the year ended June 30, 2020 following conversion of the principal balance.

Amortization of all debt discounts for the three months ended December 31, 2021 and 2020 was \$5,221 and \$5,018, respectively. Amortization of all debt discounts for the six months ended December 31, 2021 and 2020 was \$11,295 and \$126,299, respectively.

The Company reclassified \$126,310 and \$261,224 in put premiums to additional paid in capital following conversions during the six months ended December 31, 2021 and 2020, respectively.

NOTE 7 – STOCKHOLDERS’ DEFICIT

Increase in Authorized Shares of Common Stock and Reverse Stock Split

On February 4, 2020 the Directors resolved to increase the Common Stock of the Company from 100,000,000 authorized shares to 1,000,000,000 authorized shares and believes that such number of authorized shares of Common Stock will be in the best interests of the Corporation and its stockholders because the Board believes that the availability of more shares of Common Stock for issuance will allow the Corporation greater flexibility in pursuing financing from investors, meeting business needs as they arise, taking advantage of favorable opportunities and responding to a changing corporate environment. The Company filed the necessary documents with the U.S. Securities and Exchange Commission on February 6, 2020 and with the amendment to the authorized shares being approved by the State of Delaware on March 13, 2020.

On November 17, 2020, the Company effected a one-for-one thousand (1:1,000) reverse stock split of the Company’s issued and outstanding shares of common stock (the “Reverse Stock Split”). Proportional adjustments for the Reverse Stock Split were made to the Company’s outstanding stock options, warrants and equity incentive plans. All share and per-share data and amounts have been retroactively adjusted as of the earliest period presented in the unaudited condensed consolidated financial statements to reflect the Reverse Stock Split.

Preferred Stock

The total number of shares of preferred stock that the Company is authorized to issue is 1,500,005, \$0.01 par value per share. These preferred shares have no rights to dividends, profit sharing or liquidation preferences.

Of the total preferred shares authorized, 500,000 have been designated as Series A Preferred Stock (“Series A Preferred Stock”), pursuant to the Certificate of Designation filed with the Secretary of State of the State of Delaware on December 9, 2014. James Nathanielsz, the Company’s Chief Executive Officer and Chief Financial Officer, beneficially owns all of the outstanding shares of Series A Preferred Stock via North Horizon Pty Ltd., which entitles him, as a holder of Series A Preferred Stock, to vote on all matters submitted or required to be submitted to a vote of the Company’s stockholders, except election and removal of directors, and each share of Series A Preferred Stock entitles him to two votes per share of Series A Preferred Stock. North Horizon Pty Ltd. is a Nathanielsz Family Trust. Mr. James Nathanielsz, the Chief Executive Officer, Chief Financial Officer and a director of our Company, has voting and investment power over these shares. 500,000 shares of Series A Preferred Stock are issued and outstanding as of December 31, 2021 and June 30, 2021.

Of the total preferred shares authorized, pursuant to the Certificate of Designation filed with the Secretary of State of the State of Delaware on June 16, 2015, up to five shares have been designated as Series B Preferred Stock (“Series B Preferred Stock”). Each holder of outstanding shares of Series B Preferred Stock is entitled to voting power equivalent to the number of votes equal to the total number of shares of common stock outstanding as of the record date for the determination of stockholders entitled to vote at each meeting of stockholders of the Company and entitled to vote on all matters submitted or required to be submitted to a vote of the stockholders of the Company. One share of Series B Preferred Stock is issued and outstanding as of December 31, 2021 and June 30, 2021. Mr. Nathanielsz directly beneficially owns such one share of Series B Preferred Stock.

No additional shares of Series A Preferred Stock or Series B Preferred Stock were issued during the six months ended December 31, 2021 and fiscal year 2021.

Common Stock:

Shares issued for Common Stock Purchase Agreement

On November 30, 2021, the Company entered into a Common Stock Purchase Agreement (the "Purchase Agreement") with Dutchess Capital Growth Fund LP, a Delaware limited partnership, ("Dutchess"), providing for an equity financing facility (the "Equity Line"). The Purchase Agreement provides that upon the terms and subject to the conditions in the Purchase Agreement, Dutchess is committed to purchase up to Five Million Dollars (\$5,000,000) of shares of the Company's common stock (the "Common Stock"), over the 36 month term of the Purchase Agreement (the "Total Commitment").

Under the terms of the Purchase Agreement, Dutchess will not be obligated to purchase shares of Common Stock unless and until certain conditions are met, including but not limited to a Registration Statement on Form S-1 (the "Registration Statement") becoming effective which registers Dutchess' resale of any Common Stock purchased by Dutchess under the Equity Line. From time to time over the 36-month term of the Purchase Agreement, commencing on the trading day immediately following the date on which the Registration Statement becomes effective, the Company, in our sole discretion, may provide Dutchess with a draw down notice (each, a "Draw Down Notice"), to purchase a specified number of shares of Common Stock (each, a "Draw Down Amount Requested"), subject to the limitations discussed below. The actual amount of proceeds the Company will receive pursuant to each Draw Down Notice (each, a "Draw Down Amount") is to be determined by multiplying the Draw Down Amount Requested by the applicable purchase price. The purchase price of each share of Common Stock equals 92% of the lowest trading price of the Common Stock during the five (5) business days prior to the Closing Date. Closing Date shall mean the five (5) business days after the Clearing Date. Clearing Date shall mean the first business day that the Selling Shareholder holds the Draw Down Amount in its brokerage account and is eligible to trade the shares.

The maximum number of shares of Common Stock requested to be purchased pursuant to any single Draw Down Notice cannot exceed the lesser of (i) 300% of the average daily share volume of the Common Stock in the five (5) trading days immediately preceding the Draw Down Notice or (ii) an aggregate value of \$250,000.

The Company agreed to pay to Dutchess a commitment fee for entering into the Purchase Agreement of 1,000,000 restricted shares of the Company's common stock. The 1,000,000 shares of common stock were valued at approximately \$0.02 per share or \$20,000, being the closing price of the stock on November 30, 2021, the date of grant. The shares were issued on December 10, 2021. The Company recorded deferred offering cost of \$20,000 as reflected in the accompanying condensed consolidated balance sheet as of December 31, 2021.

The Company defers these costs until such time that the associated financing is completed. Upon completion and recognition of the proceeds, any deferred financing costs will be reported as a direct deduction from the amount of the proceeds received. If it is determined that the contemplated financing will not be completed any amounts deferred will be expensed.

Shares issued for conversion of convertible debt

From July 1, 2021 through December 31, 2021, the Company issued an aggregate of 11,263,106 shares of its common stock at an average contractual conversion price of \$0.02, ranging from \$0.01 to \$0.04, as a result of the conversion of principal of \$214,848, interest of \$9,813 and conversion fees \$2,250 underlying certain outstanding convertible notes converted during such period. The total recorded to equity was \$226,912.

The Company reclassified \$126,310 from put premium liabilities to additional paid in capital following conversions during the six months ended December 31, 2021.

The Company recorded stock-based compensation of \$4,788 during the six months ended December 31, 2021 and reclassified accrued expenses of \$102,600 to additional paid in capital upon issuance.

Zelinger Amended and Restated Director Agreement

On August 12, 2021, the Company entered into an Amended and Restated Director Agreement (the "Director Agreement") with Josef Zelinger ("Zelinger"). Pursuant to the terms of the Director Agreement, the Company shall pay Zelinger a base salary of \$250.00 AUD (\$184 USD) per month, payable on the first day of each month. In addition, the Company may compensate Zelinger additional consideration for advisory services performed by the Director, either in the form of cash or common stock, at the discretion of the Board. The Company issued 2,800,000 shares of common stock of the Company for accrued director services of \$84,000 as of June 30, 2021. The 2,800,000 shares of common stock were valued at approximately \$0.03 per share \$87,920, being the closing price of the stock on the date of grant. The shares were issued on August 17, 2021. The shares were issued on August 17, 2021. Shares issued for exercise of warrants

From July 9, 2021 through September 27, 2021, the Company received aggregate gross proceeds of \$275,000 and subscription receivable of \$100,000 from the exercise of 9,375 Series B Warrants and issued 6,875 shares of common stock and 2,500 shares of common stock issuable as of December 31, 2021. In October 2021, the Company issued the 2,500 shares of common stock and collected the \$100,000 subscription receivable. There are no Series B Warrants exercised during the three months ended December 31, 2021.

During the six months ended December 31, 2021, the Company issued 8,799,956 shares of common stock from the alternate cashless exercise of 44 Series A warrants with an original exercise price of \$200 and alternate cashless exercise price of \$0.001. The "Alternate Cashless Exercise" provision, for a cashless conversion at the holder's option, is available should the trading price of the Company's common stock fall below \$200 per share calculated based on the difference between the exercise price of the Series A Warrant and 70% of the market price. The Company recognized the value of the effect of a down round feature in such warrants when triggered. Upon the occurrence of the triggering event that resulted in a reduction of the strike price, the Company measured the value of the effect of the feature as the difference between the fair value of the warrants without the down round feature or before the strike price reduction and the fair value of the warrants with a strike price corresponding to the reduced strike price upon the down round feature being triggered. Accordingly, the Company recognized deemed dividend of \$208,242 and a corresponding reduction of income available to common stockholders upon the alternate cashless exercise of these warrants.

NOTE 8 – COMMITMENTS AND CONTINGENCIES

Legal Matters

From time to time, the Company may be subject to litigation and claims arising in the ordinary course of business. The Company is not currently a party to any material legal proceedings and the Company is not aware of any pending or threatened legal proceeding against the Company that we believe could have a material adverse effect on our business, operating results, cash flows or financial condition.

IRS Liability

As part of its requirement for having a foreign operating subsidiary, the Company's parent U.S. entity is required to file an informational Form 5471 to the Internal Revenue Service (the "IRS"), which is a form that explains the nature of the relationship between the foreign subsidiary and the parent company. From 2012 through the 2014, the Company did not file this form in a timely manner. As a result of the non-timely filings, the Company incurred a penalty from the IRS in the amount of \$10,000 per year, or \$30,000 in total, plus accrued interest, such penalty and interest having been accrued and is included in the accrued expenses and other payable figure in the December 31, 2021 and June 30, 2021 consolidated balance sheet. The Company recorded the penalties for all three years during the year ended June 30, 2018. The Company is current on all subsequent filings. The Company's tax advisor is awaiting a response from the IRS on this matter.

Operating Agreements

In November 2009, the Company entered into a commercialization agreement with the University of Bath (UK) (the "University") whereby the Company and the University co-owned the intellectual property relating to the Company's pro-enzyme formulations. In June 2012, the Company and the University entered into an assignment and amendment whereby the Company assumed full ownership of the intellectual property while agreeing to pay royalties of 2% of net revenues to the University. Additionally, the Company agreed to pay 5% of each and every license agreement subscribed for. The contract is cancellable at any time by either party. To date, no amounts are owed under the agreement.

Consulting Agreement

On October 1, 2021, the Company entered into a consulting agreement (the "Consulting Agreement") with a consultant who will assist in the development of the Company's business and financing activities. The consultant will serve initially as an independent contractor, and upon certain mutually agreed upon conditions being met, will be appointed Vice Chairman, President and Interim CFO. The term of the Consulting Agreement shall be for three years commencing on October 1, 2021 and can be terminated by either party upon 30 day written notice. The monthly payment per the Consulting Agreement is \$7,000. The Company will also issue shares of common stock equal to 1% of the total issued and outstanding shares at the end of each year of service which shall be expensed upon date of grant.

Collaboration Agreement

On September 13, 2018, the Company entered into a two-year collaboration agreement with the University of Jaén (the "University") to provide certain research services to the Company. In consideration of such services, the Company agreed to pay the University approximately 52,000 Euros (\$59,508 USD) in year one and a maximum of 40,000 Euros (\$45,775 USD) in year two. The Company paid 31,754 Euros (\$36,117 USD) in 2019 and has accrued 28,493 Euros (\$24,043 USD) as of June 30, 2021. Additionally, in exchange for full ownership of the intellectual property the Company agreed to pay royalties of 2% of net revenues to the University. On October 1, 2020, the Company entered into another two-year collaboration agreement with the University of Jaén to provide certain research services to the Company. In consideration of such services, the Company agreed to pay the University approximately 30,000 Euros (\$35,145 USD) which shall be paid in four installment payment of 5,000 Euros in November 2020, 5,000 Euros (\$5,858) in March 2021, 10,000 Euros (\$11,715) in December 2021 and 10,000 Euros (\$11,715) in September 2022. Additionally, the University shall hire and train a doctoral student for this project and as such the Company shall pay the University 25,837 Euros (\$30,268 USD). In exchange for full ownership of the intellectual property the Company agreed to pay royalties of 2% of net revenues to the University.

NOTE 9 – RELATED PARTY TRANSACTIONS

Since its inception, the Company has conducted transactions with its directors and entities related to such directors. These transactions have included the following:

As of December 31, 2021 and June 30, 2021, the Company owed its former director a total of \$53,805 and \$55,500, respectively, for money loaned to the Company throughout the years. The total loans balance owed at December 31, 2021 and June 30, 2021 is not interest bearing (See Note 5 – Loans and Notes Payable).

As of December 31, 2021 and June 30, 2021, the Company owed its former director a total of \$32,329 and \$33,347, respectively, related to expenses paid on behalf of the Company related to corporate startup costs and intellectual property (See Note 4 – Due to Former Director – Related Party).

On May 6, 2021, the Company entered into an agreement for the lease of its principal executive offices with North Horizon Pty Ltd., a related party, of which Mr. Nathanielsz, our CEO, CFO and a director, and his wife are owners and directors. The lease has a one-year term commencing May 6, 2021, and the Company is currently obligated to pay \$3,606 AUD or \$2,431 USD (depending on exchange rate), inclusive of tax, in rent per month. During the three months ended December 31, 2021 and 2020, rent expense amounted \$6,550 USD and \$7,750 USD. During the six months ended December 31, 2021 and 2020, rent expense amounted \$14,286 USD and \$16,954 USD. As of December 31, 2021, total rent payable of \$93,000AUD (\$67,620 USD) is included in accrued expenses in the accompanying condensed consolidated balance sheet.

Employment and Services Agreements with Management

The Company and Mr. Nathanielsz entered into an employment agreement as of February 25, 2015 (the “Nathanielsz Employment Agreement”) setting forth the terms and conditions of Mr. Nathanielsz employment as the Company’s President and Chief Executive Officer. The Nathanielsz Employment Agreement was scheduled to expire on February 25, 2019; however, the term of the Nathanielsz Employment Agreement automatically renews for successive one-year periods unless either party provides 30 days’ prior written notice of its intent not to renew. The Nathanielsz Employment Agreement continues in effect as of December 31, 2021 as amended May 14, 2019 (see below). The Nathanielsz Employment Agreement provides Mr. Nathanielsz with a base salary of \$25,000 AUD per month (\$300,000 AUD annually or \$205,680 USD) and a monthly contribution to Mr. Nathanielsz’s pension equal to 9.5% of his monthly salary. Mr. Nathanielsz has the ability to convert any accrued but unpaid salary into common stock at the end of each fiscal year at a conversion price to be determined by Mr. Nathanielsz and the Company, which will in no event be lower than par value or higher than the closing bid price on the date of conversion. Pursuant to the Nathanielsz Employment Agreement, Mr. Nathanielsz is entitled to an annual discretionary bonus in an amount up to 200% of his annual base salary, which bonus shall be determined by the Company’s board of directors based upon the performance of the Company. On March 16, 2018, the Company’s board of directors approved an increase of Mr. Nathanielsz’s annual base salary from \$300,000 AUD (\$205,680 USD) to \$400,000 AUD (\$274,240 USD), effective February 2018.

Mr. Nathanielsz’s wife, Sylvia Nathanielsz, is and has been a non-executive part-time employee of the Company since October 2015. Effective February 1, 2018, Mrs. Nathanielsz receives an annual salary of \$120,000 AUD (\$80,904 USD) and is entitled to customary benefits.

Pursuant to a February 25, 2016 board resolution, James Nathanielsz shall be paid \$4,481 AUD (\$3,205 USD), on a monthly basis for the purpose of acquiring and maintaining an automobile. For the six months ended December 31, 2021, a total of \$7,689 AUD (\$5,651 USD) in payments have been made with respect to Mr. Nathanielsz’s car allowance.

Pursuant to the approval of the Company’s board of directors, on May 14, 2019, Mr. Nathanielsz was granted a \$460,000 AUD (\$315,376 USD) bonus for accomplishments achieved while serving as the Company’s Chief Executive Officer during the fiscal year ended June 30, 2019 with \$200,000 AUD (\$137,120 USD) of such bonus payable by the Corporation to the CEO throughout the Corporation’s 2019 fiscal year as the Corporation’s cash resources allow, with the remaining \$260,000 AUD (\$178,256 USD) of such bonus to be deferred by the CEO until a future date when the Corporation’s cash resources allow for such payment, as agreed to by the CEO. A total of \$221,890 AUD (\$166,418 USD) in payments were made against the bonuses during the year ended June 30, 2021 resulting in a remaining balance of \$422,610 AUD (\$316,957 USD) bonus payable as of June 30, 2021. On August 12, 2021, the Board approved a bonus of \$177,840 USD. On August 12, 2021, pursuant to the Cancellation Agreement, Mr. Nathanielsz agreed to cancel \$177,840 of the bonus payable in exchange for 5,928,000 shares of the common stock of the Company (see Note 7). A total of \$99,103 AUD (\$72,058 USD) in payments were made against the bonuses during the six months ended December 31, 2021 which resulted to a remaining balance of \$86,387 AUD (\$62,812 USD) bonus payable as of December 31, 2021 which is included in accrued expenses in the accompanying condensed consolidated balance sheet.

Amended and Restated Employment Agreement - On May 14, 2019 (the “Effective Date”), the Company entered into an Amended and Restated Employment Agreement (the “Employment Agreement”) with James Nathanielsz, the Company’s Chief Executive Officer, Chairman, acting Chief Financial Officer and a director, for a term of three years, subject to automatic one-year renewals, at an annual salary of \$400,000 AUD. Pursuant to the Employment Agreement, Mr. Nathanielsz was granted options to purchase 39 shares of the Company’s common stock (the “Nathanielsz Options”), with an exercise price per share of \$4,675 (110% of the closing market price of the Company’s common stock on May 14, 2019 (or \$4,250), the date of approval of such grant by the Company’s board of directors), (ii) 39 restricted stock units of the Company (the “Initial Nathanielsz RSUs”), and (iii) an additional 39 restricted stock units of the Company (the “Additional Nathanielsz RSUs”). Such options and restricted stock units were granted pursuant to the 2019 Plan approved by the Company’s board of directors on the Effective Date. The Nathanielsz Options have a term of 10 years from the date of grant. 1/3rd of the Nathanielsz Options shall vest every successive one-year anniversary following the Effective Date, provided, that on each such vesting date Mr. Nathanielsz is employed by the Company and subject to the other provisions of the Employment Agreement. The Initial Nathanielsz RSUs shall vest on the one-year anniversary of the Effective Date, subject to Mr. Nathanielsz’s continued employment with the Company through such vesting date. Amended and Restated Services Agreement - On May 14, 2019, the Company also entered into an Amended and Restated Services Agreement (the "Services Agreement") with Dr. Kenyon, the Company's Chief Scientific Officer and a director, for a term of three years, subject to automatic one-year renewals, at an annual salary of \$54,000 AUD. In connection with the execution of the Services Agreement, Dr. Kenyon was designated as an executive officer of the Company and assumed a more active executive role with the Company. Pursuant to the Services Agreement, Dr. Kenyon was granted options to purchase 20 shares of the Company's common stock (the "Kenyon Options"), with an exercise price per share of \$4,250 (100% of the closing market price of the Company's common stock on May 14, 2019, the date of approval of such grant by the Company's board of directors), (ii) 20 restricted stock units of the Company (the "Initial Kenyon RSUs"), and (iii) an additional 20 restricted stock units of the Company (the "Additional Kenyon RSUs"). Such options and restricted stock units were granted pursuant to the 2019 Plan approved by the Company's board of directors on the Effective Date. The Kenyon Options have a term of 10 years from the date of grant. 1/3rd of the Kenyon Options shall vest every successive one-year anniversary following the Effective Date, provided, that on each such vesting date Dr. Kenyon is employed by the Company and subject to the other provisions of the Services Agreement. The Initial Kenyon RSUs shall vest on the one-year anniversary of the Effective Date, subject to Dr. Kenyon's continued employment with the Company through such vesting date. The Additional Kenyon RSUs will vest as follows, subject to Dr. Kenyon's continued employment with the Company through the applicable vesting date: (i) 5 of the Additional Kenyon RSUs shall vest upon the Company submitting the CTA for PRP for the Study in an applicable jurisdiction to be selected by the Company, (ii) 5 of the Additional Kenyon RSUs shall vest upon the Company completing an equity financing in the amount of at least \$4,000,000 in gross proceeds, (iii) 5 of the Additional Kenyon RSUs shall vest upon the shares of the Company's Common Stock being listed on a senior stock exchange (NYSE, NYSEMKT or NASDAQ), and (iv) the remaining 5 of the Additional Kenyon RSUs shall vest upon the Company enrolling its first patient in the Study. Each vested Kenyon RSU shall be settled by delivery to Mr. Kenyon of one share of the Company's common stock and/or the fair market value of one share of common stock in cash, at the sole discretion of the Company's board of directors and subject to the Plan, on the first to occur of: (i) the date of a Change of Control (as defined in the Services Agreement), (ii) the date that is ten business days following the vesting of such Kenyon RSU, (iii) the date of Dr. Kenyon's death or Disability (as defined in the Services Agreement), and (iv) Dr. Kenyon's employment being terminated either by the Company without Cause or by Dr. Kenyon for Good Reason (as defined in the Services Agreement). In the event of a Change of Control (as defined in the Services Agreement), 50% of any unvested portion of the Kenyon Options and the Kenyon RSUs shall vest immediately prior to such event. The 20 vested restricted stock unit are considered issuable as of December 31, 2021. As of June 30, 2021, total accrued salaries of \$135,000 AUD (\$101,250 USD) was included in accrued expenses. On August 12, 2021, pursuant to the Cancellation Agreement, Mr. Kenyon agreed to cancel accrued salaries of \$102,600 in exchange for 3,420,000 shares of the common stock of the Company (see Note 7). As of December 31, 2021, total accrued salaries of \$27,000 AUD (\$19,632 USD) was included in accrued expenses in the accompanying condensed consolidated balance sheet.

Intercompany Loans

All Intercompany loans were made by the parent to the subsidiary, Propanc PTY LTD, which have not been repaid as of December 31, 2021. Effective fiscal year 2021, the parent company determined that intercompany loans will not be repaid in the foreseeable future and thus, per ASC 830-20-35-3, gains and losses from measuring the intercompany balances are recorded within cumulative translation adjustment, a component of other comprehensive income.

NOTE 10 – CONCENTRATIONS AND RISKS

Concentration of Credit Risk

The Company maintains its cash in banks and financial institutions in Australia. Bank deposits in Australian banks are uninsured. The Company has not experienced any losses in such accounts through December 31, 2021.

The Company primarily relied on funding from three convertible debt lenders and received proceeds after deductions of \$40,500 for original issue discounts and debt issue costs during the six months ended December 31, 2021 from the lenders of \$414,500 (from each of the three lenders of \$160,000, \$110,000 and \$144,500, respectively, which represents approximately 39%, 26% and 35%, respectively of total proceeds received by the Company during the six months ended December 31, 2021).

(Unaudited)

The Company primarily relied on funding from two convertible debt lenders and received proceeds during the six months ended December 31, 2020 from each of the two lenders of \$75,000, and \$125,000, respectively, which represents approximately 38% and 62%, respectively of total proceeds received by the Company during the six months ended December 31, 2020.

Receivable Concentration

As of December 31, 2021 and June 30, 2021, the Company's receivables were 100% related to reimbursements on GST taxes paid.

Patent and Patent Concentration

The Company has filed multiple patent applications relating to its lead product, PRP. The Company's lead patent application has been granted and remains in force in the United States, Belgium, Czech Republic, Denmark, France, Germany, Ireland, Italy, Netherlands, Portugal, Spain, Sweden, Switzerland, Liechtenstein, Turkey, United Kingdom, Australia, China, Japan, Indonesia, Israel, New Zealand, Singapore, Malaysia, South Africa, Mexico, Republic of Korea, India and Brazil. In Canada, the patent application remains under examination.

In 2016 and early 2017, we filed other patent applications. Three applications were filed under the Patent Cooperation Treaty (the "PCT"). The PCT assists applicants in seeking patent protection by filing one international patent application under the PCT, applicants can simultaneously seek protection for an invention in over 150 countries. Once filed, the application is placed under the control of the national or regional patent offices, as applicable, in what is called the national phase. One of the PCT applications filed in November 2016, entered national phase in July 2018 and another PCT application is currently entering national phase in August 2018. A third PCT application entered the national phase in October 2018.

In July 2020, a world first patent was granted in Australia for the cancer treatment method patent family. Presently, there are 35 granted patents and 30 patents under examination in key global jurisdictions relating to the use of proenzymes against solid tumors, covering the lead product candidate PRP.

Further patent applications are expected to be filed to capture and protect additional patentable subject matter based on the Company's field of technology relating to pharmaceutical compositions of proenzymes for treating cancer.

Foreign Operations

As of December 31, 2021 and June 30, 2021, the Company's operations are based in Camberwell, Australia, however the majority of research and development is being conducted in the European Union.

On July 22, 2016, the Company formed a wholly owned subsidiary, Propanc (UK) Limited under the laws of England and Wales for the purpose of submitting an orphan drug application with the European Medicines Agency as a small and medium-sized enterprise. As of December 31, 2021 and June 30, 2021, there has been no activity within this entity.

NOTE 11 - DERIVATIVE FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

Derivative Financial Instruments:

The Company applies the provisions of ASC 815-40, *Contracts in Entity's Own Equity*, under which convertible instruments and warrants, which contain terms that protect holders from declines in the stock price (reset provisions), may not be exempt from derivative accounting treatment. As a result, warrants and embedded conversion options in convertible debt are recorded as a liability and are revalued at fair value at each reporting date. If the fair value of the warrants exceeds the face value of the related debt, the excess is recorded as change in fair value in operations on the issuance date. The Company had \$80,000 (1 note) of convertible debt, which is treated as derivative instruments outstanding at December 31, 2021 and June 30, 2021.

The Company calculates the estimated fair values of the liabilities for derivative instruments using the Binomial Trees Method. The closing price of the Company's common stock at December 31, 2021, the last trading day of the period ended December 31, 2021, was \$0.044. The Volatility, expected remaining term and risk-free interest rates used to estimate the fair value of derivative liabilities at December 31, 2021 are indicated in the table that follows. The expected term is equal to the remaining term of the warrants or convertible instruments and the risk-free rate is based upon rates for treasury securities with the same term.

NOTE 12 – SUBSEQUENT EVENTS

Shares issued for conversion of convertible debt

In January 2022, the Company issued an aggregate of 2,613,191 shares of its common stock at a contractual conversion price of \$0.01, as a result of the conversion of principal of \$26,000 and interest of \$2,222 underlying certain outstanding convertible notes converted during such period. The Company reclassified \$17,333 from put premium liabilities to additional paid in capital following conversions.

Sixth Street Lending Securities Purchase Agreements

January 4, 2022 Securities Purchase Agreement

Effective January 4, 2022, the Company entered into a securities purchase agreement with Sixth Street Lending LLC, pursuant to which Sixth Street purchased a convertible promissory note (the “January 4, 2022 Sixth Street”) from the Company in the aggregate principal amount of \$63,750, such principal and the interest thereon convertible into shares of the Company’s common stock at the option of Sixth Street any time after the six-month anniversary of the January 4, 2022 Sixth Street. The January 4, 2022 Sixth Street contains an original discount of \$3,750. The Company intends to use the net proceeds from the January 4, 2022 Sixth Street for general working capital purposes. The maturity date of the January 4, 2022 Sixth Street Note is January 4, 2023. The January 4, 2022 Sixth Street Note bears interest at a rate of 8% per annum, which interest may be paid by the Company to Sixth Street in shares of the Company’s common stock; but shall not be payable until the January 4, 2022 Sixth Street Note becomes payable, whether at the maturity date or upon acceleration or by prepayment.

During the first 60 to 180 days following the date of these notes, the Company has the right to prepay the principal and accrued but unpaid interest due under the above notes issued to Sixth Street, together with any other amounts that the Company may owe the holder under the terms of the note, at a premium ranging from 110% to 129% as defined in the note agreement. After this initial 180-day period, the Company does not have a right to prepay such notes.

The conversion price for the above Sixth Street notes shall be equal to a 35% discount of the market price which means the average of the lowest three trading prices of the Common Stock for the ten trading days immediately prior to the delivery of a Notice of Conversion. Notwithstanding the foregoing, Sixth Street shall be restricted from effecting a conversion if such conversion, along with other shares of the Company’s common stock beneficially owned by Sixth Street and its affiliates, exceeds 9.99% of the outstanding shares of the Company’s common stock. These notes are treated as stock settled debt under ASC 480 and accordingly the Company recorded a total of \$34,327 put premium.

Shares issued for exercise of warrants

In January 2022, the Company issued 2,799,986 shares of common stock from the alternate cashless exercise of 14 Series A warrants. The Company recognized the value of the effect of a down round feature in such warrants when triggered. Upon the occurrence of the triggering event that resulted in a reduction of the strike price, the Company measured the value of the effect of the feature as the difference between the fair value of the warrants without the down round feature or before the strike price reduction and the fair value of the warrants with a strike price corresponding to the reduced strike price upon the down round feature being triggered. Accordingly, the Company recognized deemed dividend of \$208,242 and a corresponding reduction of income available to common stockholders upon the alternate cashless exercise of these warrants.

In January 2022, the Company received aggregate gross proceeds of \$50,000 from the exercise of 1,250 Series B Warrants and issued 1,250 shares of common stock.

Shares issued for services

On January 20, 2022, the Board approved the issuance of 666,667 shares of the Company’s common stock for legal services rendered in January 2022. The 666,667 shares of common stock were valued at approximately \$0.03 per share or \$20,000, being the average closing prices of the stock for the month of January 2022, the date of grant. The shares were issued on January 21, 2022.

On January 24, 2022, the Company issued 2,274,224 shares of the Company’s common stock to a consultant for services rendered from October 2021 to December 2021. The Company issued 2,274,224 shares of the Company’s common stock valued at approximately \$0.02 per share or \$45,030, being the closing price of the stock on the date of grant to such consultant. The Company recorded accrued expenses of \$45,030 for the services rendered as of December 31, 2021.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Special Note Regarding Forward-Looking Information

The following discussion and analysis of the results of operations and financial condition of Propanc Biopharma, Inc., and its wholly-owned Australian subsidiary, Propanc PTY LTD ("Propanc" or the "Company") as of December 31, 2021 for the six months ended December 31, 2021 and 2020 should be read in conjunction with our unaudited financial statements and the notes to those unaudited financial statements that are included elsewhere in this Quarterly Report on Form 10-Q. References in this Management's Discussion and Analysis of Financial Condition and Results of Operations to "us", "we", "our" and similar terms refer to Propanc. This Quarterly Report contains forward-looking statements as that term is defined in the federal securities laws. The events described in forward-looking statements contained in this Quarterly Report may not occur. COVID-19

At Propanc, our highest priority remains the safety, health and well-being of our employees, their families and our communities. The COVID-19 pandemic is a highly fluid situation and it is not currently possible for us to reasonably estimate the impact it may have on our financial and operating results. We will continue to evaluate the impact of the COVID-19 pandemic on our business as we learn more and the impact of COVID-19 on our industry becomes clearer. We are complying health guidelines regarding safety procedures, including, but are not limited to, social distancing, remote working, and teleconferencing. The extent of the future impact of the COVID-19 pandemic on our business is uncertain and difficult to predict. Adverse global economic and market conditions as a result of COVID-19 could also adversely affect our business. If the pandemic continues to cause significant negative impacts to economic conditions, our results of operations, financial condition and liquidity could be adversely impacted.

Overview

We were incorporated in the state of Delaware as Propanc Health Group Corporation on November 23, 2010. In January 2011, to reorganize our Company, we acquired all of the outstanding shares of Propanc PTY LTD, an Australian corporation, on a one-for-one basis and Propanc PTY LTD became our wholly-owned subsidiary. Effective April 20, 2017, we changed our name to "Propanc Biopharma, Inc." to better reflect our current stage of operations and development.

We are a development-stage healthcare company that is currently focused on developing new cancer treatments for patients suffering from pancreatic, ovarian and colorectal cancer. Utilizing our scientific and oncology consultants, we have developed a rational, composite formulation of anti-cancer compounds, which together exert a number of effects designed to control or prevent tumors from recurring and spreading through the body. Our lead product candidate, PRP, is a variation upon our novel formulation and involves pro-enzymes, the inactive precursors of enzymes.

Recent Developments

On October 1, 2020, the Company entered into a two-year collaboration agreement with the University of Jaén (the "University") to provide certain research services to the Company. In consideration of such services, the Company agreed to pay the University approximately 30,000 Euros (\$35,145 USD) which shall be paid in four installment payments of 5,000 Euros in November 2020, 5,000 Euros (\$5,858) in March 2021, 10,000 Euros (\$11,715) in December 2021 and 10,000 Euros (\$11,715) in September 2022. Additionally, the University shall hire and train a doctoral student for this project and as such the Company shall pay the University 25,837 Euros (\$30,268 USD). In exchange for full ownership of the intellectual property, the Company agreed to pay royalties of 2% of net revenues to the University.

On May 11, 2021, the Company's scientific researchers with the Universities of Jaén and Granada, published data in a peer reviewed journal, *Expert Opinion on Biological Therapy*, confirming the anti-tumor potential of a mixture of two pancreatic proenzymes trypsinogen and chymotrypsinogen. Treatment with proenzymes sensitizes cancer stem cells which may allow standard treatment approaches like chemotherapy and radiotherapy to be more effective.

Between August 2020 to November 2021, advancements were made with the Company's patent portfolio including allowed claims describing a pharmaceutical composition for treating cancer in Brazil and a divisional application covering additional claims describing a pharmaceutical composition for treating cancer was granted in China (both covering the Company's lead patent application), a first granted patent describing a method to treat cancer stem cells in Australia, and granted patents in Australia, Indonesia and Singapore, citing higher doses of a pharmaceutical composition. The advancements represent three of four patent families covering the Company's lead product, PRP.

In November 2021, a Strategic Advisor to the Company was appointed to initiate the process of establishing a wholly owned, US based, R&D operating subsidiary, located in New Jersey. The Strategic Advisor will oversee establishment of the R&D operating subsidiary and identify strategic partners to assist with financing and resourcing to advance PRP towards a First-In-Human study for advanced cancer patients suffering from solid tumors.

Results of Operations

The following discussion should be read in conjunction with the Company's unaudited consolidated financial statements and notes thereto included elsewhere in this Report. The results discussed below are of the Company and its wholly-owned Australian subsidiary, Propane PTY LTD.

For the Three and Six months ended December 31, 2021, as compared to the Three and Six months ended December 31, 2020

Revenue

For the three and six months ended December 31, 2021 and 2020, we generated no revenue because we are currently undertaking research and development activities for market approval and no sales were generated in this period.

Administration Expense

Administration expense increased to \$346,164 for the three months ended December 31, 2021 as compared to \$216,179 for the three months ended December 31, 2020. This increase of approximately \$130,000 is primarily attributable to increase of approximately \$146,000 in general consulting, legal and investor relation fees, increase in accounting fees of approximately \$4,000 offset by decrease in other general and administrative expenses of approximately \$8,000, and decrease in approximately \$12,000 in employee remuneration expense.

Administration expense increased to \$777,904 for the six months ended December 31, 2021 as compared to \$539,290 for the six months ended December 31, 2020. This increase of approximately \$239,000 is primarily attributable to increase of approximately \$133,000 in stock-based expenses for services, increase of approximately \$145,000 in general consulting, legal and investor relation fees, offset by decrease in accounting fees of approximately \$9,000, decrease in other general and administrative expenses of approximately \$5,000, and decrease in approximately \$25,000 in employee remuneration expense.

Occupancy Expense

Occupancy expenses decreased to \$6,550 for the three months ended December 31, 2021 as compared to \$7,750 for the three months ended December 31, 2020. This decrease of approximately \$1,000 is primarily attributable to the decrease relates to exchange rate movements over the period when compared to the same period in 2020.

Occupancy expense decreased to \$14,286 for the six months ended December 31, 2021 as compared to \$16,954 for the six months ended December 31, 2020. This decrease of approximately \$3,000 is primarily attributable to the decrease relates to exchange rate movements over the period when compared to the same period in 2020.

Research and Development Expenses

Research and development expenses were increased to \$50,753 for the three months ended December 31, 2021 as compared to \$50,165 for the three months ended December 31, 2020. Research and development expenses were decreased to \$97,307 for the six months ended December 31, 2021 as compared to \$101,011 for the six months ended December 31, 2020.

Interest Expense/Income

Interest expense increased to \$177,905 for the three months ended December 31, 2021 as compared to \$157,835 for the three months ended December 31, 2020. This increase of approximately \$20,000 is primarily attributable to a decrease in amortization of debt discount of approximately \$26,000 for three months ended December 31, 2021, decrease in prepayment penalty fees of approximately \$13,000, decrease in accrual of interest expense for a total of \$5,000 and decrease in conversion fees of \$2,000 offset by increases in accretion of put premium interest expense of approximately \$26,000, for the six months ended December 31, 2021.

Interest expense decreased to \$287,758 for the six months ended December 31, 2021 as compared to \$317,116 for the six months ended December 31, 2020. This decrease of approximately \$29,000 is primarily attributable to a decrease in amortization of debt discount of approximately \$115,000 for six ended December 31, 2021, decrease in prepayment penalty fees of approximately \$13,000, decrease in conversion fees of \$6,000 and decrease in accrual of interest expense for a total of \$11,000 offset by increase in accretion of put premium interest expense of approximately \$116,000 for the six months ended December 31, 2021.

Change in Fair Value of Derivative Liabilities

Change in fair value of derivative liabilities were increased to \$163,853 for the three months ended December 31, 2021 as compared to \$16,950 for the three months ended December 31, 2020. This increase of approximately \$147,000 is primarily attributable to an increase in fair value of the principal amount of a convertible note with bifurcated embedded conversion option derivatives during the six months ended December 31, 2021.

Change in fair value of derivative liabilities were increased to \$167,757 for the six months ended December 31, 2021 as compared to a gain of \$48,002 for the six months ended December 31, 2020. This increase of approximately \$216,000 is primarily attributable to an increase in fair value of the principal amount of a convertible note with bifurcated embedded conversion option derivatives during the six months ended December 31, 2021.

Gain (loss) on Extinguishment of Debt, net

There were no notes converted that contained bifurcated embedded conversion option derivatives for the six months ended December 31, 2021. During the six months ended December 31, 2020, notes were converted with principal amounts totaling \$75,000 and accrued interest of \$3,000 and contained bifurcated embedded conversion option derivatives. Accordingly, the fair market value of the shares issued was \$134,155 resulting in a loss on extinguishment at the time of conversion of \$56,155 and \$106,140 of derivative fair value was recorded as a gain on extinguishment at the time of conversion.

Foreign currency transaction increased to a loss of \$110,215 for the three months ended December 31, 2021 as compared to a gain of \$45,235 for the three months ended December 31, 2020. This increase of approximately \$155,000 is primarily attributable to the increase in exchange rates during the three months ended in December 31, 2021.

Foreign currency transaction increased to a loss of \$1,086 for the six months ended December 31, 2021 as compared to a gain of \$47,195 for the six months ended December 31, 2020. This increase of approximately \$48,000 is primarily attributable to the increase in exchange rates during the six months ended in December 31, 2021.

Net loss

Net loss increased to \$799,977 for the three months ended December 31, 2021 as compared to a net loss of \$403,643 for the three months ended December 31, 2020. The change relates to the factors discussed above. Net loss increased to \$1,290,635 for the six months ended December 31, 2021 as compared to a net loss of \$829,188 for the six months ended December 31, 2020. The change relates to the factors discussed above.

Deemed dividend

The Company recognized the value of the effect of a down round feature related to our Series A warrants when triggered. Upon the occurrence of the triggering event that resulted in a reduction of the strike price, the Company measured the value of the effect of the feature as the difference between the fair value of the warrants without the down round feature or before the strike price reduction and the fair value of the warrants with a strike price corresponding to the reduced strike price upon the down round feature being triggered. Accordingly, the Company recognized deemed dividend of \$208,242 and a corresponding reduction of income available to common stockholders upon the alternate cashless exercise of these warrants.

Net loss available to common stockholders

Net loss available to common stockholders increased to \$893,375 for the three months ended December 31, 2021 as compared to a net loss available to common stockholders of \$403,643 for the three months ended December 31, 2020. This increase of approximately \$490,000 is primarily attributable to the change relates to the factors discussed above.

Net loss available to common stockholders increased to \$1,498,877 for the six months ended December 31, 2021 as compared to a net loss available to common stockholders of \$829,188 for the six months ended December 31, 2020. This increase of approximately \$670,000 is primarily attributable to the change relates to the factors discussed above.

Liquidity and Capital Resources

Current Financial Condition

As of December 31, 2021, we had total assets of \$110,177, comprised primarily of cash of \$73,616, GST tax receivable of \$5,625, prepaid expenses and other current assets of \$5,637, deferred offering costs of \$20,000, security deposit of \$2,181 and property and equipment, net of \$3,118. As compared to June 30, 2021, we had total assets of \$13,101, comprised primarily of cash of \$2,255, GST tax receivable of \$4,341, security deposit of \$2,250 and property and equipment, net of \$4,255.

We had current liabilities of \$3,040,370, primarily comprised of net convertible debt of \$972,670, accounts payable and accrued expenses of \$1,340,949, employee benefit liability of \$418,640, and embedded conversion option liabilities of \$221,977 as of December 31, 2021. As compared to June 30, 2021, 3,080,674, primarily comprised of net convertible debt of \$624,583, accounts payable and accrued expenses of \$1,894,486, employee benefit liability of \$418,538, and embedded conversion option liabilities of \$54,220 as of June 30, 2021.

We have funded our operations primarily through the issuance of equity and/or convertible securities for cash. The cash was used primarily for payments for research and development, administration expenses, occupancy expenses, professional fees, consultants and travel.

During the six months ended December 31, 2021 we received proceeds from exercise of warrants of \$375,000 and net proceeds from issuance of convertible notes of \$414,500.

We have substantial capital resource requirements and have incurred significant losses since inception. As of December 31, 2021, we had \$73,616 in cash. We depend upon debt and/or equity financing to fund our ongoing operations and to execute our current business plan. Such capital requirements are in excess of what we have in available cash and for which we currently have commitments. Therefore, we presently do not have enough available cash to meet our obligations over the next 12 months. If continued funding and capital resources are unavailable at reasonable terms, we may curtail our plan of operations. We will be required to obtain alternative or additional financing from financial institutions, investors or otherwise, in order to maintain and expand our existing operations. The failure by us to obtain such financing would have a material adverse effect upon our business, financial condition and results of operations, and adversely affecting our ability to complete ongoing activities in connection with our research and development programs.

Sources and Uses of Cash

	For the Six Months ended December 31,	
	2021	2020
Net cash used in operating activities	\$ (711,093)	\$ (440,975)
Net cash provided by financing activities	\$ 789,500	\$ 358,044
Effect of exchange rate changes on cash	\$ (7,046)	\$ 37,167

Net Cash Flow from Operating Activities

Net cash used in operating activities was \$711,093 for the six months ended December 31, 2021, due to our net loss of \$1,290,635 offset primarily by non-cash charges of amortization of debt discount of \$11,295, stock-based compensation of \$41,436, accretion of put premium of \$245,000, change in fair value of derivatives of \$167,757 and issuance and amortization of common stock for services of \$133,422. Net changes in operating assets and liabilities totaled (\$23,717), which is primarily attributable to increase in employee benefit liability of \$12,882, increase accrued interest of \$28,264 offset by decrease in accounts payable of \$51,037 and decrease in accrued expenses of \$6,772.

Net cash used in operating activities was \$440,975 for the six months ended December 31, 2020, due to our net loss of \$829,188 offset primarily by non-cash charges of amortization of debt discount of \$126,299, stock-based compensation of \$41,436, non-cash interest expense of \$8,250, accretion of put premium of \$129,333 addback foreign currency transaction gain of \$47,195, \$48,002 of change in fair value of derivatives and \$49,985 gain on extinguishment of debt. Net changes in operating assets and liabilities totaled \$227,133, which is primarily attributable to increase in accounts payable of \$77,749, employee benefit liability of \$24,497, accrued expenses of \$85,297, and accrued interest of \$38,027.

Net Cash Flow from Financing Activities

Net cash provided by financing activities for the six months ended December 31, 2021 were \$789,500 as compared to \$358,044 for the six months ended December 31, 2020. During the six months ended December 31, 2021 we received proceeds from the exercise of warrants of \$375,000 and net proceeds from issuance of convertible notes of \$414,500. During the six months ended December 31, 2020 we received proceeds from the exercise of warrants of \$201,044 and net proceeds from issuance of convertible notes of \$200,000 offset by repayments of convertible notes of \$43,000.

Effect of Exchange Rate

The effect of the exchange rate on cash resulted in a \$7,046 negative adjustment to cash flows in the six months ended December 31, 2021 as compared to an adjustment of \$37,167 positive adjustment to cash flows in the six months ended December 31, 2020. The reason for the fluctuation is due to the application of currency translation rates throughout the cash flow statement, the volume of transactions within each period and the daily fluctuation in exchange rates

Critical Accounting Estimates

Below is a discussion of our more subjective accounting estimation processes for purposes of explaining (i) the methodology used in calculating the estimates, (ii) the inherent uncertainties pertaining to such estimates, and (iii) the possible effects of a significant variance in actual experience, from that of the estimate, on our financial condition. Estimates involve numerous assumptions that, if incorrect, could create a material adverse impact on the Company's results of operations and financial condition.

Reference is frequently made herein to the Financial Accounting Standards Board (the "FASB") Accounting Standards Codification ("ASC"). This is the source of authoritative US GAAP recognized by the FASB to be applied to non-governmental entities. Each ASC reference in this filing is presented with a three-digit number, which represents its Topic. As necessary for explanation and as applicable, an ASC topic may be followed with a two-digit subtopic, a two-digit section or a two-or-three-digit paragraph.

Foreign Currency Translation and Comprehensive Income (Loss): The Company's wholly owned subsidiary's functional currency is the AUD. For financial reporting purposes, the Australian Dollar ("AUD") has been translated into USD as the Company's reporting currency. Assets and liabilities are translated at the exchange rate in effect at the balance sheet date. Revenues and expenses are translated at the average rate of exchange prevailing during the reporting period. Equity transactions are translated at each historical transaction date spot rate. Translation adjustments arising from the use of different exchange rates from period to period are included as a component of stockholders' equity (deficit) as "accumulated other comprehensive income (loss)." Gains and losses resulting from foreign currency transactions are included in the statement of operations and comprehensive loss as other income (expense). Effective fiscal year 2021, the parent company determined that intercompany loans will not be repaid in the foreseeable future and thus, per ASC 830-20-35-3, gains and losses from measuring the intercompany balances are recorded within cumulative translation adjustment, a component of other comprehensive income.

Accounting for Income Taxes: We are governed by Australian and United States income tax laws, which are administered by the Australian Taxation Office and the United States Internal Revenue Service, respectively. We follow ASC 740, "Accounting for Income Taxes," which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for temporary differences between the financial statements and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary, to reduce deferred tax assets to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period plus or minus the change during the period in deferred tax assets and liabilities.

The Company adopted provisions of ASC 740, Sections 25 through 60, "Accounting for Uncertainty in Income Taxes." These sections provide detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a "more-likely-than-not" recognition threshold at the effective date to be recognized upon the adoption of ASC 740 and in subsequent periods.

Accounting for Stock Based Compensation: We record stock-based compensation in accordance with ASC 718, "Stock Compensation" and Staff Accounting Bulletin No. 107 issued by the SEC in March 2005 regarding its interpretation of ASC 718. ASC 718 requires the fair value of all stock-based employee compensation awarded to employees to be recorded as an expense over the related requisite service period. The statement also requires the recognition of compensation expense for the fair value of any unvested stock option awards outstanding at the date of adoption. We value any employee or non-employee stock-based compensation at fair value using the Black-Scholes Option Pricing Model.

We account for non-employee share-based awards in accordance with the measurement and recognition criteria of ASC 718.

Derivative Instruments: ASC 815, “*Derivatives and Hedging*,” establishes accounting and reporting standards for derivative instruments and for hedging activities by requiring that all derivatives be recognized in the balance sheet and measured at fair value. Gains or losses resulting from changes in the fair value of derivatives are recognized in earnings. On the date of conversion, or payoff, of debt, we record the fair value of the conversion shares, remove the fair value of the related derivative liability, remove any discounts and record a net gain or loss on debt extinguishment.

Convertible Notes with Variable Conversion Options: We have entered into convertible notes, some of which contain variable conversion options, whereby the outstanding principal and accrued interest may be converted, by the holder, into common shares at or around a fixed discount to the price of the common stock at the time of conversion. We treat these convertible notes as stock settled debt under ASC 480 and measure the fair value of the notes at the time of issuance, which is the result of the share price discount at the time of conversion, and record the put premium as accretion to interest expense.

Research and Development Tax Credits: We may apply for Research and Development tax concessions with the Australian Taxation Office on an annual basis. Although the amount is possible to estimate at year end, the Australian Taxation Office may reject or materially alter the claim amount. Accordingly, we do not recognize the benefit of the claim amount until cash receipt since collectability is not certain until such time. The tax concession is a refundable credit. If we have net income then we can receive the credit which reduces its income tax liability. If we have net losses, then we may still receive a cash payment for the credit, however, our net operating loss carry forwards are reduced by the gross equivalent loss that would produce the credit amount when the income tax rate is applied to that gross amount. The concession is recognized as an income tax benefit, in operations, upon receipt.

Recent Accounting Pronouncements

Please see section captioned “Recent Accounting Pronouncements” in Note 1 to our unaudited condensed consolidated financial statements included in this Quarterly Report for a discussion of recently issued and adopted accounting pronouncements.

Going Concern Qualification

We did not generate any revenue for the six months ended December 31, 2021 and 2020 and have incurred significant losses and cash used in operations, and such losses and use of cash are expected to continue. Our independent registered public accounting firm has included a “Going Concern Qualification” in their audit report for each of the fiscal years ended June 30, 2021 and 2020. In addition, we have negative working capital and convertible debt that is past maturity that we are currently negotiating with lenders in order to amend the maturity dates. The foregoing raises substantial doubt about our ability to continue as a going concern for a period of 12 months from the issue date of this report. Our ability to continue as a going concern is dependent on our ability to execute our strategy and on our ability to raise additional funds and/or to consummate a public offering. Management is currently seeking additional funds, primarily through the issuance of equity and/or debt securities for cash to operate our business. No assurance can be given that any future financing will be available or, if available, that it will be on terms that are satisfactory to us. Even if we are able to obtain additional financing, it may contain undue restrictions on our operations, in the case of debt financing or cause substantial dilution for our stockholders, in case of equity and/or convertible debt financing. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. The “Going Concern Qualification” might make it substantially more difficult to raise capital.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Not applicable to smaller reporting companies.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management is responsible for establishing and maintaining disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Exchange Act) that are designed to reasonably ensure that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure based closely on the definition of “disclosure controls and procedures” in Rule 15d-15(e) under the Exchange Act. In designing and evaluating the disclosure controls and procedures, our management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

At the end of the period covered by this Quarterly Report, we conducted an evaluation (the "Evaluation"), under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that, as of December 31, 2021, the disclosure controls and procedures of our Company were not effective to ensure that the information required to be disclosed in our Exchange Act reports was recorded, processed, summarized and reported on a timely basis because of the material weaknesses in internal control over financial reporting described below.

Material Weaknesses and Corrective Actions

In connection with the audits of our financial statements for the fiscal years ended June 30, 2021 and 2020, we identified certain deficiencies relating to our internal control over financial reporting that constitute a material weakness under standards established by the Public Company Accounting Oversight Board (the "PCAOB"). The PCAOB defines a material weakness as a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis.

The following material weaknesses in our internal control over financial reporting continued to exist at December 31, 2021:

- we do not have written documentation of our internal control policies and procedures. Written documentation of key internal controls over financial reporting is a requirement of Section 404 of the Sarbanes-Oxley Act of 2002 (the "Sarbanes-Oxley Act");
- we do not have sufficient segregation of duties within accounting functions, which is a basic internal control. Due to our limited size and early-stage nature of operations, segregation of all conflicting duties may not always be possible and may not be economically feasible; however, to the extent possible, the initiation of transactions, the custody of assets and the recording of transactions should be performed by separate individuals;
- lack of audit committee of our board of directors; and
- insufficient monitoring and review controls over the financial reporting closing process, including the lack of individuals with current knowledge of U.S. GAAP.

We believe that these material weaknesses primarily relate, in part, to our lack of sufficient staff with appropriate training in U.S. GAAP and SEC rules and regulations with respect to financial reporting functions, and the lack of robust accounting systems, as well as the lack of sufficient resources to hire such staff and implement these accounting systems.

Subject to raising sufficient additional capital, we plan to take a number of actions in the future to correct these material weaknesses including, but not limited to, establishing an audit committee of our board of directors comprised of at least two independent directors, adding experienced accounting and financial personnel and retaining third-party consultants to review our internal controls and recommend improvements. We will need to take additional measures to fully mitigate these issues, and the measures we have taken, and expect to take, to improve our internal controls may not be sufficient to (1) address the issues identified, (2) ensure that our internal controls are effective or (3) ensure that the identified material weakness or other material weaknesses will not result in a material misstatement of our annual or interim financial statements. In addition, other material weaknesses may be identified in the future. If we are unable to correct deficiencies in internal controls in a timely manner, our ability to record, process, summarize and report financial information accurately and within the time periods specified in the rules and forms of the SEC will be adversely affected. This failure could negatively affect the market price and trading liquidity of our common stock, cause investors to lose confidence in our reported financial information, subject us to civil and criminal investigations and penalties, and generally materially and adversely impact our business and financial condition.

Limitations on Effectiveness of Controls and Procedures

In designing and evaluating the disclosure controls and procedures and internal control over financial reporting, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures and internal control over financial reporting must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Changes in Internal Controls over Financial Reporting

There were no changes in our internal controls over financial reporting that occurred during the quarter ended December 31, 2021 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

We are not currently involved in any litigation that we believe could have a material adverse effect on our financial condition or results of operations. There is no action, suit, or proceeding by any court, public board, government agency, self-regulatory organization or body pending or, to the knowledge of the executive officers of our Company or our subsidiary, threatened against or affecting our Company, our common stock, our subsidiary or of our companies or our subsidiary's officers or directors in their capacities as such, in which an adverse decision could have a material adverse effect.

Item 1A. Risk Factors.

We are not required to provide this information as we are a smaller reporting company.

COVID-19

In March 2020, the outbreak of COVID-19 (coronavirus) caused by a novel strain of the coronavirus was recognized as a pandemic by the World Health Organization, and the outbreak has become increasingly widespread in the United States, Europe and Australia, including in each of the areas in which we operate. The COVID-19 (coronavirus) outbreak has had a notable impact on general economic conditions, including but not limited to the temporary closures of many businesses, "shelter in place" and other governmental regulations, reduced business and consumer spending due to both job losses, reduced investing activity and M&A transactions, among many other effects attributable to the COVID-19 (coronavirus), and there continue to be many unknowns. While to date we have not been required to stop operating, management is evaluating its use of its office space, virtual meetings and the like. We continue to monitor the impact of the COVID-19 (coronavirus) outbreak closely. The extent to which the COVID-19 (coronavirus) outbreak will impact our operations, ability to obtain financing or future financial results is uncertain.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

From October 1, 2021 through December 31, 2021, the Company issued an aggregate of 1,818,097 shares of its common stock at an contractual conversion price of \$0.01 as a result of the conversion of principal of \$25,000, and interest of \$1,726 underlying certain outstanding convertible notes converted during such period.

On December 10, 2021, the Company issued 1,000,000 shares of common stock to Dutchess Capital Growth Fund LLP as a commitment fee for entering into and pursuant to the terms of a Common Stock Purchase Agreement with the Company dated November 30, 2021. The 1,000,000 shares of common stock were valued at approximately \$0.02 per share or \$20,000, being the closing price of the stock on November 30, 2021, the date of grant.

Except as otherwise noted, the securities in the transactions describe above were sold in reliance on the exemption from registration provided in Section 4(a)(2) of the Securities Act for transactions not involving any public offering. Each of the persons acquiring the foregoing securities was an accredited investor (as defined in Rule 501(a) of Regulation D) and confirmed the foregoing and acknowledged, in writing, that the securities must be acquired and held for investment. All certificates evidencing the shares sold bore a restrictive legend. No underwriter participated in the offer and sale of these securities, and no commission or other remuneration was paid or given directly or indirectly in connection therewith. The proceeds from these sales were used for general corporate purposes.

Item 3. Defaults Upon Senior Securities.

As of December 31, 2021, we were in default under certain convertible promissory note issued to certain noteholders on August 10, 2017, October 3, 2019, and December 10, 2020 for failure to pay an aggregate of \$185,280 and \$39,461 of principal and accrued interest, respectively, as of December 31, 2021, subsequent to their maturity dates. We are currently in discussions with such noteholders to extend such maturity dates. See "Note 6 – Convertible Notes" to our unaudited condensed consolidated financial statements in Part I of this Quarterly Report for additional information.

Item 4. Mine Safety Disclosures.

Not Applicable.

Item 5. Other Information.

There is no other information required to be disclosed under this item which has not been previously disclosed.
